

KEEP AMERICA'S WAMPUM SOUND!

By SAMUEL H. BEACH,
President, Savings Bank Division,
American Bankers Association.

Although the United States is today upon a solid gold basis, we nevertheless know of our own knowledge what inflation means. It would take long to recall in detail the bitter experiences which this nation suffered during the Civil War and the years which followed it, and in our present easy condition we might think such conditions could never again arise. But with such men as Henry Ford and Thomas A. Edison talking about commodity money there is no foretelling what may happen.

One of the plainest lessons taught by financial history is that whenever a nation issues paper money with nothing back of it, that nation is on the road to disaster. Look at Russia with its worthless rubles and Germany with its worthless marks. Think of what happened in France during the years immediately following our Revolutionary War.

The common people of France rose in their might, tore down the Bastille, and made reprisal for centuries of king crime and oppression. The prodigal court had piled up taxes until they were unbearable. The enraged populace killed King Louis XVI and also his queen, Marie Antoinette. But they only threw themselves out of the frying pan into the fire so far as finances were concerned.

Unsound Money Tyranny
At the very worst point of their currency inflation they found themselves under the absolute domination of Robespierre. In order to meet the growing scarcity of coin, paper money called assignats were issued. First 400,000,000 francs worth, then 800,000,000 were added with the distinct understanding that the 1,200,000,000 would be the full extent of the issue. This pledge was soon broken and further issues brought the total up to \$700,000,000 francs.

Frightful depreciation was the inevitable result; and legislation was passed making it a crime, with six years' imprisonment as the penalty, if any one should refuse to take the paper assignats at their face value. Just think of it! A French peasant after working the entire year to produce a crop was compelled by law to accept payment for that crop in paper money, which he knew to be worthless, or go to prison.

It was simply legalized robbery. When the penalty was increased to twenty years imprisonment the inevitable climax came. The Reign of Terror was at its height. Robespierre was in supreme power. He suggested that more assignats be issued and if the people did not take them the guillotine should be the penalty.

Robespierre's End
This unheard of outrage was more than the people could stand. An unknown man arose on the floor of the convention and denounced Robespierre, reciting the heinous crimes he had committed, and so worked upon the feelings of the audience that Robespierre, the tyrant, became Robespierre, the convicted criminal. Two days later he was led to the guillotine. France had learned her financial lesson well—that money must have value back of it.

The fallacy of unsound money is sure to confront us again. Never is there enough of everything for all the people. The struggle for existence is a real struggle, and those who find themselves in the lower strata of human society are ready at any time to grasp at fiat money or any of the other things which misguided politicians hold out to them.

My whole purpose is to drive home the fact that danger lies ahead and to urge every one to let no opportunity go by to use voice and influence to ward keeping the wampum of these United States, as it is today, the soundest currency in the world.

SOME BANK SALARIES

Investigations made by the Missouri Bankers Association have revealed that 368 banks in the state in towns of under 2,000 population are paying their cashiers and chief executives an average of only \$110 a month. Only 273 of the 1,162 reporting banks in towns under 5,000 population pay the president a salary. The report says: "It indicates that, even allowing for the economy of living in small communities, the cashiers and managing officers of those 1,162 banks, who receive an average of \$140 per month, either must have personal means to begin with, or must maintain the standards necessary to their positions as the leaders of their communities and the builders of the commonwealth by means of 'side lines,' such as selling insurance, collecting commissions on

G. O. P. NATIONAL COMMITTEE FAIRLY ATTACKS FAIR TARIFF LEAGUE.

The brief summary of the pamphlet "What the Tariff Does to Kansas," issued by the Fair Tariff League of which Mr. H. E. Miles is the Chairman, sent out last week is the Weekly News Service of the Democratic National Committee, drew a statement from the Republican National Committee that is unparalleled for misrepresentation and downright falsehood. The statement appeared in the New York Herald of Sept. 6, sent from its Washington Bureau. Before quoting the Republican National Committee, the Washington correspondent of the Herald said:

"Today the Democratic National Committee said an investigation had revealed that the tariff act had cost the people of Kansas \$66,418,876 and benefited them to the extent of only \$256,698. Of the total loss, the farmers, it was stated, had to stand \$31,640,846.75."

The correspondent adds, "farm organizations have joined in this campaign."

The correspondent then quotes the Republican National Committee as follows:

"Free trade lobbyists maintaining expensive offices at Washington and conducting a very extensive publicity campaign, are out in a new attack on the Fordney Tariff in an effort to mislead the farmers. The attack is fanned by the lobbyists of a well-known farm organization. These officials, who are Democrats, are using the organization's name and prestige in a continuous campaign."

The simple facts are that the pamphlet, "What the Tariff Does to Kansas," was compiled by the experts of the Fair Tariff League, of which Mr. H. E. Miles is Chairman, with offices in New York, not in Washington. The Fair Tariff League believes in a protective tariff and frankly says so, but it defines honest protection as "the difference in the cost of production here and abroad." It is not a partisan organization, but its general committee and membership are largely Republicans. It includes representatives of 2,500,000 farmers and 500,000 wage-earners, women's organizations, merchants and manufacturers. It has the assistance of over forty capable experts. It has no connection with any political committee.

This is the organization which the

Republican National Committee publicly brands as "free-trade lobbyists maintaining expensive offices at Washington," declaring that its officials are Democrats.

In furnishing reliable statistics of what the tariff does to the various states in the Union, Mr. H. E. Miles is providing the public with the finest possible educational lessons of the highest value with respect to the Fordney-McCumber Profiteers' Tariff which is costing the people of the United States \$4,000,000,000 a year, \$3,500,000,000 of which goes into the pockets of the specially protected special interests. It is this infamous tariff which is chiefly responsible for the disastrous conditions of agriculture, which maintains and at times increases the high cost of living and which is detrimental to honest and legitimate business everywhere.

IN HONOR OF MISS MARTHA LOU HOOKS.

Mrs. Jeff T. Kemp entertained last Friday evening at 7 o'clock with a buffet supper in honor of her niece, Miss Martha Lou Hooks, who graduated from Yoe High School in June and who left Monday for Abilene to enter Simmons College. A delightful supper consisting of chicken salad, sandwiches of two kinds, fruit salad, cheese balls, potato chips, pickles, olives, brick cream, angel food and devil's food cake served the following couples: Martha Lou Hooks, Bassett Watson; Eugenia Wallace, Jack Hearrell; Elois Rogers Ralph Joynes; Bessie Wiley, Billie Clark; Mary Sue Denson, Clifton Jenness; Louise Adams, Moulton Cobb; Pauline Green, Alton Baggett; Helen Green

Help Kidneys By Drinking More Water

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of Jad Salts, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

"Slimy Taste"

"When I feel stupid, get constipated, or bilious, I take a good dose of two of Black-Draught and it sets me straight," writes Mr. George B. Haislep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right. I have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

BLACK-DRAUGHT

Liver Medicine

and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant. I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicine I need. I recommend it to others for I know it is good."

Court House News

TICK ERADICATION IS SUSPENDED IN COUNTY

COURT VOTES TO STOP WORK ON FIRST OF OCTOBER THIS YEAR.

Tick eradication in Milam county will be discontinued so far as the Commissioners Court is concerned, October 1. The court voted to discontinue on that date but will erect a county vat at Cameron to facilitate the movement of cattle.

The county has pent about \$80,000 all of which will be a total loss to the tax payers unless individual stockmen over the county carry on the work at their own expense. The vats built, if the eradication work is not continued or resumed in the future will serve no purpose except for shipments of cattle as provided in the regulations.

The position of the court is well taken in view of the fact that it has no assurance the work can be carried on successfully with tick infested counties adjoining.

The following statement was given out by Judge Jeff T. Kemp Wednesday:

"On Thursday, September 13, 1923, the Commissioners Court of Milam county, by a unanimous vote, discontinued systematic tick eradication work effective October 1, 1923. This was done for the reason that the court was assured that there was no prospect of 'cleaning up' the county this year or in the future with the adjoining counties of Robertson, Burleson and Lee not doing systematic tick eradication work and for the further reason that the county was not able to meet the financial obligations imposed without injustice to other interests.

"In order that shipment of cattle, tick free, can be made from the county the court requested the Live Stock Sanitary Commission of Texas to appoint an Inspector for this county, his salary to be paid by the county. And the court having confidence in Raymond Beard, who has been in charge of the work for the Federal Government for the last year, asked for his appointment.

"If the request of the court is granted by the Live Stock Sanitary Commission, it will be necessary that pens and vat be built according to plans furnished by the Commission at which cattle, horses and mules must be dipped for shipment to points in Texas other than for market. Cattle for market must be dipped twice, an intermission of seven days between first and second dipping, which can be done at home vat, then, if clean, can be shipped to market and there dipped upon arrival and put in 'native pens.'

"The expense of dipping must be borne by owners of stock at all vats in the county except at the County Vat, for which the county will provide 'dip.'

CAMERON YOUNG MAN INVENTS A VALUABLE AUTO ENGINE PART.

Ralph Chambers, son of W. W. Chambers of Cameron, has filed an affidavit in the records at the county clerk's office certifying to an invention of a valve lift for a combustion engine. He has applied for a patent for the piston lifter and his friends have strong hopes that he will be successful with his invention.

DISTRICT COURT IS WORKING ON HEAVY DOCKET FOR TERM.

The District Court began the trial of criminal cases Monday and will continue for the full term in the trial of nothing but criminal cases.

In the case State of Texas vs. J. D. Matthews, charged by indictment with breaking jail and assisting a prisoner to escape, was given two years in the state penitentiary by a jury. The negro had made a written confession but on the day of the trial repudiated his own confession and entered a plea of not guilty. He went before the jury in his own behalf, making a speech to the jury. He also cross examined the witnesses.

State of Texas vs. Jesus De La Cruz charged by indictment with assault and intent to rape on Annie Steinberg, a ten year old white girl near Rockdale, was found guilty by the jury and given a five year suspended sentence. The state was represented by A. J. Lewis and the Mexican was represented by S. M. Burns.

State of Texas vs. Walter Doggett charged by indictment with transporting liquor, case was passed because defendant who is under \$1000 bond failed to appear for trial. The bond was ordered forfeited by the court. The sureties are Dr. W. R. Newton and F. C. Mondrik. An alias canis was issued by District Clerk Penn Wolf and placed in the hands of Sheriff Dr. S. Rogers. Doggett is believed to have left the county for Old Mexico. He was in Cameron

Tuesday but failed to show up for trial Wednesday.

The case State vs. Henry Rhoades, negro, charged by indictment with manufacturing liquor was on trial Thursday. Friday morning the case of State of Texas vs. Lazrus Carey, negro charged with selling intoxicating liquor, will be tried. One of the state witnesses, Lafayette Richards, was recently killed by lightning near Yarrrellton.

Special venire in the cases State vs. Allan Scroggins, Rodney Cravey, Arthur Von Rosenberg, have been drawn and placed in the hands of the Sheriff to be summoned.

REAL ESTATE TRANSFERS.

The following sales of farm and city property have been reported the past week. Small deals involving little consideration and unimportant are not carried:

\$5250—R. C. Knipp to W. H. Trigg, block 14 in Reese addition to the city of Cameron.

\$1500—Essie B. Peoples to Chas. Swift one hundred acres out of the Dunlap survey.

\$1150—Leona Posey to L. N. Posey 40 acres out of the Rebecca Moore league, and ten acres out of the Sterrett Dobbins league.

\$5000—The Shear Company to J. E. Boyd 141 acres out of the A. H. Boles survey.

\$2400—Peter Moribitzer to F. C. Mondrik 14 2-3 acres out of the W. W. Lewis survey.

\$5200—Paul Ponkoney to W. A. Brown eighty acres of land.

\$3760—D. B. Worcester to the Citizens National Bank 22 45-100 acres of land out of the J. W. Rhodes survey.

AUTO LICENSE NUMBERS. Tax Collector Bill Alex Bonds has not yet received automobile license numbers for 1924 but they are expected to be on hand within the time prescribed.

The State Highway Commission has ordered 700,000 auto seals for 1924 and delivery is to be made Oct. 1. The cost is \$21.50 per 1,000 and the purchase was made through the State Board of Control.

The background of the seal will be red and the figures and letters will be in white. The year "1924" will appear and the words, "Registered Motor Vehicle." The seal will be rectangular in shape and will indicate that the auto license fee for 1924 has been paid.

INSTITUTE FOR NEGROES. The Tri-County Teachers' Institute for the negroes composed of Milam, Lee and Burleson counties, will be held in Caldwell September 24 to 28, inclusive. Jim F. Chadwick, county superintendent of Milam county, has received a large number of programs. Other Superintendents are E. McIntosh of Lee County, and Lee Hensley of Burleson county.

J. O. Hughes, chief clerk in the office of County Clerk H. M. Roark, with Mrs. Hughes, has returned from a two weeks stay in Louisiana where they visited relatives and friends. His friends are glad to meet him again at his familiar post in the busy office of the county clerk.

666 Cures Malaria, Chills and Fever, Dengue or Bilious Fever.

COSTS OF CITY PLUMBING DISCUSSED BY COUNCIL

SCHEDULE OFFERED IN CONNECTION WITH PLAN TO REQUIRE CONNECTIONS

Cost of plumbing in Cameron which has been under investigation by the council is discussed in the report of A. F. Mitchell and J. F. Brown appointed by the council to make a schedule of prices in connection with the move to require all property owners to connect with the sewer system.

The following report is made by the engineer and plumbing inspector. Honorable Mayor and Aldermen, City of Cameron, Texas.

Gentlemen:—Pursuant to your request we, J. F. Brown, and A. F. Mitchell, submit herewith a complete list of pipe, connections, and all fixtures necessary for the connections of residences with the City Sanitary Sewer System, with the prevailing prices of same at this time:

1 Toilet	\$35.00
20 ft. 4 inch s i l pipe	7.20
2 4 inch Tees	1.60
1 4x16 elbow	1.25
1 4 inch Cleanout	.75
1 4 inch Brass ferrules	.60
1 ft. 4 inch Lead pipe	.60
1 4 inch Foot Flashing	1.50
30 lbs. Pig lead	3.60
3 lbs. Oakum	.30
60 ft. 1-2 inch Galvanized pipe	4.20
10 1-2 inch Fittings	1.00
60 ft. 4 inch pipe laved	18.00
Labor	15.00
Inspecting	1.50

Sub Total \$92.10

Note—For each foot of 4 inch Clay Pipe used for a distance of greater than 60 feet from toilet to City Sewer line the sum of 30c per lineal foot of pipe laid should be added to the above sum of \$92.10.

Respectfully submitted, J. F. BROWN, A. F. MITCHELL.

TEXAS COTTON CROP WILL AVERAGE QUARTER BALE TO THE ACRE.

George B. Terrell, Commissioner of Agriculture gave out the following report on the condition and production of cotton today:

"Reports received from fifteen hundred correspondents representing about 200 counties, show serious damage to cotton during the month of August, caused by drought. The crop is 53 per cent of normal and indicates a crop of 3,500,000 bales based on one-fourth of a bale per acre, which is 222,000 bales below the Government estimate of 3,722,000 bales. My opinion is the Government estimate is a little too high for Texas, but about right for the other States according to the reports I have received from the cotton growing States.

"These reports indicate that the total crop will be a little less than 11,000,000 bales, which is a very short crop, and is less than the World's consumption.

"These estimates have caused an

advance in the market as the trade generally expected a crop of 11,000,000 bales or more and the advance is natural and the price should remain firm around 25 or 26 cents, and should advance later in the season, if the crop is not rushed on the market too rapidly.

"The price paid for ginning ranges from 30 to 40 cents per cwt. of seed cotton, averaging 35c per cwt. and the cost of bagging and ties averages \$1.30 per bale.

"The price paid for cotton seed at the gin ranges from \$32.00 to \$44.00 per ton, averaging \$35.00 on Sept. 1st. The cost of picking cotton ranges from 15c to \$1.50 per cwt. the average being about \$1.10 Sept. 1st.

"The average price per pound being paid for middling cotton Sept. 1st at interior points was 22 1-2 cts. The average cost per pound of lint cotton to produce this crop as shown by reports of farmers who kept cost items upon blanks furnished by this Department is 24 cents. If crop is sold for less than 25 cents the farmers will scarcely receive the cost of production."

DEATH OF OLD CITIZEN.

E. Gray, aged 79 years, a long time resident of Milam county, died at his home in the Salem community last week and was buried Thursday at Walkers Creek. Mr. Gray fought with Lee in Virginia and was a true and loyal son of the South. In his younger days he was a great athlete, and would often walk ten or twelve miles into town rather than ride in any conveyance. He enjoyed true sport and kept his mind active and his body vigorous to a good old age. His death resulted from a fall.

TWO WEDDINGS SUNDAY.

County Judge Telf T. Kemp officiated at two weddings Sunday, T. R. Welch, a young business man of Dallas and Miss Eunice C. Wise, were married at the court house Sunday morning. Mrs. Welch is a Milam county girl, daughter of Mr. and Mrs. Tobe Wise of Hanover. She

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, back-ache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

has been working in Dallas as stenographer for several month and while there met the man of her choice. The couple returned to Dallas where they will make their home.

Mr. Claude Bailey and Miss Gladys Dycus were married Sunday afternoon at the home of Judge Kemp. Mr. and Mrs. Bailey are both from Yarrrellton. After the ceremony, they motored to Hanover where a dinner was given in their honor at the home of Mr. and Mrs. Ab Stewart.

HEFLEY-CAGE.

Howard Hefley, son of Mr. and Mrs. John Hefley, of Big Springs, former Cameron people, will be married next Saturday in Georgetown, Texas, at the First Methodist church at 10 o'clock in the morning to Miss Eula Cage, daughter of Mr. and Mrs. James Baylis, Cage of that city.

Howard is a nephew of Sam and Hubert Hefley of Cameron. He was born here and lived here until he was ten or twelve years old. He now holds a good position with the Producers Oil Company. Miss Cage has been employed in one of the state offices in Austin, Mesara, and Mesdames Sam and Hubert Hefley and Miss Jernsha Rogers, a cousin of the groom, expect to attend the wedding.

RECEPTION FOR FACULTY.

The Parent Teachers Association of the Cameron schools will hold a reception for the new Superintendent and the entire faculty in the halls of the Yoe High school building, Friday night, September 21. All patrons and friends of the school are invited and urged to attend. Get acquainted with the teachers let them have your hearty co-operation.

KEITH-BOX.

Cards are out announcing the marriage of George Enid Keith to Miss LaVert Box in Nolanville, Texas, Thursday, September 27.

George Enid Keith is a son of Mr. and Mrs. H. C. Keith of Cameron and is an employee of the Santa Fe R'y at Clifton. He is a splendid young man with many friends in Cameron who wish him success and happiness.

REDS IN AMERICA.

How many "reds" are there in the United States? When is a man a "red" and when is he only a "pale pink?"

Nobody seems to know. The American Bar Association, through its Committee on American Citizenship, believes that there are a million and a half "red." Other civic organizations with a different definition of what is a "red" put the number much lower.

The man in the street understands by "a red" a person who wants to overthrow the Government, who believes in the Soviet rather than in representative government, who thinks the sword and the torch, the industrial revolution and the commune, are better than the economic structure of this or any other civilized country.

But many an alleged "red" is only "pale pink" in the sunlight.

By a "pale pink" most of us understand a man who is radical in ideas, in that he believes the present order of things is due for a change, but who wishes that change made in an orderly and legal manner. A "pale pink" may believe wholeheartedly in a commune (in which everybody shares in everything, in which all are equally wealthy,) and yet desire to bring about such a state of affairs by educating people to demand such an amendment of the Constitution as will insure that plan. A "red" may strongly desire child labor to be forbidden, education made free to all, government ownership and building of national highways and other "good" ideas, and think the best way to get them is to start with a revolution, battle, murder, riot, death!

The "pale pink" radical is not a menace. The "red" is. That there are a million and a half men and women in this country who want revolution, is unthinkable. That there are not more than a million and a half "pale pink" people is probable; prosperity always decreases and hard times increases their number.

All good Americans are on guard against the real "red," but it is not inherent in any red-blooded American to be scared of an army of "reds," which is really very pale pink. Only a few hotheads really try to invade American sanity with anarchy. Let us concentrate on these, and not scatter our efforts to make this land 100 per cent American by worrying over the harmless "pale pink."

PROHIBITION DEBATED IN THE BRITISH COMMONS.

In a recent debate on the prohibition bill offered by Mr. Scrymgeour, Mr. Roberts made the following significant statement:

Mr. Roberts: An election is taken on one hundred different questions. While I think the Bill is open to very serious objection I disagree with the opponents of the measure in the attitude they have taken up. They claim their alcoholic liberty, and they think no one has the right to interfere with the liberty of anyone to drink as he likes, and they are convinced that prohibition in the United States is a complete and absolute failure. It is not my business to defend American prohibition. I have made investigations for years past in the United States myself, and though I have the greatest possible admiration for that great nation, I have no very great trust or confidence in their statistics, for they seem to me very rarely to distinguish between facts and snippeth from newspapers. Therefore I distrust these statements of visitors and travelers who come back. In these matters the eye sees very much what it brings with it the power to see. An Honorable Member opposite quoted the case of a traveler who came back saying he had been unable to find a teetotaler in the United States. I can go one better than that. I have a friend who was six months in the United States and never saw a funeral, and he came back saying Americans did not die. The extraordinary thing about it is that, according to a certain set of statements, if you go to the United States you can buy liquor everywhere without the least difficulty, and that clearly is the reason why it is so strongly objected to by the liquor trade. You find the whole place reeking in drunkenness according to these statements, you find that there is smuggling everywhere, and all the doctors are engaged in a conspiracy, by means of medical permits, to destroy the effect of prohibition. I have a calculation as to the total amount of liquor which could be supplied under the medical permits which have been given out. If all the medical permits given out to doctors were used to their fullest extent it would amount to 1 per cent of the pre-prohibition drink trade. We are told of the terrible smuggling that takes place from England. If you take all the exports of spirits from this country to all the places bordering on the United States from which liquor could possibly be smuggled in, it would amount to

1-2 per cent of the pre-prohibition American drink bill. But, however that may be, on whatever side the justice may be of these discrepant travelers' tales which are brought back, there is one thing that is quite simple. There is no one single legislature in the United States where you can destroy the case for American prohibition. You can do it in the British House of Commons, but in no one of forty-eight legislatures in the United States could you do it. The people who live there and who know about it have been faced with this problem for fifty years. They have been passing this kind of legislation for village, township, county, state, and then for the whole continent. They have their annual, triennial and quadrennial elections, and the people who live on the spot and who have a democratic constitution apparently are not convinced by all these evils that are told to us by travelers who come back. From the last quotation which I have seen of President Harding's views, he thinks that it is futile to expect a repeal of prohibition there. I am content to leave it there, on the authority of the people who live in the country and who have to accept the responsibility.

In 1920 the United States were in the world slump of commercial depression. Everyone said that it was impossible to imagine that one country could get out of the slump by itself, and that the world had to get out of the abyss of depression together. What has happened? In America trade is booming. There is a shortage of labor, there is no unemployment, there is great commercial prosperity. What is the fact which differentiates us from them? If you turn the enormous river of gold which goes to an unproductive trade, a trade which is at best a luxury, and at worst a social and degrading poison, and you divert it into channels of productive industry, you set in motion a force which makes for industrial and commercial prosperity and the economic welfare of the nation. That is the view which I take of American Prohibition, or of what I think is very much more important, Canadian prohibition, the standard of law enforced in Canada is a great deal better than in the United States. Anyone who knows the difference between these two countries will agree with that.

If we were called upon to select the European country with the brightest future we would take Czechoslovakia. That country's government is applying common sense of the first quality to the nation's problems. Instead of systematically lying about the prohibition law of the United States the press of Czechoslovakia is giving the subject sober consideration and officials are encouraging the development of popular thought to the point that the liquor problem can be reduced to minimum proportions. An atmosphere of devotion and confidence pervades the population. Czechoslovakia is destined to be one of the richest and most progressive states among the nations.

'24 BUICK PROVES REAL SENSATION IN CAMERON

NEVER HAS NEW MODEL RECEIVED SUCH ACCLAIM AS THIS.

Motorists are not given to paying more than passing attention to so-called "sensations" in new models. Only once in a blue moon, and only once, does the unusual happen, and since Aug. 1, 1923, it has happened. Tacoma has been no different from other cities of the country which acclaimed the 1924 Buick the motor car sensation of the year from every angle.

Every since Aug. 1 the showrooms have been the magnet for unvarying crowds. Day after day and evening after evening they have come to look at the six-cylinder touring model. Last Sunday, when a four-cylinder sedan and a six-cylinder coupe were shown as an added attraction, the attendance for the day reached a figure not attained on any previous day.

But the interested men and women who flocked to the showrooms did not come through curiosity alone, for they placed orders. This is the same fact which has been recorded everywhere. In Los Angeles, on August 1, the Howard Automobile Company took 124 retail orders for 1924 Buicks. Tacoma was not far behind. Mr. Hawkins said, for more orders were taken for the 1924 Buick in the first week than it was shown than in any similar period since the Buick has been represented here.

Mrs. Alta Klavansky leaves today for Austin and will begin her sophomore year in the State University at the opening of the fall term. She will room in the Scottish Rite Dormitory.

Souvenirs Her Hobby

By MORRIS SCHULTZ

(©, 1923, Western Newspaper Union.)

"THIS is the room occupied by General Washington after the battle of Trenton," piped the little, withered-up, old landlady.

"Looks like an ordinary room to me," grunted Jim Crane.

"Oh, James, how perfectly sweet!" exclaimed his wife enthusiastically. "Just think of our sleeping in the room Washington slept in after the battle of Trenton. Who else slept here, Mrs. Starch?"

"This room," piped Mrs. Starch in melancholy tones, "is called the celebrities room. It has been occupied by Lincoln, General Grant and Edgar Allan Poe at various times. This chair is one Benedict Arnold once sat down in."

"Oh, Jim, do look at Benedict Arnold's chair! Isn't it dear?" cried Molly.

"Well, they can say that James Crane also sat down in this chair," grumbled her husband, planting himself heavily in it.

"Jim, you are so unromantic—"

"Seventy bucks a week, just to say we've sat down in B. Arnold's chair and slept in the room occupied by—"

"But that bed was slept in by General Washington after the battle of Trenton!" exclaimed Molly. "Just think of it, James! It's something to be proud of all one's life, to say one slept in the bed Washington slept in."

Jim Crane grunted without answering. He had too much common sense to respond. He knew his wife was crazy on the subject of antiques.

Besides, the little country inn, which looked no better than a small farmer's cottage, was packed with the wealthy, indulging in the luxury of residing in the same house as Washington, Grant, Lincoln, Edgar Allan Poe and Benedict Arnold. But of all the guests none equaled the Cranes, who were envied and esteemed—for they had the celebrities room.

"All I got to say," grunted Jim Crane next morning, "that if Washington, Lincoln, Grant, and Edgar Allan Poe occupied that bed they must have slept mighty badly."

"Now, Jim, you are horrid!" exclaimed Molly. "You know perfectly well in those days they had great soft feather mattresses."

"Humph!" said Jim Crane. "Still, I'm not surprised B. Arnold preferred to sit up all night in that chair. It doesn't look like a very old chair to me."

In fact he had a curious sort of idea that he had sat in that chair before. He dared not tell Molly, however, because he knew she would tell him it was reincarnation.

The week wore away. The Cranes were tortured and envied; they slept the sleep of the damned, but everyone pointed them out during the day as the people occupying the celebrities room.

Old Mrs. Starch was the fifth of the generations to occupy the old Starch mansion. It had housed all the leading men of Revolutionary and Colonial times. In short, Mrs. Starch, when she was left impoverished, had suddenly struck a gold mine by converting her home into a hotel and charging proportionate prices.

"Well, I hope you've enjoyed your visit, Molly," growled Jim Crane, on the last afternoon. "One more night in George Washington's bed and I'll be glad to hit the hay in our own little home."

"Listen, Jim," said Molly. "I believe Mrs. Starch would sell us Benedict Arnold's chair for two thousand dollars. She hinted—"

"Two thousand! Say, that's the limit!" yelled Jim Crane, tearing his hair.

"But, Jim, dear, just think of having it in our drawing-room and—"

"I won't fall for that stuff!" howled Jim, and Molly, with an offended gesture, sallied out of the room, leaving him in despair.

He knew that she would have her way. It was a clear waste of two thousand honest dollars. Left alone, he stared at the chair, which leered back at him with its crooked arms and splay legs sprawling.

With sudden unaccountable anger Jim Crane raised his shoe-tree and brought it down, smash, smash, upon Benedict Arnold's chair.

The chair collapsed into brittle sections. Startled by the sounds, Molly and Mrs. Starch came running in. They screamed.

"Jim, what have you done?"

Jim grabbed Molly by the arm and pointed to something lying among the debris.

"See that pocket-knife?" he asked grimly. "That's mine. I lost it down the back of the seat five years ago, when that chair belonged to me, before I sold off my old junk to Cohen. That chair cost \$10.35 f. o. b. Grand Rapids, and—"

He turned on Mrs. Starch. "It's all bunk!" he shouted. "Washington never slept here, nor Lincoln, nor any body more interesting than James and Molly Crane. But I take off my hat to you as the greatest little advertiser I've struck."

Heard It Rattle.

"Is Mr. Glimping at home?" asked a voice over the wire.

"No," replied Mrs. Glimping. "But wait a moment. I hear him coming in the car."

"Are you sure it's Mr. Glimping?"

"Quite. We're the only family in this neighborhood with a 1917 model!"

Christmas Cards

For 1923

We announce the arrival of one line of our samples for Christmas cards, by far the most attractive line yet seen in Cameron.

Engraving will be handled by us on a better basis than you can secure from out of town engravers, and we are asking the people of Cameron to support a home institution.

You Will Have To Order
Early To Get What
You Want.

Printing That Sells

Herald Publishing Co.

Cameron, Texas.

LOCAL AND PERSONAL

Miss Tillie Eanes spent Sunday with her parents in Christman.

Miss Ruby Lengert of Rockdale was a guest of Mrs. Willie Davis Sunday.

Miss Annie Laurie Rohner, a former Cameron girl, is doing stenographic work in the Scott and White Hospital in Temple.

An assistant coach for the Yoe High foot ball team arrived recently in the home of his parents, Coach L. Van Perkins and wife. He weighs ten pounds and has good lungs.

Miss Terry Dollar of Mississippi is a guest of her cousin, Mrs. B. J. Baskin, for a few weeks before leaving for her school in Brenham. Miss Dollar has been studying in the Southwest Texas Normal this summer.

Miss Carrie Roark of Lancaster a member of the Mayfield school faculty, is visiting in the home of her brother, County Clerk H. M. Roark, until the opening of the Mayfield school, Monday, September 24.

H. H. Pruett, principal of the Yarellton school was a Cameron visitor Saturday. Mr. Pruett stated that on account of the large amount of cotton yet to be harvested, the Yarellton school would not open for several weeks yet.

Geo. T. Moore, Jr., son of Mr. and Geo. T. Moore, who has been in a serious condition following an appendicitis operation, was reported some better Tuesday. He is a patient in the Cameron Hospital.

Miss Mildred Moore, who graduated from Yoe High school last June, will leave this week for Houston and may enter Rice Institute later on.

Miss Loula May Crawford of Viano has returned home after a visit here with a former school mate Miss Louise Denson.

Leland Denson of Waco spent the week end here with his parents, Dr. and Mrs. John L. Denson. Leland will be Athletic Coach in Government school this year.

Mrs. W. M. Cobb spent Monday in Temple.

Rev. B. B. Blaylock, pastor of the Temple Memorial Baptist church, was a Cameron visitor Tuesday.

If you have any old clean cotton rags, bring them to this office.

Mrs. C. W. Lawrence and daughter Miss Alice, left Tuesday morning for Milford where Miss Alice will enter Texas Presbyterian College for the fall and winter term. Miss Jennie Tyson, daughter of Mr. and Mrs. R. Tyson, will also be a student in the same school. Miss Jennie left earlier in the week.

Stewart Epperson, who has been taking a pre-med course for the past three years, will work this year in Houston but expects to enter the Medical Department of the State University next year.

As I have sold my photograph studio in Cameron to another party, those wishing photos will please call before October 10th. F. E. Beach.

Mrs. H. H. Hartsfield and Miss Inez Tyson have a positions with the Lawrence Abstract Company.

Born to Mr. and Mrs. E. O. Schiller, Sunday morning September 16, a son.

Rev. E. S. Sansom, wife and baby of Mayfield stopped in Cameron Tuesday afternoon for a short visit. They had just returned from a visit to Georgetown and Austin and were accompanied home by Mrs. Sansom's mother, Mrs. Gribble of Austin. Mr. Sansom is pastor of the Mayfield Presbyterian church and has been added to the Mayfield school faculty for the coming term.

Pick up a piece of money by bringing your old clean cotton rags to this office.

Friends in Cameron are rejoicing with Mr. and Mrs. Marion Morton of Dallas over the arrival of a little son in their home a few days ago.

Mrs. J. T. Parma and little Mildred, also Mrs. D. J. Kubecka spent most of the week in San Antonio and Austin.

Will T. Yates, sold his dairy farm located a short distance north of the city limits this week to Roy Griffith and Carey Avriett, effective, October 1st. Mr. and Mrs. Yates will move to Dallas and make their home there where their only son, Coran, is taking a course in Dental Surgery in the Baylor Dental College.

Mrs. Dr. Gray of Houston was the guest of Cameron friends Saturday.

Mrs. N. Y. Self of Port Sullivan has been a guest of her daughter, Mrs. Gunn and Mrs. Huggs Slaughter for the past few days.

J. A. Ely, of Gause, has accepted a position with B. J. Baskin & Sons. Miss Kathryn Hancock spent Sunday in Gause.

Mrs. W. M. Caldwell returned Friday night from a three months visit to her son, Woody Caldwell, in Bozart, Michigan.

J. O. Hughes, first deputy county clerk and Mrs. Hughes returned Friday from a two weeks visit in Louisiana. Mr. Hughes stated that during the week he spent in Shreveport, 8 inches of rain fell. On the return trip he passed through portions of Texas where no rain had fallen while other parts had received heavy rains.

Mr. and Mrs. John Perry have returned from a two weeks visit in California. They were guests of Mrs. Perry's cousin, Milton (Pete) Stevens and wife.

F. E. Beach, photographer in Cameron for 23 years, has sold his studio to C. F. Merchant of Waco who will take charge of the business about October 10. Mr. Beach is a real artist and has enjoyed excellent patronage from the people of this section. He has been in this line of work for 35 years. He will not leave Cameron, but has not announced his plans.

Mr. and Mrs. Robert Southwell have a new baby boy in their home.

Quite a number of Cameron people attended the funeral of Roe Owens, former deputy sheriff of Milam county who was buried at Little River Cemetery Tuesday afternoon.

Miss Ruth Coleman left Sunday for Milford. She will teach Latin in the Milford High School this year.

Miss Louise Denson has as her guest for the week, Miss Addie Blair of Eddy, and for dinner guest on Tuesday, Miss Bill Fountain of Jones Prairie.

Mrs. W. A. Beal has returned from Sherman where she attended the wedding of her sister, Miss Lula Gough.

Jack Vest who has been visiting in Port Arthur is at home with his parents, Mr. and Mrs. J. G. Vest.

Mrs. Earl Westmoreland has returned from a visit in Mississippi.

Mike Coleman is able to be up after an appendicitis operation and expects to be able to begin work in a short time.

Mrs. C. J. Newton and daughter, Mrs. R. B. Mayes of Mayfield were in shopping Tuesday afternoon.

Mrs. R. D. Brown has returned from Dallas where she represented the Presbyterian Auxiliary of the Cameron church at a meeting of the Synodical and visited her sister, Mrs. A. Templeton.

Misses Imogene Ross of Houston, and Eleanor Phillips of Rockdale were guests of Miss Irene Cheeves last week.

Mrs. James Posey, Mr. and Mrs. E. E. Jarrett and children, who were guests of Mr. and Mrs. F. R. Dunlap last week have returned to their home in Torgue. Mrs. Posey is Mrs. Dunlap's mother and Mrs. Jarrett is a sister.

Mr. and Mrs. Joe B. Preston are now occupying the home recently vacated by Mr. and Mrs. P. H. Medsker.

Miss Hartha Lou Hooks left Monday for Abilene and will enter Simmons College for the fall term.

Miss Irene Cheeves who has been visiting friends in Dallas, is expected home today.

C. W. L. Shaeg, secretary of the Cameron Mutual Life Insurance Co., reports that the company now has over nine hundred members with good prospects for 1000 by October.

Mrs. Ernest Kelso and Miss Mary Kelso of Mayfield were here shopping Monday.

Mr. and Mrs. Savantha Sansom and daughter, Miss Willie, have returned to their home in Georgetown after a visit in Mayfield with Rev. E. S. Sansom and family.

Misses Bess and Carrie Vaughn Bozarth of Austin are guests of Mrs. Frank Craven.

Dr. W. J. Fontaine and daughter, Miss Willie of Jones Prairie were Cameron visitors Tuesday.

Mrs. S. W. Cheeves visited her niece Miss Mary Frances Green, in the Temple Hospital and other relatives in the city last week.

Mrs. Marvin Avriett of Pleasant Hill is here to be with her sister, Mrs. Carey Avriett, who is a patient in the Cameron Hospital, and also to visit another sister, Mrs. T. A. Howell.

Mr. and Mrs. T. A. Howell and son Lee, spent Sunday in Austin with Mr. and Mrs. Jay Howell.

Mrs. Kirby Boles is able to be out again after a week's illness.

Newton McDonald, traveling salesman for a St. Louis paper house, is visiting in Cameron this week.

Dr. A. B. Guine returned Monday night from a visit to south Texas.

Mrs. Otto Becker of Ben Arnold was shopping in the city Monday morning.

Mr. and Mrs. Wiley Mangum and little daughter, Elizabeth, motored to San Antonio Friday, returning Sunday night.

Mr. and Mrs. C. S. Peyton of Cleburn were guests of Mr. and Mrs. Alex Triggs, Mr. and Mrs. W. J. Woods and other friends this week. Mr. Peyton is District Manager of the Southwestern Bell Telephone Co., was former manager of the Cameron Exchange, and Mrs. Peyton was Miss Bonnie Brower, a former member of Cameron's school faculty, music department. They are on a two weeks vacation and left here Thursday expecting to continue their travels into Old Mexico. It was a pleasure to their many Cameron friends to have them spend a part of their vacation here.

Mrs. Al Harland of Branchville was shopping here Monday.

Miss Xie Frain of Gause was a Cameron visitor Saturday.

Lyons McCall, Yoe High school graduate of 1923, and star foot ball player for that year, left Friday for San Marcos and will attend the Southwest Texas Normal this winter.

Fountain Flinn manager of the Flinn farm at Bishop, was here this week visiting his mother, Mrs. E. A. Flinn.

Mr. and Mrs. Leslie Green and little daughter spent Sunday in Gause with Mr. and Mrs. Walter Thomas.

Mrs. W. Klawnsky visited in Waco last week end.

Walter Thomas, druggist of Gause, was a business visitor in the city Friday.

Mrs. V. L. Sheffield left Saturday to visit her daughter in Fort Worth.

Mrs. B. Rohner of Temple spent Sunday with Mrs. Cora Cammer.

Mrs. Tom Turner was able to be moved home from the Cameron Hospital Monday. She is recovering from an appendicitis operation.

Miss Tabbie Robinson spent Sunday in Buckholts with her cousin, Miss Maurine Robinson.

Mr. and Mrs. O. F. Robinett of Mayfield were Cameron visitors last week. Mrs. Robinett is one of the most successful teachers in the county and will be at the head of the Mayfield school again this year.

Mrs. J. W. Coleman and daughter, Miss Sallie, left last week for Taft to be present at the marriage of James L. Coleman and Miss Betsy Inez Friday, which was solemnized in the Presbyterian church of Taft Wednesday morning at 10 o'clock.

Relatives in Cameron were notified last week of the death of Mrs. C. P. Dodge of Houston. Mr. Dodge, a former Cameron man, is General Sales Manager of the Texas Company.

Mr. and Mrs. Ed. F. English spent Sunday in Buckholts with relatives.

Miss Kathryn Kelso, daughter of Mr. and Mrs. Ernest Kelso of Mayfield, who has been a student at Daniel Baker College, Brownwood for the past two years, left last week for Itasca and will teach this winter in the Presbyterian Home and School for Orphans, located at Files Valley, a few miles from Itasca. Mr. J. E. Watts, former Superintendent of the Cameron school, is president of the institution.

R. B. Parsons, principal of Yoe High school for two years, received his M. A. Degree from the University of Chicago in August and is now visiting his mother in Mayfield, Kentucky. Mr. Parsons will come to Baylor College, Belton at the opening of the fall term on the 26 of September as professor of education. He expects to visit Cameron soon after his arrival in Texas. He was very popular with the student body and has many friends here, among the citizens who will be glad to welcome him to Texas again.

Roy Griffith and C. A. Avriett spent Sunday in Pleasant Hill visiting in the home of Robert Griffith.

Mrs. Margaret Wilburn of Rockdale and her daughter in law, Mrs. E. M. Wilburn and two children of Dallas, spent Monday here with Miss Jeffie Wilburn and Mrs. Joe Dusek.

W. J. Bassett, general agent for the Southwestern Life Insurance Company of Dallas, was a business and social visitor in the city Sunday and Monday. He was a guest in the home of his sister, Mrs. John Watson.

L. L. Blaylock returned Saturday from a business trip to south Texas.

Miss Grace Mangum left Saturday for Rosebud and began her second years work as a member of the Rosebud school faculty Monday.

Mrs. Martha Smith, an old settler in Milam county is in Cameron this week visiting in the home of her son, John Williams. Mrs. Smith was 88 years old last Friday and the day was fittingly observed in her grandson's home and old friends called to pay their respects to the honoree.

Mrs. Smith's father was Judge Walker whom all the old settlers in the Saline community many years ago.

Mrs. Grantham, mother of Mrs. George Mangum is another old settler in this section. She was 82 years of age. She was 82 years of age.

Mrs. Otto Becker of Ben Arnold was shopping in the city Monday morning.

Mr. and Mrs. Wiley Mangum and little daughter, Elizabeth, motored to San Antonio Friday, returning Sunday night.

ROE OWEN, WIDELY KNOWN BURIED TUESDAY.

Roe Owen, former Deputy Sheriff of Milam county, died at his home in Waco Monday. The body was forwarded to Cameron and met here by a number of old friends and escorted to Little River Cemetery for burial.

The following from a Waco paper gives a short sketch of his life and details of the funeral service.

Illness of many months resulted in the death of Roe Owen, who passed away at his home, 724 North Eleventh street. The funeral will take place Tuesday afternoon at Little River church, just below Cameron, where the body was shipped Tuesday morning by the Compton Undertaking company. Rev. B. T. Goodwin will officiate.

Active pall bearers will be: A. W. Bounds of Belton, Bob Todd, J. K. Freeman and Jeff Kemp of Cameron, George Lehman and Z. A. Booth of Rosebud, Honorary: Jess Venoy of Belton, Bennett Smith and N. S. Erskine of Temple, M. Burton, Constable Harvey Butts, G. B. Brown, Frank Tannison and Bob Lyon of Waco.

Born in Mississippi, Mr. Owen had spent the greater portion of his life in Central Texas. He was constable at Rosebud at one time, and he was city marshal at Temple for a number of years. He was a member of the police department here for about six years, and three years of that time he served as night chief. In Waco Mr. Owen was known to and highly esteemed by many friends, and he had a wide acquaintanceship throughout the state.

Besides his wife, he is survived by two sons, Monte E. and Onnie B. Owen, both of Waco. He also has three brothers and four sisters. Officers: Owen, Rogers, C. T. Owen Santa Anna; M. A. Owen, Quanah; Mrs. John Crow, Rogers; Mrs. A. A. Lovorn, Temple; Mrs. H. Havo, Eddinburg; Miss, and Mrs. J. Barnes, Carthage, Miss.

Mr. Knipp is with the Educational Film Corporation of Kansas City and after a bridal trip to Niagara Falls, Mr. and Mrs. Knipp will return overland to Kansas City to make their home. After her graduation from Randolph-Macon, Mrs. Knipp taught in a girl's school in Atlanta, Ga.

On Wednesday of this week Mrs. C. P. Leavson of this city mother of the groom received a box containing a slice of the wedding cake, and a card which contained the following: "First slice of Bride's cake cut by the bride for the groom's mother." Mrs. Leavson, and Mrs. Kathryn Robbins, sister of the groom are looking forward to a visit from Mr. and Mrs. Knipp at Thanksgiving.

DAY-CARGILE The parlor of the Central Hotel of Galveston was the scene of a pretty wedding Tuesday evening, Sept. 18, when Geo. R. Day of Los Angeles, Calif., and Miss Anna Cargile of Cameron, Texas were united in marriage. Miss Cargile held a very prominent position with the Harvey Co. at Galveston. Immediately after the ceremony they left on a few weeks wedding trip and will then return to Galveston where Mr. Day will establish a business and make that their future home.

Judging a Great Institution by Small Defects

By J. H. PUELICHER
President American Bankers Association.

It would be difficult to find a banker, understanding thoroughly the Federal Reserve System, willing to admit that we could continue a first-class commercial nation, without the Federal Reserve Banks, or mechanisms similar to them. Yet there is antagonism to the Federal Reserve Banks based in a measure on some minor mistakes in administration, but more generally on a misunderstanding of their purposes, of what should be expected of such a system.

The banker, as much as any man, is to blame for the present misconception. He found Federal Reserve Banks a ready scapegoat to blame for no matter what happened. If it seemed desirable to refuse or call a loan it was easy to say that the Federal Reserve Bank wished it, although it should have been refused because contrary to good banking practice.

Most of all was the system blamed for the fact that violent inflation which hundreds of business men and bankers hoped might be continued forever was finally checked by putting up Federal Reserve interest rates. There were those who blamed the system for not having put up the rate soon enough and others who blamed it because it put up the rate at all.

The penalty for thus blaming every business mishap on this valuable system may be the loss of its much needed benefits. If we wish to save the present bank of the United States from the fate of its two predecessors we must make known to America, to its rank and file, the splendid usefulness of these institutions.

We must admit at the outset that in their administration mistakes have been made, that governors of Federal Reserve Banks and members of the Federal Reserve Board are human beings, and in the administration of the affairs of any institution by human beings mistakes will be made, but these have been so insignificant as compared with the outstanding usefulness of the institutions themselves that they should be judged by the good which they have performed, which, after all, has been along the line of their designed achievement, rather than by those errors which time and experience can easily eliminate.

COOPERATIVE FARM MARKETING NOTES

Progress of the Movement to "Put Farming on Par With Other Big Business."

A pamphlet and questionnaire on co-operative farm marketing recently issued by the State Bank Division, American Bankers Association, has brought out valuable information on the subject from bankers, farmers and state agricultural departments. It is being used as a campaign document in the organization of co-operative marketing associations in various sections of the country, farmers having adopted its slogan: "Put Agriculture on a Par with Other Big Business."

The movement on the part of farmers toward co-operative marketing as a cure for their present economic plight is nation-wide. There has been notable progress in the development of such associations, some conspicuously successful ones being in operation at the present time. There have also been some disastrous failures among these ventures in co-operative marketing, which is the inevitable accompaniment of the progress of any movement. The "Banker-Farmer," published by the American Bankers Association, says:

"Cause and effect are operative in co-operative marketing as truly as they are in every other business enterprise. An association will not necessarily succeed or fail merely because it is a co-operative association, but because it conforms to or transgresses from the underlying principles of successful business operation. The movement itself is of great national import and the bankers of the country can materially aid or retard its progress. The responsibility of leadership in rural communities rests very largely with the country banker. It is his duty to be informed on all matters relating to the farmers' well-being."

Modern conditions are such that agriculture cannot be successful by individual effort. To regain its position as a basic industry, and as a force in national affairs, agriculture must depend upon organization and co-operation for economic production, for economic marketing and for the establishment of its proper relationship in community life.—Howard Leonard, President, Illinois Agricultural Association.

A TARIFF OF DISTRESS AND ILL WILL WITHOUT BENEFIT.

While Texas is the greatest cattle state in the Union with 6,155,715 head, a third more than Iowa and twice as many as any other state, the tariff on cattle is of no benefit whatever to Texas, while on the other hand it is a distinct injury to the corn producers of the Northwest and an affront to Canada, which is both a good neighbor and a good customer. The tariff on cattle is 1 1-2 cents per pound for animals weighing less than 1,050 pounds, and 2 cents per pound for animals weighing 1,050 pounds or more.

Incidental to his valuable statistical information concerning what the tariff does to Texas (and other states as well) Mr. H. E. Miles, Chairman of the Fair Tariff League, shows the injustice of the tariff on cattle to the farmers of the Northwest and the injury to business generally by reason of the decline in Canadian purchases in this country, which were reduced \$400,000,000 in one year as a result of the rates on cattle in the Fordney-McCumber Profiteers' Tariff act. In analyzing this cattle tariff and its effect, with special reference to Canada, Mr. Miles says:

"Our tariff on cattle was a direct affront to Canada, that exports some 200,000 head of range cattle annually."

"Our Northwestern farmers need these Canadian feeder-cattle. The United States as a whole requires 4,500,000 feeders annually. Canadian feeders-cattle should carry to Europe the corn and other feed of our Northwest. By the sudden imposition of our Fordney duties Canada was left without a market. Last winter a traveler in the Canadian cattle country counted 300 cattle and horses, standing up, frozen to death, in a distance of 150 miles on one side of his train. How many more were lying down or were on the other side of the train, and in the far reaches beyond sight? This when beef was high in our cities and corn in our Northwest was selling at from 26 to 31 cents per bushel."

"The just wrath of Canadians will not be overcome in many years. Their purchase from us were reduced by \$400,000,000 in one year, not from anger only, but mostly because we would not accept, on fair terms, of such of their commodities as we could use in payment for our goods. 'We make a mockery of our hosts that our ungarded Canadian boundary lines is imaginary only. We fortified it with worse than guns, with a tariff of distress and ill-will that give us never a benefit.'

"Canada errs in attributing this action to the American people. She apparently thinks that our public rules in tariff matters. She does not realize that the Fordney law was enacted by a few over-powerful manufacturers, who betrayed the principle of protection, fooled the people, and disregarded the better judgment of many manufacturers who wanted lower duties on their own and other manufactures."

"Leading American farm organizations are now urging a repeal of our duty on cattle."

FIFTY BOYS AND GIRLS OFF FOR SCHOOL.

More than fifty Cameron boys and girls, nearly all of whom are graduates of our high school, will enter higher educational institutions this month.

Some will finish their course and get degrees next June, some are members of the middle classes and some are entering as freshmen. They will be enrolled in the following schools: State University—Moulton Cobb,

Joyce Cox, Mildred Chamebrs, Harriett and Agnes Henderson, Eugene and Pauline Green, Mary Jo Harlan, Alta Klawansky, George Hefley, Bassett Watson, Charles Young, Marvin Sykes.

Medical Department, State University—Emil Klatt.

Baylor University—Louise Denson, Sallie Coleman, Mary Young, Earl Bragg, Lee Howell, Ray and Robert Mayfield.

Southwest Texas Normal—Jo Smith, Lyons McCall, Margaret McDermott, Alton Baggett, John Yoe, Hayden Willis, W. D. Blackstone, Franklin Dusek, Bessie Wiley, Lula Davis.

Baylor Dental School—Coran Yates, Jack Taylor.

Southwestern University—Anna Lou Baskin, Lee Tag, Charlie Frank Green, Siema Klatt.

Georgia Aech—Lee Sens, Harleigh McGregor, Ralph Joynes, Billie Hefley.

A. and M. College—Joe Mohler.

Texas Presbyterian College—Alice Lawrence, Jennie Tyson.

Simmons College—Martha Lou Hooks.

Dallas Kindergarten Training School—Dallie Young.

Texas Military School—Sherwood Owens, Phillip Reid.

Baylor College—Olive Henderson.

Rice Institute—Mildred Moore.

Tyler Commercial College—Lucille McClaren.

Toby's Business School—Nona Hubert.

Santa Rosa Nurses Training School—Mildred Mohler.

Columbia University—Louise Green.

D. A. R. MEETING.

The Sarah McCalla Chapter, Daughters of the American Revolution, met Tuesday afternoon in the home of the newly elected Regent Mrs. T.

S. Henderson. Nine members were present and an enthusiastic session was enjoyed. Members of the Chapter with several invited guests will visit some of the historic spots in Milam county Saturday, September 22. It is their plan to leave Cameron Saturday morning for Old Fort Nashville where they will spread lunch and on the return trip will visit Sugar Loaf Mountain and the Lone Pine.

"INTERNATIONAL BANKER" A MYTH

Otto H. Kahn Refutes Idea That Foreign Finance Activities Dull Allegiance to America.

BANKING REFLECTS BUSINESS

"International Farmer" and Other Business Men Who Sell to Foreign Markets Create Demand for International Financial Service.

The idea that bankers engaged in financing foreign trade and in handling foreign bond flotations are a particular cult of "international bankers" actuated by motives differing from those of other bankers was refuted recently by Otto H. Kahn of New York, in an address before the Rochester Chamber of Commerce.

"There is no such thing as an 'International Banker' in America, as the meaning of the term is generally understood," Mr. Kahn said. "He exists in the imagination of people all too numerous, but he does not exist in the flesh. You might just as well speak of the 'International Farmer' because the farmer sells a certain percentage of his crops to Europe, or of the 'International Manufacturer'."

"The banker maintains, and can maintain, international contact, and conduct international business, only to the extent that American industry, commerce and agriculture are international. True, the banker must take within his purview continuously the conditions of affairs and the current of things throughout the world, but so must the exporter and importer, and so must the farmer take into account the prices and tendencies of the world market in Liverpool.

Banking Mostly Home Business

"The American banker's market is the home market. His success is conditioned upon the capacity and willingness of the American investor to absorb the securities which he offers. His very existence depends upon the confidence and co-operation of the public and of his fellow-bankers—and any banker whose activities would justify create the impression that he was actuated by cosmopolitan rather than by American interests would very soon lose that confidence and following.

"The business which he does for his own account in, with, or for Europe is inconsiderable as compared to the business he does in America. His principal functions in relation to Europe are to provide the requisite banking facilities for export and import and for travelers. That part of his functions which consists in financing loans of foreign governments or industries has hitherto been, with sporadic exceptions, of relatively inconsiderable proportions as compared to the vastness of the volume of his transactions in financing American industry, commerce and enterprises.

Necessity for Foreign Credits

"In saying this, I do not mean to imply that there is anything that calls for apology in the floating of foreign loans in America and in the loaning of American funds to Europe, provided such loans are considered sound as to security and are made for legitimate, constructive purposes. Indeed such loans ought to, and I believe will be made in increasing measure, when conditions in Europe will have become such as to warrant it.

"It is manifest that the promotion of our export trade, including, of course, the export of farm products requires us, under the circumstances as they now are and are likely to remain for some time, to aid the purchasing power of other nations by extending to them financial facilities to a reasonable extent.

"It is the function of the banker to be instrumental in carrying out such transactions. In doing so, he is the means of serving a useful national purpose, just as he served a useful indeed a highly important national purpose, in being the means of attracting and bringing European capital to America in former years, when conditions were reversed and such capital was nothing less than vital to the development of this country and the realization of its opportunities."

FOR SOUND MONEY

Senator Oddie of Nevada, chairman of the United States Senate commission to investigate the problems of gold and silver mining, has allayed the fear that Western Senators, in their zeal to aid the cause of silver, might launch an unsound money wave. "I am for sound money," Senator Oddie says. "There is no thought of bimetalism or departing from the gold standard. We desire to help the great mining industry, but not through the creation of an unsound currency."

The commission is to study and report on the causes of the continuing decrease in the production of gold and silver; the causes of the depressed condition of the gold and silver mining industry in the United States; the production, reduction, refining, transportation, marketing, sale, and uses of gold and silver in the United States and elsewhere; and the effect of the decreased production of gold and silver upon commerce, industry, exchange and prices.

MISS RUTH GOUGH MARRIES IN SHERMAN.

Mrs. W. A. Beal returned last week from Sherman where she had been to attend the wedding of her sister, Miss Ruth Gough. Miss Gough has been a frequent visitor in Cameron and might be classed as a Cameron girl. She was a niece of the late Mrs. Lula Cass, and is a first cousin of Mrs. Sam Hefley. Her brother, Bailey Gough, who gave her away, is an old Cameron boy and her sister, Mrs. C. L. Hefley, who attended the wedding from McAlester, Okla., married in Cameron and married a Cameron boy.

A beautiful and a full description of the wedding appeared in the social column of the "Daily Chronicle" a Sherman paper from which the following notes are quoted:

"An early fall wedding in which many Sherman friends have been interested was that of Miss Ruth Gough of this city and Mr. Olen M. Harned of McAlester, Okla., which occurred on Tuesday afternoon at 4:15 at the First Baptist church. There is no better known or more popular girl in Sherman than this bride of Tuesday afternoon, and she possesses all the attributes of a lovely character, which have endeared her to her friends. She is a daughter of Mrs. M. Gough of North Travis Street, reared and educated here and has been a successful teacher for several years.

Mr. Harned is well known in this community and has been traveling for some time in the interest of the Interstate Cotton Oil Refining Co.

Mr. and Mrs. Harned departed on the 4:50 train for a bridal trip to Galveston after which they will return to Sherman to make their home.

MRS. JEFF T KEMP IS CHAIRMAN OF CHRISTMAS SEAL STAMP SALES HERE.

Mrs. Jeff T. Kemp has been appointed chairman of the Red Cross Christmas seal sales campaign of Milam county. This announcement is made by the Texas Public Health Association. Lewis E. Brady, representing the association was in Cameron Wednesday.

The proceeds from the sale of these health stamps are applied to public health work over the state. The stamp has had a wide sale in this county each year and it is certain to have a wide sale at the coming Christmas period.

TAX COLLECTOR BONDS OFF ON COLLECTION TOUR OF COUNTY.

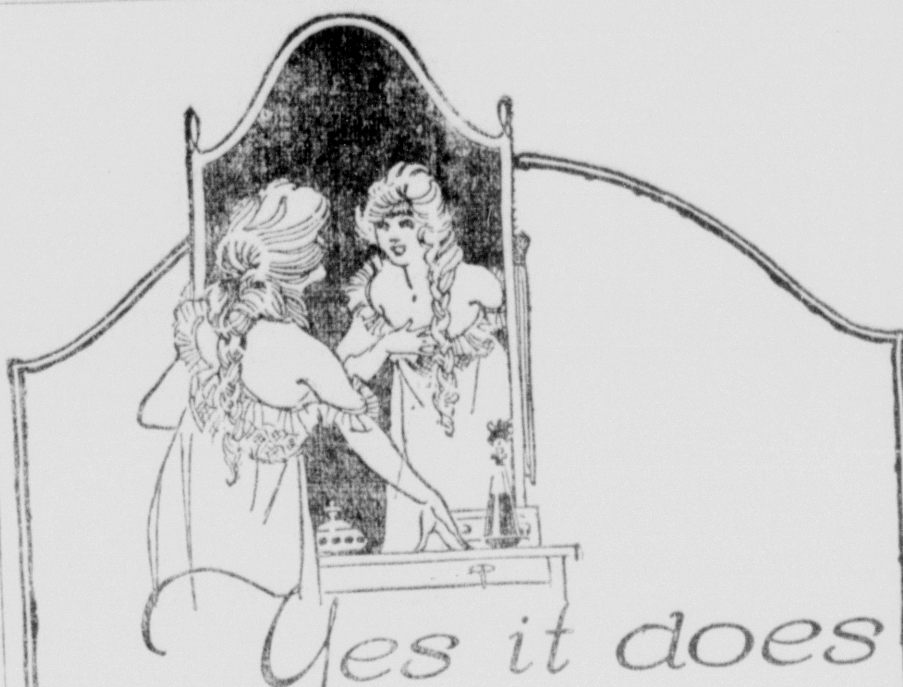

With cotton selling at 28 cents there is little belief that the delinquent tax list this year will be large. Tax Collector Bill Alex Bonds will leave Cameron in a few days for points over the county where he will spend nearly thirty days in collection of taxes.

Circulars have been printed and an advertisement in the Herald shows the dates and the places he will visit. It is a convenience to the tax payers to have the collector make this annual trip and all are requested to pay in the communities where he will work during the month.

Fort Worth Mutual Benevolent Association of Texas

CHARTERED UNDER THE LAWS OF THE STATE OF TEXAS

THE MUTUAL PLAN OF INSURANCE

This plan of insurance is meeting the demands of the insuring public and is fast taking the place of the high rated companies all over the state. It is the old reliable plan of Insurance, and the common sense way. It brings the universal need of life insurance protection within easy reach of every white person between the ages of 16 and 60, anywhere in the state of Texas. This cost is based on the actual death, disability, and accident claims of its members.

BENEFITS.

In event of death or total disability the claim is paid not to exceed \$1,500.00. Accident benefit is one half of the value of the policy which is not taken from the death benefits.

DIFFERENT CLASSES.

The membership is divided into several classes, 16 to 45; for the younger people. 16 to 60 to take care of the older people. By this plan the younger people are not putting their risk against the age of the older people. Each class is independent of all other classes.

LOW COST OF THIS PLAN.

For the year 1921 the death rate of this state was 10.33 per 1,000. This includes all ages and all classes of people. By the separation of our membership into classes according to ages the cost of the younger class will naturally not be as much as for the older people, which is right.

G. C. McCollum

District Manager.

Cameron, Texas.

Five Thousand for an Ear

By ANTHONY REIMERT

(© 1922, Western Newspaper Union.)

GEORGE, the elevator boy at the hospital, has a very pretty car, delicately shaped, like a girl's. On the other side he wears his long hair brushed low.

Miss Van Dyce, the society beauty, had shell-like ears, like George's. George had often seen her, for the Van Dyce home is not far from the hospital. Everybody knew the beautiful Miss Van Dyce, who used to drive the powerful car. She is driving it again, by the way.

Miss Van Dyce was brought into the hospital unconscious. She had been doing social work, had gone into a factory, and had a piece of her scalp torn away by a machine to which she stood too close. The ear was missing, too. The girl was disgraced for life. "Can nothing be done?" asked the distracted mother.

The doctor shrugged his shoulders. The ear had not been found. Every one knew where it was, before they stopped the machine, but— "Unless some person would be willing to give up an ear."

"I would pay five thousand dollars!" exclaimed the distracted mother. The beautiful Miss Van Dyce without an ear was simply unthinkable.

"There's George. He has ears of the exact shape," said the nurse.

Somebody broached the subject to George. "Five thousand dollars, George, and you can wear your hair long. It won't matter in a man."

"Five thousand nothing!" said George stoutly.

"You won't eh, George? Don't blame you," said the surgeon.

"Sure you can take me ear—both ears—for her," responded George, "but I won't take no money for it."

A volunteer had been found. The mother was strictly cautioned not to let her daughter know that it was a strange ear she would be wearing on her head when she came out of the ether. To her dying day Miss Van Dyce was to be ignorant of the heroic George's sacrifice.

The day came when George, feeling the ether cone upon his nose, put his right hand up to his ear in last farewell.

He awoke with only one ear, but so happy! Two weeks later he was running his elevator up and down again, and his hair was growing nicely. He was the hero of the hospital.

Once, on one wonderful occasion, passing the passage, he peeped into the room in which Miss Van Dyce sat with her head bandaged. She was in a chair, reading a novel of heroism and young love. She did not even glance up when George passed. She was never to know anything about it.

George was a willing martyr. The thought that he had contributed to Miss Van Dyce's continued social career was infinitely joyous to him. He went about in an ecstatic dream.

The day came at last when Miss Van Dyce was to leave the hospital. George had been fully informed of the progress of the illustrious patient. She was doing very nicely indeed, the ear had grafted quite well and now formed an integral part of Miss Van Dyce's physical mechanism.

Best of all, the ear resembled Miss Van Dyce's private ear so closely that it was practically impossible to see any difference between them.

Now Miss Van Dyce emerged from her room, walking a little weakly still, but radiant at the idea of going home. With her walked her mother. The nurse pressed the elevator bell. George, below, flew up on wings.

He knew that it was Miss Van Dyce, ready to depart for home.

The door was opened. Miss Van Dyce and her mother stepped into the elevator. George's hand trembled so that he could hardly pull the rope.

He shot a shy glance at his divinity, but the divinity's eyes were upon the ground. The mother, who knew all about George, of course, and was afraid he was going to ask for the five thousand dollars, kept her eyes on the floor of the car.

George stole a look at Miss Van Dyce's head. There was his ear, her ear now, growing nicely, and looking particularly pink and shell-like.

Conscious that George was looking at her ear, Miss Van Dyce looked at George's. Suddenly she screamed:

"Oh, mother, take me away, take me away! That boy has only one ear! It oughtn't to be allowed in a public hospital. I shall get father to write to the directors."

Romans Take to Canoeing.

The American Indian canoe, which for centuries has plied only the streams and lakes of the North American continent has at last found its way to the classic "yellow Tiber." Canoeing has become a favorite river sport of the Romans. On Sunday a dozen or more of the frail Indian craft can be seen in the yellow waters gliding along the shores in company with skiffs, shells, sculls and motor boats. The graceful Indian water conveyance has become so popular that an Italian firm has commenced the manufacture of them. They took several American canoes as models and then began turning them out by the scores. A canoe club also has been organized, and many Americans have joined. Paddling to the perfection of the Indians has not yet been achieved. The Romans make vain efforts to keep the canoe headed straight but a change of paddles is necessary after every few strokes.

VACCINATION OF DOGS IS ORDERED BY COUNCIL

WILL PREVENT RABIES AMONG DOGS AND RID CITY OF STRAYS.

The city of Cameron, it is believed, has solved the problem of rabies among dogs by the passage of an ordinance requiring the vaccination of the dogs once a year.

At its meeting Tuesday night the council voted for the enactment of this ordinance and will enforce it to the letter. Recently a number of people have been bitten by dogs.

The cost of vaccination will be about \$2.50 and will have to be done once each year but is a guarantee against rabies.

People who have dogs of value will be glad of this action and all stray and worthless dogs will be killed. The council is determined that there shall be no recurrence of rabies among dogs in Cameron and will take these precautions.

TUBERCULAR TESTS FOR DAIRY HERDS ORDERED

CITY COUNCIL WILL PROTECT CHILDREN OF CAMERON AGAINST DISEASE.

Tubercular tests among dairy cows contributing to the milk supply in Cameron will be tested on order from the city council.

The council at its meeting Tuesday night voted to instruct the city attorney to prepare an ordinance requiring the tests and the ordinance will be passed at the next regular meeting of the council which is the first Tuesday in October.

The expense of this test will be paid by the dairy owners and will run about 75c per year. Dr. G. E. Sutton, formerly with the A. & M. College and the Bureau of Animal Industry, will assist the city in making the tests.

The council at times in the past had considered the enactment of such legislation but for some reason the matter was never finally passed on. The city believes it is necessary to the health of the citizens, especially the children, that the dairy herds be free from tuberculosis.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely. Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00. JAMES F. BALLARD, Prop. St. Louis, Mo.

TO THE CITIZENS OF ROAD DISTRICT NO. 2

On September 25th next there will be held in our Road District an election on the question of authorizing a bond issue of \$100,000.00 for road purposes. It is contemplated that the road from Ad Hall to Cameron and from Cameron to Minerva will be resurfaced and possibly parts of road changed but without affecting present roads materially, and that a new two way bridge will be built over Little River to replace the present McCown bridge, also that certain work is to be done on the Waco Crossing Road.

If the bond issue carries, the District has the assurance of an additional \$125,000.00 State and Federal aid on these projects.

On January 1, 1924, the State Highway Commission will take over certain State Highways and will thereafter maintain them without expense to the county. The road from Ad Hall to Cameron and from Cameron to Minerva will come under this class, and we feel that our District and County will be relieved of quite a considerable

expense for maintenance purpose, in the event the State Highway Department should take over these roads. As most of our citizens know a considerable amount of our available road money is spent by our Commissioner in maintaining this road, especially through Little River bottom for the maintenance of this road. If taken over by the State, then our Commissioner can devote the time and money he now spends upon this road upon other roads in our Commissioner's Precinct.

In connection with what is said above, we incorporate in this statement information given out by Good Roads Committee of our Commercial Club recently, which is as follows:

"Statement by Good Roads Committee as to the contemplated bond issue of \$100,000.00 to rebuild the road from Ad Hall to McCown bridge, new bridge to replace McCown bridge and reconstructing road from Little River to Minerva.

AMOUNT OF BONDS--TAX RATE

"No tax levy will be necessary until after the expiration of three years. The special road bond tax of forty cents which prevails at the present time will be sufficient for the first three years.

STATE AND FEDERAL AID

"The State and Federal Governments have allotted \$125,000.00 aid on the road from Ad Hall through Cameron to McCown bridge, \$75,000.00 of the contemplated bond issue and the \$125,000 allotted by the State and Federal Governments

At the expiration of three years it will be necessary to levy an additional twenty-five cent tax which will gradually become less each year on account of the bonds being serial, that is a certain amount will be paid each year.

will be spent on the road from Ad Hall to McCown Bridge. This total of \$200,000.00 will build 10 1-2 miles of road from Ad Hall to McCown Bridge and will construct a new two way bridge with concrete floor over Little River and replace the present bridge.

Road From Little River To Minerva and Waco Crossing Road

"The remaining \$25,000.00 of the \$100,000.00 bond issue will be divided as follows: \$5,000.00 will be granted the Waco Crossing road and \$20,000.00 will be spent on reconstructing the Minerva Road from Little River to Minerva. The coun-

ty officials feel quite sure that the State and Federal Governments will supplement the \$20,000.00 to be expended on the Minerva Road with an allotment of \$20,000.00, but application has not been filed with the Highway Department at this time.

Highways to Be Maintained at Expense of State and Federal Governments after January 1, 1924

"After January 1st, the State and Federal Governments will maintain the designated highways through Milam County. The road from Ad Hall to McCown bridge and from McCown bridge to Minerva are included in the roads to be maintained at the expense of the State and Federal Governments after January 1st, 1924.

The statement made by the Good Roads Committee is subject to the approval of the Commissioners' Court and is merely an outline of how the money is to be expended."

Our Road Precinct was one of the pioneers in our County in the Good Roads movements. We secured more mileage and better roads for the money expended than a great many road districts that were not so fortunately situated as we are with reference to gravel and other material. We think that our record in this respect is one to be proud of. By the aid of a supplemental issue of

\$25,000.00 voted three years ago, and also by aid of personal donations from our citizens, we were able to connect up our roads and make such extensions as we were under pledge to make, and all of this was done without raising our tax rate of 40 cents which is the lowest road bond tax rate in Milam county.

From the statement quoted above the voters will note that no very material increase in tax rates will be necessary. We feel that the slight increase in tax rate will be abundantly justified by the fact that we will have a State Highway of the first-class, and one which will be maintained without further cost to us.

We invite all of our citizens to make a very careful consideration of this matter, and we feel that the proposition is entitled to the support of our people.

Committee of Soft Coal Operators Formed To Put Bituminous Fuel Supply at Service of Nation in Emergencies of War or Peace

J.G. BRADLEY

H.N. TAYLOR

MICHAEL GALLAGHER

A committee has been formed at last in the industry of mining bituminous coal—a gathering of the best brains in the business to form a closer relationship between the operators and the public and to continue close and intelligent study of the problems which the industry must face and solve to insure a fuel supply for the American people.

Twenty-five of the leading soft coal operators of the United States have consented to serve as members of the Policy Committee of the National Coal Association, and to work for these ends.

Since the appointment of the United States Coal Commission there has existed what is known as the Bituminous Operators' Special Committee, formed to co-operate with the Commission in finding out the facts of the soft coal industry. The life of this committee expires with the life of the Coal Commission. Because of the intimate acquaintance with all details of the bituminous

industry the members of this temporary committee have gathered from their work, its membership was taken over into the newly formed Policy Committee.

Three men prominent in the work of this committee are shown above. J. G. Bradley, of Dundon, W. Va., at the left, one of the members of the Bituminous Operators' Special Committee and its first chairman, is also a former president of the National Coal Association. Mr. Bradley has recently returned from Europe, where he made a study of the situation in the coal mining industry, and is giving his colleagues the benefit of his observations.

Harry N. Taylor, president of the United States Distributing Corporation, of New York, formerly a member of the Bituminous Operators' Special Committee, is another of the new Policy Committee members. Michael Gallagher, of Cleveland, O., is prominent in the work of the Policy Committee, and has been a

member of the Bituminous Operators' Special Committee since its formation.

In selecting the twenty-five members of the Policy Committee, care was taken to see to it that there should be fair geographical representation of all sections where soft coal is produced.

The conception of the scope of this Committee's field of activity is so broad that, although it is a committee of the National Coal Association, in making up the membership the industry reached outside the Association in order that every bituminous mining district should be represented.

In the Policy Committee, the soft coal operators have formed a body competent to speak for the whole industry when emergencies of war or peace require the mobilization of the coal supplying business of the nation, and which is dedicated to keeping the industry in close and continuous contact with the public mind and the public interest.

closed car meant a chauffeur. It probably meant too about five thousand dollars, plus heavy weight, slow performance and mighty high operating costs. Those days have gone forever. There are mighty good enclosed cars for a quarter of that sum, and such a typical line of cars as Hudson-Essex hasn't one enclosed car in its listing at over two thousand dollars. The tendency is very plain.

"Speaking of my own line of cars, which I know best, I expect Hudson and Essex to maintain fully their average of three enclosed cars-to-every open one and even to increase that ratio. I believe that the coach type of car—light, economical but durable and comfortable—will gain ground steadily. Its popularity is based on fundamental usefulness, and its merits will continue it on the road to greater success.

NOTICE IN PROBATE.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Milam County:—GREETING:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION TO PROBATE WILL:

THE STATE OF TEXAS.

Tuberculosis

By G. E. SUTTON, Veterinarian.

Tuberculosis causes more losses to the live stock industry than all combined diseases. It is found chiefly in cattle, hogs and chickens, but rarely found in sheep, goats or horses. According to Government reports about 10 per cent of hogs and about 5.5 per cent of cattle that are killed in Federal inspected packing plants are found to be infected with the disease.

Hundred of thousands of dollars are lost annually through the packing industry born chiefly by the raiser of live stock, and they are compared small to the losses sustained by the dairy industries.

The south being more fortunate than the north as the disease is not nearly so common among the live stock of the south due to the long summers and short winter months.

It is found in Texas that about 25 per cent of dairy cattle and less than one per cent of range cattle are affected with the disease. A few cases where as high as 80 per cent have been found to be affected, but were due to unsanitary handling of animals in dairy herds.

Tuberculosis is caused by the tubercular bacilli and is easily seen by the high powered microscope. It is a very resistant and slow growing bacteria, but is readily grown on culture media for laboratory uses. The most common way of infections are through the lungs, digestive organ, and abrasions of the skin.

There is no given time for the period of incubation or time between the period of infection and the first symptoms of the disease as the disease is found with so many different forms that may not show any symptoms at all or not at least for considerable time.

The disease may be found in any part or organ in the body, usually confined to lymph glands, lungs, liver, mammary glands. One of the greatest interests is of the health stand point of the human kind, is the eradication of tuberculosis of the lower animals which has been demonstrated through the drinking of the milk and eating of flesh of animals affected with tuberculosis will cause the same disease in the human family.

Through the efforts of the U. S. Bureau of Animal Industry and State authority the disease is on a decrease.

The methods of eradication are usually done by local authorities assisted by State and Government officials.

There is at present two reliable tests for the disease, and when one is found to be affected the premises are thoroughly cleaned and disinfected after the diseased animal has been removed, and the test repeated every six months or at least every year.

In hogs and beef cattle the only practical method from the health stand point is a post mortem examination of the carcasses of all animals used for food.

BUSINESS GOOD AND GETTING BETTER SAYS HUDSON-ESSEX DEALER.

"The summer season is nearly behind us. Slump—why, there wasn't any. A lot of pessimistic prophets

were madly fooled. With September and the autumn market just ahead, there seems no good reason why 1923 should not finish with a volume of business for Hudson and Essex such as we never before have approached."

This is the trade report of August Horstmann of Horstmann Bros. distributors for Hudson and Essex cars in this city. Here are a few more of his ideas:

"I believe the automobile is thoroughly established as an every-day utility for the average man and family. The manufacturing of automobiles has been put on such a basis that it is the unusual man who cannot use one to his advantage. What the public wants in automobiles is not more complications, additions or novelties, but a good practical, simple car which can be bought, operated and maintained economically.

"My personal belief is that enclosed cars at more moderate prices are the coming development in the automobile world. This year the Hudson and Essex factories have run continuously at capacity, and for all of

that their output has been in excess of 75 per cent. enclosed cars. I still find a goodly number of motorists who like the open car, but whereas they used to be in the vast majority they are now really the exceptions.

"There was a time when an en-

\$44,000,000 CASH IS RAISED BY BAPTISTS

FUND MAKES POSSIBLE LARGE ADVANCE IN MISSIONS, EDUCATION AND BENEVOLENCES

IMPROVE CHURCH FINANCES

Dr. O. E. Bryan Will Direct South-wide Effort to Put All Local Churches on a Budget Basis

Up to May 1, 1923, the Baptist churches of the South had paid in cash the sum of \$44,000,000 for the 75 Million Campaign, the five-year program for extending the general missionary, educational and benevolent work of the denomination. It is announced by the general board of the denomination that the sum was contributed by the various states of the Southern Baptist Convention as follows: Alabama, \$1,880,670.35; Arkansas, \$1,323,599.65;

DR. O. E. BRYAN

Budget and Stewardship Director for Southern Baptists

District of Columbia, \$202,583.15; Florida, \$732,213.96; Georgia, \$4,018,008.23; Illinois, \$329,087.87; Kentucky, \$4,937,270.93; Louisiana, \$1,144,398.79; Maryland, \$556,589.25; Mississippi, \$2,329,293.67; Missouri, \$1,822,353.66; New Mexico, \$217,828.33; North Carolina, \$3,630,998.83; Oklahoma, \$1,113,781.19; South Carolina, \$3,516,853.19; Tennessee, \$2,953,050.09; Texas, \$6,468,098.42; Virginia, \$4,923,226.77. Specials: Louisiana, \$110,035.13; New Mexico, \$419,739.18; Oklahoma, \$69,000.00; Illinois, \$191,175.11; Home Board Specials, \$15,340.00; Foreign Board Specials, \$86,103.00; raised by local churches on foreign fields and expended by them there, \$1,003,390.68.

Large Results Achieved

These larger resources have made possible large advances in every department of work fostered by Southern Baptists. Indicating the growth in the homeland during the campaign period, it is announced that there has been a gain of 57 district associations, 881 active ministers, 3,068 local churches, 3,287 Sunday schools with 459,223 pupils, 8,688 Baptist Young People's Unions with 233,917 members, and 7,094 Woman's Missionary Union organizations. During this time there have been 762,880 persons baptized into the local Baptist churches, \$45,405,118 has been invested in local church property, and the increase in offerings to missions and benevolences has been more than \$28,000,000 over the corresponding period preceding the Campaign.

Among the many gains on foreign mission fields are included 34,344 baptisms, 386 churches, 1,800 mission stations, 39 houses of worship, 53,666 members, 687 Sunday schools with 31,292 pupils, the sending out of 275 new American missionaries, the appointment of 2,029 native workers, entry into six new foreign countries and the larger equipment for all forms of work on sixteen fields.

Workers of the Home Mission Board have baptized 173,602 persons during the Campaign period, have received 277,968 persons into the membership of the churches, enlisted 11,772 young persons in definite forms of Christian service, built or improved 1,872 church houses, organized 935 churches and 2,898 Sunday schools.

Stabilize Church Finances
To reach the original goal it will be necessary for Southern Baptists to raise \$31,000,000 additional for the Campaign program by the end of that movement in 1924. In the hope of bringing the churches of the denomination to a better system of finances and the church members to a fuller realization of their obligation to support religious work, the Campaign Commission has employed Dr. O. E. Bryan of Atlanta, superintendent of the Home Mission Board, as stewardship and church budget director.

Dr. Bryan has assumed his new duties and working through the various state offices and the agencies of the district associations to speaking to bring the Baptist churches of the South to the adoption of a yearly budget for home local work and the general missionary and benevolent interests of the denomination, the aim being to enlist every member of every church in weekly and monthly contributions to religious causes.

MAN SHOTS AND KILLS FIRST COUSIN.

The sensibilities of the people of Thorndale and this community when shocked as probably never before on last Sunday afternoon when the word was passed as if by magic from one to another that Robert Caffey had been shot to death by former constable Ed. Beard, at the home of Mr. and Mrs. J. W. Hyde, relatives, in this city. The brevity of the information together with the power of human imagination, which could not be restrained under the circumstances, seemed to blight everything it touched. Clear thinking was for the time being suspended. It was impossible for the human mind to penetrate the mystery surrounding the tragedy, as most men are wont to do, and because of this impossibility the shadow of the dark valley of death hovered very closely over our town and bore heavily upon the spirits of the people of this entire community.

All that is commonly known concerning the cause of the tragedy is that Robert Caffey, who is a student in the Baptist Seminary at Fort Worth, returned to Thorndale early Sunday morning after an absence since October of last year, and had gone to the home of Mr. and Mrs. J. W. Hyde, his relatives, in this city. He attended church at the Baptist church Sunday morning and made a talk, reviewing his efforts to educate himself and pay his way through school with his own labor before and after school hours. He made a clear-cut, straight-forward statement concerning his limited funds, mentioning the fact that it was at times the case that he wanted to write to relatives here and did not have the one cent—the lowly penny—with which to buy the stamp or the postcard. He spoke as a man seldom speaks—mindful of his burden and handicapped condition financially and thankful for the privilege of dedicating his life and all it might mean to him in any event to the service of God and working out his destinies even in this humble way. He seemed to say: "I can not say beneath the pressure of life's cares today I joy in these; but I can say that I would rather walk this rugged way if Him it please." Robert—he was Robert to all who knew him—sang a song "Close to Thee," and we do not believe it was possible for a human to put more spiritual feeling into a song than he put in this effort Sunday morning. He possessed a wonderful voice and sang with feeling—conscious of what he was saying.

Following the service he was seen engaged in conversation with Ed. Beard, later proceeded to the home of Mr. and Mrs. J. W. Hyde where he had lunched with the family.

He later took a nap, and while sleeping Mr. Beard is said to have arrived at the Hyde home and asked to see Robert. He entered the room and engaged Robert in conversation. A few minutes later seven shots entered the body of Robert Caffey and death ensued. Mrs. J. W. Hyde was said to have been in the room at the time of the shooting, but the details of the affair are best omitted lest we be misinformed and report it incorrectly.

The funeral service was held at the Salty church conducted by Rev. J. R. Ward, pastor of the Baptist church of Thorndale, who spoke fittingly, and considerably of the life, of deceased and the promise of a life hereafter. The service was largely attended.

Sheriff Rogers came over from Cameron Sunday afternoon and took Mr. Beard to Cameron where on Tuesday the examining trial was had and he was allowed bond in the sum of \$10,000 which he gave.—Thorndale Champion.

RAIL RATES REDUCED FOR STATE EXPOSITION.

Residents of Cameron will be able to go to Austin for the Texas State Exposition, October 1 to 6, for a fare of only \$4.10 for the round trip, according to arrangements made by officials of the fair with Santa Fe railway officials.

These are the lowest rates that have been granted to the capital city in more than ten years, and these rates are on a par with those granted for the State Fair at Dallas. Sale of tickets for the Exposition at Austin will start on September 30, and last through to October 6, and tickets

will be good for return until October 8.

The Exposition at Austin will be one of the big fairs of the state this year. Five days of horse racing will add interest to the fair. An unusually interesting livestock department with more than 500 head of stock, has been assured and a separate tract of land, two blocks from the main Exposition grounds, has been secured for the livestock.

The fair will be an enlargement over the fair last year, and a decided improvement over any fair ever held in Austin. The homelands exhibit, the big Mexican national exhibit, the West Texas exhibit, the kennel department, the labor saving devices, and numerous other interesting and unique exhibits will go to make up a big fair for Central Texas.

Ample amusement and entertainment will be provided in the way of carnival attractions, rides, shows, etc., for every afternoon and night of the fair, and two hours of free entertainment during the same periods has been arranged.

STOP THAT ITCHING.

More Grip on the Road! Buick Four-wheel Brakes

Buick four-wheel brakes give all 1924 Buick cars twice the amount of grip on the road, thereby doubling their braking efficiency. It is the friction or grip of the tire on the road surface that brakes or slows down the car.

Buick four-wheel brakes not only provide a greater power to stop in case of emergency but, because of this four-wheel road grip, reduce skidding dangers to a minimum.

In turning, Buick four-wheel brake construction automatically releases whichever is the outside or guiding front wheel so it is instantly responsive to the steering mechanism.

Buick four-wheel brake construction distributes braking friction over four drums and four wheels. This reduces wear on brake linings and tires, thereby assuring their longer life and greater efficiency with fewer adjustments.

Buick four-wheel brakes [on all models] together with countless other distinctive features of the 1924 cars further establish Buick as the Standard of Comparison.

"When Better Cars are Built Buick will Build Them."

DRILLING ACTIVITIES ARE RENEWED AT MINERVA

CLIFTON BROTHERS STRIKE OIL AND GAS ON SHELANDER FARM.

Cameron, Texas, Sept. 16.—Since the bringing in of the second well on the Arch Watson farm several months ago, which meant a very considerable extension of the Minerva field, there has been quite a renewal of drilling activity. Wallace, Jones & Leach, on this farm, have recently completed the No. 3 well for a producer of at least fifteen barrels a day.

Dr. T. A. Rountree of Rockdale, on his own farm, between the Watson farm and the Niehaus farms, has finished rigging up and is about to begin drilling a No. 1 test.

The Texas Petroleum Development Company has completed its No. 3, for a fifteen barrel production on its Niehaus 100 acre lease.

Nichols & Ferguson are getting ready to drill No. 3 on their Niehaus lease, having already drilled two good producers on the same lease within the last several months.

Clifton Bros., on the Shelandier farm struck gas and oil at 1220 feet, but no estimate can be made of the probable outcome of their efforts at this time. Should it develop into a producing well in commercial quantities, it will greatly enlarge the producing area of the Minerva field.

Fritz Fuchs is drilling No. 8 on his W. P. Henry lease. No. 7, recently completed, is making about eight barrels a day.

Kemp—Underwood have completed their No. 1, on the Robert Isaacs lease for a six-barrel producer.

The Texas Petroleum Development Company is cleaning out the 1,300 foot hole drilled by them last spring on the R. L. Ratte farm, on the west side of the river in the Tracy field, over which it recently built a ninety six foot derrick and installed a heavy rotary rig, preparatory to the deepening of the same to a depth of at least 2,500 feet if oil is not found at a lesser depth. John A. Lee, field manager, who has had a great deal of experience in the oil business, was so favorably inclined to the belief that the prospects for oil were promising in this immediate territory that, after having drilled several shallow wells on this farm with meager results and moving off, has contracted with the Baggett Drilling Co., to drill the test.

THE THORNDALE PUBLIC SCHOOL OPENED MONDAY.

The Thorndale public school opened last Monday morning with a program of speeches, readings and short talks. About two hundred and fifteen or twenty-five pupils were enrolled and everything indicated the beginning of a very interesting school year.

Superintendent L. I. Samuel began the program with announcements and preliminary remarks which were followed by Rev. J. R. Ward with a few words defining an education and what the school life should mean and result in as applied to the life of the boy or girl in our public schools. His remarks were altogether fitting and well received. The invocation was pronounced by Rev. Sheffield of the St. John Lutheran church at Detmold.

The new teachers were introduced and the old ones—those who taught here last year and the year before, etc., were heartily welcomed.

Mr. Chas. Saller, president of the school board, spoke concerning the board's efforts to provide every essential physical equipment possible and outlining the board's ambitions for the ensuing scholastic year. Mr. Saller was followed by Mr. Dikes, the best school janitor in Texas, who made a good talk and his remarks seemed to cement our several ideas into one great family atmosphere of good natured friendship and interest in each others welfare, and it possible, the other fellow's interest first.

Mr. Davis, the principal and athletic director, outlined his plans and solicited the co-operation of pupils

and parents in all efforts to maintain a creditable organization.

Superintendent Samuel closed the exercise with a talk explaining what affiliation means to our school and how we may expect to get the State Board of Education to recognize the work done at Thorndale as standard work of high school of the first class. Mr. Samuel indicated that it was very probable that the efforts of those who are striving to have our school affiliated with the University of Texas, to realize their hope this year.

In addition to the subjects taught last year sewing will be taught as a part of the optional subjects this year. Altogether the promise of a good school at Thorndale henceforth is very positive and encouraging.

COUNTY MEET TO ROCKDALE BY UNANIMOUS CONSENT.

The Interscholastic County Meet to be held next spring was voted to Rockdale by the teachers of Milam county in session at Belton last week unanimously. Indeed, so unanimous was the sentiment in favor of bringing it here that no other towns were nominated. Year before last Rockdale gave the meet such a good reception and such good entertainment that all were glad of an opportunity to come back again.

The teachers lavished further honors upon Rockdale by naming Supt. C. G. Green, of the Rockdale Public School, as Director General, and Principal Coach H. B. Hughes, of this city, as Director of Athletics. Other officers were elected but the Reporter has not been supplied with a complete list.

It is planned to make the Meet a two-day affair, and with good weather conditions Rockdale is due to have one of the biggest crowds ever seen here. Practically every school in the county will be represented.

While no plans have been made for entertainment it is fair to suppose that premiums will be offered, as was the case in Rockdale two years ago, in all events, both literary and athletic. Free over-night entertainment for contestants living at a distance will no doubt be a feature.

The Reporter desires to assure the teachers that Rockdale appreciates the honor of having the Meet brought here and will try to show that appreciation.—Rockdale Reporter.

STUDENTS OF ROCKDALE OFF TO UNIVERSITIES.

Rockdale, Texas, Sept. 16.—Seventeen of Rockdale's young men and women have either departed or soon will leave for State colleges and universities. These are: To State Universities—Lucy Rountree, Grace Strubling, Pearl Fletcher, To C. I. A., Denton—Miss Clara Esten Cooke, Miss Lucille Gunn, To Baylor—Miss Annie Mae Prewitt, To San Marcos Normal—Horace Lightfoot, To State University—Sam Raymond, Ralph Strubling, Jim and Charlie Phillips, senior class; Preston Perry, Jr., sophomore class; William Cooke, Henry Meyer and Connor Thomas, freshmen.

SHERIFF'S SALE. THE STATE OF TEXAS County of Milam.

By virtue of a certain alias execution issued out of the Honorable Justice Court of Precinct No. 1, Milam county, Texas, on the 14th day of August 1923, by J. M. Ralston, Justice of the Peace of Precinct No. 1, Milam county, Texas, against B. J. Hearne for the sum of One Hundred one and 91-100 (\$101.91) Dollars and costs of suit, in cause no. 1903 in said Court, styled Milam County Hardware Company, a corporation, vs. B. J. Hearne and placed in my hands for service, I D. S. Rogers as sheriff of Milam county, Texas, did on the 14th day of August 1923, levy on certain Real Estate, situated in Milam county, Texas, described as follows, to-wit:

118 acres of land out of the Jeanette Bowen survey which survey was patented to her by patent dated Dec. 18th, 1850 and recorded in Vol. 13 page 413 deed records of Milam county, Texas. Said 118 acres of land being situated about 20 miles East of the town of Cameron and being described in two tracts as follows:

1st Tract—40 acres of land being lot number 9 and bounded as follows: Beginning at a stake in the S. B. line of the W. M. Wilcox 1320 acre tract from which a P. O. brs. S. 84 W. 6 vrs. and being 1658 vrs. form the S. E. corner of said Wilcox tract; Thence S. 30 W. 545 vrs. to a stake from which a double P. O. brs. S. 30 E. 1 vr. thence S. 60 W. 414 1-2 vrs to a stake from which a P. O. brs. S. 3 W. 3 vrs. another S. 88 E. 3 vrs; thence S. 30 E. 545 vrs to B. J. for corner; Thence N. 60 E. 414 1-2 vrs. to the place of beginning, being the same described in deed recorded in volume 130 page 521 of the deed records of Milam county, Texas;

2nd Tract—78 acres of land described as follows: Beginning at the N. E. cor. of the 174 acre tract conveyed by Daniel K. Davis to L. N. Tidwell by deed dated Jan. 6th, 1908, and recorded in volume 76 page 528 deed records of Milam county, Texas, said beginning corner being on the N. W. B. line of the original survey; thence S. 60 W. 450 vrs. to N. E. cor. of the N. E. 96 acre tract deeded by L. N. Tidwell to Mrs. Mollie Erwin; thence S. 30 E. 1090 vrs. to the S. E. cor. of said 96 acre tract for the S. W. cor. of this tract; thence S. 60 174 acre tract for the S. E. cor. of this tract and being the S. W. cor. of the above described 40 acre tract; thence

N. 30 W. 545 vrs. to N. W. cor. of the above described 40 acre tract; thence N. 60 E. with the N. B. line of said 40 acre tract 124 1-2 vrs; thence N. 30 W. 575 vrs. to the place of beginning, being the same land conveyed by J. E. Harwood and wife to B. J. Hearne by deed dated Jan 4th 1916, and recorded in vol. 120 page 526 deed records of Milam county, Texas, and levied upon as the property of said B. J. Hearne, and that on the first Tuesday in October 1923, same being the 2nd day of October, 1923, at the Court house door of Milam county, in the City of Cameron, Texas, between the hours of ten a. m. and four p. m. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said B. J. Hearne by virtue of said levy and said writ of execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald a newspaper published in Milam county.

Witness my hand, this 5th day of September 1923.

D. S. ROGERS, Sheriff, Milam County, Texas.
By H. H. Hartsfield, Deputy. 19-3t

Dr. Edward R. Zellner DENTIST

Watch Us Grow

Watch Us Grow

Announcement

Don't fail to read this advertisement: For it means money to you. First of all we want to sincerely and earnestly thank each and every person in Milam county for the many acts of kindness, encouragement and business you have either given us, or, by and through you we have received. Above all else, we love to have friends, and it was our determined policy to come to Milam county and make of one and all that which no man's money can buy, namely: FRIENDS—This course we will pursue no matter what comes or goes we will not intentionally make an enemy out of you, not for all the money in Milam county.

Did you know we have come to Milam county, and to Cameron, Texas, to stay? Did you know we have come here to live with you, to be one of you, to help all we can to build up our town and county; to be honest and truthful too, and with all, to defraud or mislead no one? Did you know that we are open for business of Compiling Abstracts to land in Milam county? Did you know that you can find us at our office in the basement of the County Clerks Office from 7 a. m. to 6 p. m. each work day? Did you know that if you will come down to see us, you will receive a warm welcome, whether you want business or not? Did you know that when you get a "Laurence Abstract" you are the owner of what THE RECORD OF YOUR COUNTY SAYS, NOT WHAT WE SAY? Don't you know that a "Laurence Abstract" is one that has EVERY MATERIAL part of the instrument copied "verbatim"? Don't you land owners know that it is by far more important to know that the land upon which you live or claim, is yours, than to know whether it will produce peas of cotton? Don't you know that 75 per cent of the land titles in this, as well as other counties are full of hidden defects, and don't you know that the only way to find those hidden defects is to get an Abstract, as is shown in "a Laurence Abstract"? Don't you know that a Laurence Abstract is one that is prepared by those, that not only know every phrase of Abstracting, but stand behind all work?

Don't you know that we can save you money? If you don't, then give us an opportunity to prove it to you. Don't you know that every Abstract that we make, every means is employed to make it represent what the record says, and to make it so that not only your attorney can intelligently pass upon the title, but you as well can easily understand it? Don't you know that we make but one kind of Abstract for all people, no matter how high you may be, or how low you may be, one and only one, they are Abstracts that we are not afraid to stand behind, they are prepared by Experts in Abstracting, they are dependable? If they are not, then they cost you nothing.

Don't you know that a tract of land, without an Abstract is like unto a cow without a brand; ANY ONE CAN CLAIM IT.

We want your business and will prove to you in more than one way that, if you will give it to us, we will appreciate it. WATCH US GROW.

The Laurence Abstract Company

Cameron, Texas.

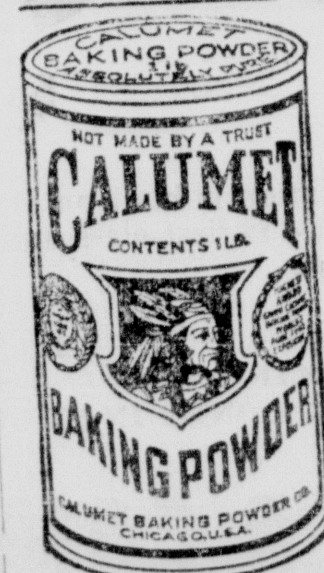

Help the Farmer

BUY

more of his products. Every sack of flour you buy gives the farmer a boost. It increases the demand for his wheat. He needs your support. Use more of the good, wholesome flour that is made from his wheat. Bake often but use

CALUMET

The Economy BAKING POWDER

because it is false economy to buy a leavener that sells for a little less, it many times means complete loss of the ingredients used on bake-day.

Practice real economy by using Calumet. It never fails to produce pure, sweet and nutritious foods. Goes further—lasts longer.

WORLD'S GREATEST BANKING SYSTEM

By CRAIG B. HAZLEWOOD
President Association of Reserve City Bankers

Conceived in the spirit of common good, for the best interests of government, banks and public alike, based on broad and correct principles relating to the nation's currency and credit, the Federal Reserve System represents the greatest piece of economic legislation enacted by an American Congress. The System's record of achievement through a world war, an inflation period of dizzy heights, and months of serious and costly liquidation. It is a matter of greatest importance that very earnest and patriotic thought be given to the two questions: How far has the system succeeded, and in what particulars has it failed, to give our country as strong and as useful a financial system as human mind can devise?

The hope and expectation of those who framed the Federal Reserve Act that the machinery set-up for the origination, distribution and automatic retirement of currency issue, which should be entirely responsive to the needs of trade and the varying conditions of business, have been wonderfully well realized. Every possible effort must be exerted to preserve the Federal Reserve System from political alliance and to keep its powerful influence entirely devoted to the building up of the greatest banking system in the world.

The first bank of the United States was established in 1791 and failed to obtain a renewal of its charter in 1811, the opponents charging that the bank was a "money trust" controlled by foreigners, a tool in the hands of the Federalists, and that the act chartering the bank was unconstitutional. Note the use of the words "money trust." We have the idea that this is a modern term. The suspicions which animate the demagogue today have not changed in a century.

The second bank of the United States was chartered in 1816 and failed to obtain a renewal of its charter in 1831, the reasons being a widespread belief that the bank was unconstitutional, the hostility of the states, the opposition of the state banks, the rise of democracy, and the envy and hatred which the poor always feel toward the rich.

Both banks functioned well and accomplished much for the country during crucial times. The downfall of both was caused simply and solely by attempts to place the determination of banking policies in the hands of political authorities.

The delicate handling of currency and credit, to the high end that the best interests of all may be served with special privilege to none, cannot be left to others than those who are competent through proven judgment and experience. The danger of politics in the Federal Reserve System is a real one; upon us is placed the grave responsibility of forever keeping the great system clean.

MAKING CAPITALISTS OUT OF WORKMEN

Festus J. Wade Says Anarchy Disappears With the Development of Thrift.

When the savings pass-book comes into a man's life to stay the red flag goes out. What the country needs is to bring about a condition whereby the man who works with his hands shall take the same interest in his affairs as the capitalist does in his. Probably the best way to do this would be to turn the workman into a capitalist. And this is exactly what he becomes when he saves his money and builds up a reserve fund. He remains a capitalist as long as he holds on to that money. The satisfaction of seeing his money reserve mount up will discourage the waster to take a layoff now and then. It will encourage him to work a full six-day week and thereby increase the labor hours applied to production.

The American people can solve any problem they set themselves to. We provided for a sound currency when the greenbackers and inflationists were routed and the gold basis established. The Federal Reserve Bank was established and solved a problem for which most people thought there was no solution. A number of years ago, when there was a crisis or when a bank failed, we all used to shut up our vaults tight and let nothing get out. Instead of bettering conditions we made them worse. Now if failures occur few people, except those directly interested, are disturbed.

Perhaps the most important problem of all right now is to do away with labor waste. It never can be done by preaching, by agitation or by force. It can be done by selling the workman on the idea of becoming a capitalist. This can be brought about by the right kind of bank advertising. Who is there to say that an advertising dollar bringing about this result would not be a constructive dollar?—Festus J. Wade

CIVIL SERVICE REFORM LEAGUE PLAN WOULD ABOLISH SLEMPISM.

The visit of committee of the National Civil Service Reform League, headed by W. Dudley Foulke, president of the organization, to President Coolidge, the day after C. Bascom Slemp assumed his duties as Secretary to the President, and the recommendations made by the committee concerning the appointment of postmasters and rural carriers is the best evidence so far offered that the exposure of Mr. Slemp's activities and that of his secretary, Howard, in connection with the trafficking in offices while Mr. Slemp was a Congressman, is not to be ignored by the Civil Service Reform League.

Recommendations were made by the Committee to substitute the merit system of appointments for the Slemp-Howard Pay-As-You-Enter plan. Under an executive order of President Wilson the first man on the eligible list was appointed. This order was superseded by an order of President Harding directing that the appointments should be made from the first three on the eligible list. In this way, it was figured, that at least one of the three would be a Republican, and when this has happened the Republican has generally been appointed. It has sometimes happened when all of the eligibles were Democrats that a new examination was

held to get a Republican on the eligible list.

The committee of the Civil Service Reform League recommended that the policy of appointing the first man on the list should be restored. What action President Coolidge will take upon this recommendation remains, at this writing, to be seen.

President Coolidge is on record as saying: "When you substitute patronage for patriotism administration breaks down," but as the Louisville Courier-Journal editorially remarks, "that was before he fell in with Slemp."

BOOST IN COTTON ADDS \$75,000,000 TO CROP'S VALUE.

New York, Sept. 17.—In one of the most active and excited markets of the year, cotton prices were lifted from 150 to 152 points today, equivalent to about \$7.80 per bale. On the last government estimate of the crop, this represents an addition of approximately \$75,000,000 to the wealth of the south. The advance followed reports of heavy rains in Texas and Oklahoma, where cotton is open in the fields, threatening both grade and movement, and reviving fears that crop estimates already previously low may have to be still further reduced.

A feature of the day was the export shipment of fully 177,000 bales

from two Texas ports to Europe, or one of the heaviest single day's exports on record. On the basis of today's prices this shipment represents a value of over \$2,000,000.

FIRE NARROWLY EVERTED IN ROCKDALE REFINERY.

Rockdale, Milan County, Texas, Sept. 17.—Only the instant presence of mind of the men around the plant saved the refinery of the Austin Pe-

troleum Company, near Rockdale, from heavy damage, if not destruction, when a hole was burned in the bottom of the still and fuel oil afire began gushing out. In a few moments the heavily charged storage tanks of gasoline and kerosene would have ignited, but Frank Taylor and his helpers began shoveling in sand to the fire box, smothering the burning oil. The refinery will be in operation again in a few days.

Children in Soft Coal Fields Given All Educational Advantages of City While Enjoying Benefits of Country Town Life

Where would you rather have your children grow up—in a crowded city, sitting in summer, wet and cold in winter, with no place to play but on the streets, or would you rather have them virtually in the country, but with all the advantages of the city?

Take the condition of the child of the soft coal miner. The so-called "mining camps" have to be built where the coal lies in the ground, and the communities which have grown up are, for the most part, removed from cities or towns of any considerable size.

Coal operators have realized that much more than the bare necessities of life must be provided to make the miner and his family contented and happy. Opportunities must be afforded for amusement and recreation. The happiness and health of the people of the mining communities must be safeguarded.

The children of the miners' families are, of course, a first concern with the companies as well as the

parents. After modern houses at low rents and with modern improvements are built by the companies, the first concern is for proper schooling and playground facilities for the younger generation.

This idea has taken hold so firmly in most of the soft coal mining communities that it has become a common saying now that it is almost impossible to throw a stone in any direction without hitting a school-house.

Not only the primary schools, but high schools aplenty are found. The lower picture shows a group of miners' children at a primary school in a soft coal mining community at Jerome, Pa. It is a common thing for coal companies to augment considerably teachers' salaries allowed by county or state authorities. This has been a source of objections from city school officials, who have complained that many of their best teachers have been taken away from them to much smaller mining towns. The physical development of the

miners' child gets just as much attention as his mental development. A section of a typical playground for the younger children in a mining town is shown in the other picture above. The photograph was taken at Acosta, Pa., and is fairly representative of hundreds of other communities of the same character. Modern, standard playground equipment is insisted upon as a rule by the mining companies.

This isn't charity on the part of the operators. They know it is good business sense to have their workers and their families contented and happy. There is no direct return in money on the balance sheet of the companies apparent, but there are big returns in a general way from this outlay by the mining companies. That is why thousands of dollars have been invested in recreation halls, moving picture theatres, gymnasiums and the like in the mining communities which are the first place, to be sure, of expenditure and bad business judgment.

tention to the fact that at a recent meeting of the school board it was disclosed that the present public school building is inadequate to respond to existing needs and that more room would have to be provided. The old music room could be used as a temporary expedient transferring to it 35 pupils but this leaves the main building in a crowded condition. By next year another building would have to be constructed. Another teacher will have to be provided and these matters should be considered by the public. The mayor argued in favor of providing for the school first, letting other matters of public improvement rest for a time.

NO FOOTBALL GAME WITH CAMERON THIS SEASON.

Football fans, not only in Rockdale and Cameron, but all over Milam county, will learn with regret that there will be no matched game between the fast high school teams of

Rockdale and Cameron this season.

The Rockdale-Cameron game has been played on Armistice day for the past several years, and is looked forward to as the foot ball classic of the season. Hundreds of foot ball fans gather from all points of the county to witness the annual battle, and these will all be disappointed to know that the Cameron Coach has refused to match a game for the season except on terms so arbitrary as to be unreasonable and out of the question.

It has been a custom of the two teams to play the Armistice Day game on a fifty-fifty basis. The gate receipts for the past two years have been around \$250, and each team takes down half of that amount for its athletic fund. The games alternate between the two towns. This season this year is due to be played in Cameron, and Coach Hughes and his Rockdale "Tigers" are "rare" to go. However, Coach Perkins informs Coach Hughes that

he will play the game only on terms of the Cameron team taking ALL THE GATE RECEIPTS, allowing the Rockdale team the ridiculously small sum of \$40. And Coach Hughes has refused to accept such terms. Coach Perkins stands pat. At this writing it looks as if there will be no Rockdale-Cameron game.

Coach Hughes has made Cameron a counter proposition of playing the game in Rockdale, either on a fifty-fifty basis, or will guarantee Cameron \$150. Or he offers to go to Cameron on the usual terms of fifty-fifty. But Coach Perkins still stands pat. The foot ball fans of the county will be pretty apt to draw the conclusion that Coach Perkins and his foot ball warriors are afraid to play the Rockdale "Tigers" and are using this plan of sidestepping the game. —Rockdale Reporter.

J. D. DOBBINS The Man Who Saves You Money

PIONEER CITIZEN AND PUBLIC BENEFACTOR GREATLY MOURNED BY OUR CITIZENS

When the announcement of the death of Captain J. C. Elliott was passed by word from one to another last Wednesday afternoon the spirit of our people was greatly depressed, as if by some strange transition we were ushered into the very mouth of the valley of the shadow of death, and our hearts were sorely tried. The justness of it all was not questioned but the why and wherefore of the laws of nature were too deep for human understanding, and we mourned because we were human.

The deceased had been in feeble health for several years, had been living on borrowed time the last few years, since he had exceeded the three score and ten years allotted to us here by fifteen years. Or at least he would have been 85 years of age on January 19, 1924.

Captain Elliott suffered an unusually severe attack of diarrhea on Sunday previous to his death last Wednesday, but responded to medical aid and was thought to be regaining his strength on Monday, and on Tuesday a turn for the worse came without warning and he continued to grow weaker until Wednesday afternoon when he died about three o'clock. His many friends were not prepared to receive the announcement of his death and received it with great depression of spirit.

The funeral service was held at the Methodist church Thursday afternoon the attendance being possibly the largest ever witnessed in Thorndale considering the heavy rain and electrical storm which continued all through the afternoon, only checking for short periods of times at intervals and never entirely ceasing to sprinkle. But even so, the church was filled to capacity and all who could possibly reach the church were there to pay their last respects to this noble and godly man whom we all loved so much.

The service was conducted by Rev. M. I. Brown, pastor of the Methodist church assisted by Rev. D. S. Burks, of Chappel Hill and Rev. P. R. White of Alvin, Texas, both being former pastors of the Methodist church here and close personal friends of the deceased. The scripture lesson abounded with consolation and hope for a new life where there is no sorrow and pain for all who live the life this noble much loved Christian man had lived. The scripture says: "They that wait upon the Lord shall mount up with wings as angels." The remains accompanied by a concourse of sorrowing friends were conveyed to the City Cemetery and laid to rest.

Honorary pall bearers were: Messrs. J. B. Ralston, C. M. Summerlin, Clabe Garner, C. Aum. Moerbe, T. M. Williams, Z. T. Gore, C. A. Davis, Sam Clement, J. B. Willis.

Active pall bearers: Messrs. L. D. Barnes, D. R. Maddox, Jones Clement, M. M. Camp, D. W. Cowen, Surry Boles.

Col. J. C. Elliott was born in Marshall county, Tenn., January 19, 1839. He came to Texas, locating in Cherokee county in 1848, moving to Caldwell county in 1849 and thence to Bell county in 1850. He enlisted in the Ranger service in February, 1861 under Capt. Halley, Henry E. McCulloch's Regiment, with headquarters then at Fort Shadbourne in Coke county. After a few months service as a ranger he was mustered out and enlisted in what was known as the First Texas Mounted Riflemen, under Capt. Davison with Henry E. McCulloch as colonel. After about a year's service six of these companies were mustered out and four remaining companies formed a battalion which was afterwards organized into a regiment known as the First Texas Cavalry which name it bore until the close of the war.

The first battle in which Mr. Elliott engaged was on the head waters of the Nueces river, then followed the battle on Matamoros Peninsula.

Mansfield and Pleasant Hill. After the surrender he returned to his home having been in the service about four years and four months.

On June 17, 1868, he was married to Miss Sarah Elizabeth Mills, near Holland, Texas. They moved to their farm in the Conoley community, six miles south of Thorndale, where they made their home until 1889, at which time they moved to their home here at Thorndale where he engaged in the lumber business and other business enterprises of the town, which at that time was but little more than a vast open prairie, where only two stores, the one owned by Mr. J. K. Quinn, now living at Haskell, Texas and the other owned by C. A. Polnick, marked the site of the present Thorndale.

The deceased and Mr. Geo. Gresham and Mr. J. K. Quinn were the first school trustee in Thorndale. Capt. Carter and the deceased established the first newspaper published in Thorndale, known as the "Thorndale Trumpet." Mr. Elliott also established the Elliott Hotel along about this time and the building still remains as a monument to an earlier day and the hospitality of its founder now gone where a greater hospitality is his to claim without stint or restriction. Some one has said: "The greatest death that man can die is when he dies for man." And, the Champion believes that the greatest life that man can live is when he lives for man—as did this noble father. He joined the church when a boy and was always a great worker in God's cause, being a charter member of the Methodist church this place, helping to organize the church in 1899.

Three children survive him—Mr. J. J. Elliott, Mrs. F. C. Frenzel and Mr. W. B. Elliott, all of this city; besides two brothers, R. M. Elliott of Dallas, Texas, and W. B. Elliott of Los Angeles, Calif. His wife Mrs. Sarah E. Elliott, departed this life on August 22, 1921.

Due to the rainstorm referred to above and confusion incident thereto,

many did not attend the funeral who would have liked to have done so, but the floral offerings were a positive expression of love and esteem in which he was held by the people of this community. The Champion joins the many friends of the family in offering condolence to the bereaved.—Thorndale Champion.

CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh. HALL'S CATARRH MEDICINE has been successful in the treatment of Catarrh for over Forty Years.

Sold by all druggists.

ROBS CALOMEL OF NAUSEA AND DANGER

MEDICINAL VIRTUES RETAINED
AND IMPROVED—DANGEROUS
AND SICKENING
QUALITIES REMOVED
PERFECTED TAB-
LET CALLED
"CALOTABS"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often

neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original sealed packages, pure 35 cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.

Avoid Loose Thinking Get Your Facts From Nelson's

Clear vision comes from clear thinking and clear thinking can come only from accurate knowledge and dependable information. Vague and inaccurate information is worse than none at all. Clear thinking based upon dependable facts marks the successful man—the man of decision and action. Nelson's Loose-Leaf Encyclo-

paedia is a complete Reference Library, accurate, concise, authoritative. It covers the whole field of knowledge from the dawn of civilization to the present day. Fifteen minutes a day with Nelson's will enable you to think clearly, to decide promptly, to be a leader among men.

The World's Greatest Educator

Nelson's

Perpetual Loose-Leaf ENCYCLOPAEDIA

@ Research Bureau for Special Information

ALWAYS DOWN TO DATE
Every subject on which man would be informed is changing constantly. Nine times out of ten, the information you want is of current issue—a topic of today. All Encyclopaedias except Nelson's are deficient in this important and essential thing. The information which is obsolete does more harm than good. You do not use a City Directory that is two years old. Why use an Encyclopaedia that is five or ten years old?

ALWAYS NEW—Every 6 months all subscribers to NELSON'S receive their renewal pages—250 pages or more—between 500 and 700 pages each year. These include over 2,000 changes each year and keeps NELSON'S perpetually accurate and down to date.

FREE EDUCATIONAL READING COURSES

Nelson's Reading and study courses in UNITED STATES HISTORY, BUSINESS ECONOMICS, NATURE STUDY, AGRICULTURE AND HOME ECONOMICS are declared by educational authorities to be equal to a college course and training in each of these departments.

NELSON'S FREE RESEARCH BUREAU.

FOR SCIENTIFIC REPORTS AND SPECIAL INFORMATION AND CORRESPONDENCE. Every purchaser of Nelson's is entitled to free membership in this Bureau. If at any time you are at doubt on any subject, old or new, write to this Bureau with the positive assurance that you will promptly receive the latest obtainable and most dependable information.

COMB SAGE TEA INTO GRAY HAIR

Ladies! Try this! Darkens beautifully and nobody can tell—Brings back its gloss and youthfulness

Common garden sage, brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation, improved by the addition of other ingredients, a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not

useful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger.

TEXAS A. & M. COLLEGE PLANNING FOR BIG YEAR

REGISTRATION BEGAN MONDAY
WITH EXPECTATION OF
2,000 STUDENTS.

College Station, Texas, Sept. 16.—Preparations for largest single enrollment in the A. & M. College of Texas are now being made. It is certain that the maximum capacity of the College will be taken by the host which applies for admission this week, and this is approximately 2,000. Dormitory use can be expanded by the use of tents, but it is hardly possible to arrange class room and laboratory space for a greater number than 2,000. In order to keep the enrollment down to the number that can be conveniently accommodated, the requirements for admission will be adhered to with strictness.

Registration will begin Monday and will continue until Friday. With the funds available from appropriations and other small sources, facilities for housing and instruction have been expanded to the limit and it is hoped that they will be equal to the demands made upon them. However, President Bizzell has been reticent about declaring so dogmatically as in past years that he will not deny the opportunities of education in the A. & M. College to any boy who applies here and is willing to accept the accommodations offered on an equal basis with other students.

ROBERT DAVIS, HERO OF VIMY RIDGE RETURNS HOME.

Robert Davis, the hero of Vimy Ridge and the man who first planted the Stars and Stripes on the battle field in the recent World war, returned home last week to live at the home of his brother-in-law, J. R. Blanchard, four miles west of Pendleton, with whom his mother, Mrs. Sarah Davis is living. Davis was wounded 21 times by machine gun and shrapnel fire after he had placed Old Glory on a bayonet and hoisted it above Vimy Ridge on April 9, 1917.

"I drifted into Canada before the war and when the war broke out in 1914 I saw it was a fight for every red-blooded man," he said yesterday, "and enlisted. We landed in France on Jan. 2 of 1915 and got into the fighting at the Ypres salient. On May 15 the Germans started their first poison gas attack and if they had known how little was before them could have gone through the few Canadians left and reached Calais. But they waited and were repulsed."

Davis fought through number of engagements and then went through the Somme battles. "The Canadians drifted over to Vimy Ridge on Nov. 28, 1916," he said. "Things remained quiet and preparations went forward for the battle of Vimy Ridge in April 1917. Billeted in a small town I met a French girl who asked me to carry an American battle flag into the fight on the next Monday. America having just entered the war, I never thought much about what it meant, but I was glad to do it. When we went over the top I tied the flag to my bayonet and stuck my rifle in the mud on the ridge. I heard that it stayed there for more than a year."

Davis was shot down and was in the hospital five months and was three months longer convalescing. After recovering, he returned to Canada and last week returned to his relatives in Bell county and to be with his mother.

Sergeant Davis, as he was known in the war, and whose name was heard over the world when he unfurled the stars and stripes for the first time in the World war, is a son of the late J. D. Davis, the first pastor of the Grace Presbyterian church of the town.

While Mr. Davis has received from his war wounds, he is hardly able to do hard manual labor. "I'm not going to fail to try it though," he said yesterday.

INAUGURATES UNUSUAL METHODS AT REVIVAL.

Rockdale, Texas, Sept. 16.—A rather unusual procedure is being employed by the Rev. J. Ed. Morgan, general evangelist of the Methodist Episcopal church, South, in a series of religious meetings being conducted here.

Mr. Morgan is devoting certain nights to other Protestant denominations, having Baptist night, Presbyterian night, etc. He has also lined up his audience to utilize their cars in bringing at least one other person to the services at night, which has augmented the crowds.

Further, he has induced members of the Cameron Methodist church to come over one night next week, which will be known as Cameron night.

FIERY CROSS OF KLAN GLARES DEFENCE OVER OKLAHOMA MACHINE GUNS

Oklahoma City, Okla., Sept. 16.—While machine guns frowned on strategic centers here Sunday night and officers of the Oklahoma National Guard completed plans for putting the city under complete martial rule, pursuant to a proclamation of Gov. J. C. Walton, in which he announced the intention "to drive the Ku Klux Klan from the State," a huge electric cross, nearly thirty feet high, blazed from the top of a downtown building, the symbol of the Klan.

The cross was erected recently by the Klan when it became apparent that the Governor was directing his military action against that organization.

Similar crosses, it was announced, were erected in other cities of the State.

THORNDALE ABOLISHES INCORPORATION VOTED ONLY TWO MONTHS AGO.

Thorndale, Texas, Sept. 15.—In an election held here Friday, Thorndale voted to abolish the incorporation of the town by 141 to 41 votes, after having been incorporated only two months. City officers, who were elected at an election on August 18 will not have to qualify since the result of Friday's election was unfavorable on continuing the new government.

Thorndale, Texas, Sept. 15.—W. D. Junek, proprietor of the Star Garage has sold an interest in the business to F. H. Thomas of Houston, the trade being closed on Tuesday of this week.

THE STATE OF TEXAS.

To the Sheriff of any Constable of Milam County:—GREETING:

You are hereby commanded to summon A. B. Davis, and if the said A. B. Davis be dead, then the unknown heirs of A. B. Davis and the heirs and legal representatives of such unknown heirs, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Milam county, Texas, to be held at the court house thereof in Cameron, Texas, on the second Monday in November, A. D. 1923, the same being the 12th day of November A. D. 1923, then and there to answer a petition filed in said court on the 10 day of September, A. D. 1923, in a suit numbered on the docket of said court No. 8959, wherein J. L. Powell is plaintiff and A. B. Davis and the unknown heirs, are defendants, said petition alleging:

That the plaintiff resides in Williamson county, Texas, and that the residence of A. B. Davis is unknown, and that if the defendant, A. B. Davis, be dead, then that the names and residences of the heirs of A. B. Davis are unknown. And that the plaintiff is the owner by fee simple title of the following described tract of land situated in Milam county, Texas, to-wit:

Being a part of the David Mumford league survey of land and beginning at the southwest corner of a tract of 460 acres out of said survey which was conveyed by T. W. Robinson and Samuel Carter, administrators of the estate of Sarah Mumford, deceased, to A. B. Davis by deed dated February 1st, 1872, and recorded in Vol. "B" 2, page 536 of the deed records of Milam county, Texas, such beginning point be: in the center of Donahoe's Creek; thence North 19 E. 2038 varas to corner; thence South 71 East 353 varas to the N. W. cor. of the 104.8 acre tract conveyed by A. B. Davis to R. M. Wiley and R. S. Porter by deed which is recorded in Vol. "A" 1, page 63 of said deed records; thence S. 19 W. 1980 varas to the S. E. corner of this tract in the center of Donahoe Creek, from which a Cottonwood brs. N. 43 W. 8 varas; thence up the center of said creek with its meanders to the place of beginning, containing 123 acres of land.

That the plaintiff and those under whom he claims have had peaceable, actual, adverse possession of all of

said land for more than ten years next preceeding the institution of this suit, and that any right of action which the defendants, or any of them may ever have had to recover said land, or any part thereof, accrued to them and each of them more than ten years prior to the institution of this suit. And plaintiff pleads the Statute of Limitation of Ten Years in bar of any right in defendants, or any of them, as to any portion of or interest in said land.

Plaintiff further alleges that by deed dated May 23rd, 1876, and recorded in Vol. E 2, page 408 of the deed records of Milam county, Texas, A. B. Davis conveyed to D. C. Robinson 123 acres of land out of said David Mumford league survey, by which deed A. B. Davis intended to convey the land above described, but by mistake in drawing such deed the beginning point of said tract was named as "the southwest corner of a survey made for A. B. Davis by W. J. Covington," from such beginning point should have been named as the southwest corner of the 460 acre tract conveyed to A. B. Davis by the administrators of Sarah Mumford, deceased. And plaintiff shows that by a regular chain of conveyances from D. C. Robinson and his vendees plaintiff is the owner of and in possession of the land intended to be described in said deed from A. B. Davis to D. C. Robinson, and that the land which was actually delivered under said deed from A. B. Davis to D. C. Robinson and by the vendees of D. C. Robinson down to and including plain-

tiff was and is the land hereinabove first described.

Plaintiff alleges that it appears from the deed records of Milam county, Texas, that at one time the defendant, A. B. Davis, had or claimed some interest in or title to the land above described, which does not appear to have ever been properly divested out of him, and that if the said A. B. Davis be dead, then it would appear from the face of said records that the unknown heirs of A. B. Davis have some interest in or title to said land, as his heirs, and that such facts constitute a cloud upon plaintiff's title to said land.

Plaintiff prays that defendants be cited by publication to answer his petition, and for judgment against all the defendants correcting said mistake in said deed from A. B. Davis to D. C. Robinson and removing said cloud from plaintiff's title to said land, and for all such other relief, both in law and in equity, to which he may be entitled.

Herein fail not, but have you before said court on the first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in the City of Cameron, Texas, this 10 day of September A. D. 1923.

PENN WOLF, Clerk,
Of the District Court of Milam County, Texas 20-4t

FISH AND OYSTERS

DALLAS GOVERNMENT IS COSTING \$48 PER CAPITA

ALMOST DOUBLE IN 5 YEARS
SHOWN BY RECENT STATISTICS OF THAT CITY

EXPENDITURES:

Washington, D. C., Sept. 20.—The Department of Commerce announces that the costs of government for the City of Dallas, Texas, for the fiscal year ended April 30, 1922, amounted to \$8,095,733, which was a per capita cost of \$47.98. In 1918 the per capita cost was \$27.46, and in 1915, \$26.50, the cost for these years being \$3,555,500 and \$4,117,285, respectively. The per capita costs for 1922 consisted of expenses of general departments, \$24,877; expenses of public service enterprises \$226; payments for interest, \$3,335; and for outlays, \$16,911. Almost 50 per cent of payments for permanent improvements was for schools, amounting to more than \$1,000,000.

REVENUES:

The total revenue receipts for 1922 were \$6,529,993, or \$38.73 per capita, the per capita excess of governmental costs over revenue receipts was, therefore, \$9.19. In Dallas property taxes represented 69.5 per cent of the total revenue for 1922, 68.7 per cent for 1918, and 60.6 per cent for 1915. The increase in the amount of property taxes collected was 25.1 percent from 1915 to 1918, and 74.2 per cent for 1918 to 1922. The per capita property taxes for the three specified years were \$26.98, \$20.43, and \$18.65, respectively.

Business and non-business licenses were 0.5 per cent of the total revenue for 1922, 0.6 per cent for 1918, and 1.6 per cent for 1915.

INDEBTEDNESS.

The net indebtedness (funded and floating debt less sinking fund assets) of Dallas was \$69.97 per capita for 1922, \$43.51 for 1918, and \$53.25 for 1915.

ASSESSED VALUATION AND TAX LEVIES.

For 1922 the assessed valuation of property in Dallas, Texas, subject to ad valorem taxation for the city corporation was \$188,193,800. The levy for all purposes for 1922 was \$6.902,007, this being a per capita of: Total \$41.00; City corporation, \$26.83; State \$6.29; and County \$7.88.

DRILLING PICK UP IN VICINITY OF CAMERON.

Cameron, Texas, Sept. 15.—Since the bringing in of the second well on the Arch Watson farm several months ago, which meant a very considerable extension of the Minerva field, there has been quite a renewal of drilling activity. Wallace, Jones & Leach on this farm have recently

completed No. 3 well for a producer of at least 15 barrels per day.

Dr. T. A. Rountree of Rockdale, on his own farm between the Watson farm and the Niehaus farms, has finished rigging up and is about to begin drilling No. 1 well.

The Texas Petroleum Development Company has completed its No. 3 well for a 15 barrel well on its Niehaus 100 acre lease.

Bryman & Ferguson are getting ready to drill No. 3 on their Niehaus lease, having already drilled two good producers on the same lease within the past several months.

Clifton Brothers on the Sheldahl farm struck gas and oil at 1,220 feet but no estimate can be made of the probable outcome of their efforts at this time. Should it develop into a producing well in commercial quantities it will greatly enlarge the producing area of the Minerva field.

Fritz Fuch is drilling No. 8 on his W. P. Henry lease No. 7 recently completed, is making about eight barrels per day.

Kemp & Underwood have completed their No. 1 on their Robert Isaacs lease for a six barrel producer.

The Texas Petroleum Development Company is cleaning out the 1,500 foot hole drilled by them last spring on the R. L. Batts farm on the west side of the river in the Tracy field, over which it recently built a 96 foot derrick and installed a heavy rotary rig, preparatory to the deepening of the same to a depth of at least 3,500 feet if oil is not found at a lesser depth. John A. Lee, field manager, who has had a great deal of experience in the oil business, was so favorably inclined to the belief that the prospects for oil were so promising in this immediate territory that, after having drilled several shallow wells on this farm with meager results and moving off, has contracted with the Baggett Drilling Company to drill the well.

THE BIG KEY TO SUCCESS.

There is no class of employees that find a more regular and constant demand for their service than Telegraphers. The capable operator can always command a good salary, and the opportunities for promotion are unlimited as witnessed by the number of operators who have risen to the position of railroad heads.

The largest of telegraph and Radio schools in America, equipped with over a hundred sets of instruments, a train wire of the main line railroad, all telegraph and freight blanks and books of records, tickets, and in fact everything just as complete as found in the best equipped railroad offices or Western Union, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—the Tyler Commercial College of Tyler, Texas, is unable to supply the demands of the railroads, Wes-

tern Union and Postal Telegraph companies for operators.

Read the following letter from the Superintendent of Telegraphy of one of the large Railroad systems:

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending, we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say what students you have sent us have been very satisfactory and have developed into some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your graduates at once and keep them coming as fast as they are capable. I had the pleasure to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all the requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. FRENZER,

Supt. Telegraph, Union Pac. Ry. Our telegraph students are on all the leading Southwestern roads and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Cameron man's testimony.

F. A. Mosley, farmer, Second St., says: "I was down and out with my back and was in such a condition, I could hardly do a thing. My back ached all the time and my kidneys were irregular. The secretions con-

tained sediment that looked like brick-dust and the passages were painful. I tried several kinds of kidney medicine, but the only one that did me any good was Doan's Kidney Pills. They cured me of the attack. I am proud to recommend Doan's, for they are just what is claimed for them."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Mosley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (11)

Our Town

Newspaper reports say that Rockdale has at least developed a real mad dog. The dog according to the "regular correspondent" went on a tour and stuck its fangs in 52 head of hogs. It will no longer be necessary for the correspondents to claim eron dogs now that the Regal City has developed the real thing.

Attendance at the Yoe High School has been increased since the last issue of the paper. Indications are that the enrollment will have passed the 300 mark before the end of the week. Cameron schools are attracting wide attention over the country and a large number of transfers have been recorded from over the county among pupils who wish to take advantage of the facilities we have to offer.

Other evidences of civic neglect have come to the attention of yours truly regarding the condition of the streets around the Yoe High school building. During the recent rains it was thought for a while that it would be necessary to improvise boats to get the students across the streets surrounding the south side of the building. This condition is clearly chargeable to the city of Cameron as the streets are solely in charge of the government. The condition of the campus of the building is chargeable to the estate from which the building was erected as provision was made for its maintenance. If we can't reshape the streets and regravell them lets buy boats.

The alarming increase of tuberculosis among small children drinking milk from dairies has caused health authorities throughout the country to bring about legislation to give protection to the people. Cameron is not unaware of the danger to the health of little children and has passed an order looking toward legislation that will require tests of dairy cows once or twice a year as needed to keep all infected animals from contributing to the city's supply of milk. This action is a concurrence of belief on the part of the council with the city health officer. It may require that some dairy cows be banished from the herds with loss to the owners but this is no comparison to the health of children.

Response to petitions on the proposed paving is reported to be hearty in all sections of the business district. A liberal support in voluntary paving will avoid passage of acts by the council to pursue the assessment plan. All are agreed that something must be done to save the streets from total depreciation. The council has found it impractical to maintain 30 miles of gravel streets in the face of an increasing traffic and the ravages of the street sprinkler. It has now become a matter of necessity that the streets be paved so as a suggested disposition toward this matter "Our Town" editor urges a united effort for better streets.

Tuesday September 25 property tax payers of Cameron Road District will go to the polls and vote for the issue of \$100,000 in road bonds to resurface the Ad Hall to McCown Bridge road and to build a new two way bridge across Little River. The people will vote for these bonds not only because they are necessary but because they stand for good roads and the like of public improvements at all times. It will require a two third majority to carry the election for the bonds but those in touch with the election can find no organized opposition, showing that the district is practically unanimous on the issue. The tax rate will not be increased for three years and then only to a nominal extent, decreasing perceptibly thereafter as the bonds are retired. A vote for the road bonds is a vote for a bigger Cameron. Get out your poll tax receipt and go to the polls Tuesday September 25 and strike for a better system of highways.

VOLUME 46.

BOND ELECTION TUESDAY 25

CAMERON COTTON WORTH TWO AND HALF MILLION

ISSUE IS NECESSARY FOR YOE HIGH ENROLLMENT BIG HIGHWAY SYSTEM INCREASING EVERY DAY

NO TAX LEVY FOR THREE YEARS AND NEEDED IMPROVEMENTS URGE ADOPTION

With no additional tax levy for three years and a necessity existing for the rebuilding of the Ad Hall and McCown bridge road the people of the district will vote Tuesday Sept. 25 on the proposition of issuing \$100,000 in bonds.

The improvements contemplated from this issue of bonds which will be supplemented with \$125,000 in federal and state aid will be the rebuilding of the road above mentioned and also the rebuilding of the road from the river to Minerva. The bridge will be displaced with a modern two way bridge with concrete floor.

This road is of great commercial value to the city and will be maintained on and after January 1 by the highway department.

Considered from every angle the proposed bond issue is believed here to be one of the greatest and most needed improvement project in recent years.

The property tax payers are urged to go to the polls on Tuesday and vote for the bonds that the good roads movement so well advanced in the district will be given greater encouragement.

METHODIST CHURCH.

Rev. Ira F. Key, pastor will preach at both morning and evening hour Sunday. The morning subject will be: "Spontaneous Kindness" and the evening subject will be: "The Call of the West."

FIRST PAVING PETITION IS PRESENTED TO COUNCIL

BELIEVE MOVEMENT FOR BETTER STREETS WILL MEET HEARTY SUPPORT

The first petition signed by property owners in the business district to be completed was presented to the council Tuesday night by W. W. Chambers and George T. Graves, appointed as a committee to canvass the block assigned to them.

A large number of other petitions are out but so far none of them have been presented to the council. Robert McLane, chairman for his block reports all signed up but one and the committee had been unable to see that one at the time of the council meeting. Mr. McLane appears to be the second to close his district which included the wholesale district and the property around the power plants.

The following is a copy of the petitions prepared by City Attorney Paul Webb and are being circulated. The City Council of the City of Cameron:

We, the undersigned, respectfully petition that the City of Cameron pave the part of the block on which our property is located, the same to be done on the basis of the paving recently completed on Houston Avenue running from the First National Bank to the Hefley Motor Company. Your petitioners hereto understand that the cost of said paving is to be borne in equal portions by the abutting property owners and the City, that is, on the basis of one-third each, and that the abutting property owner's indebtedness may be paid in cash upon completion of the work or in installments to run over a period of five years, at their option, and agree that the details and contract will be entered into with the City when the City Council take definite and final action in the matter.

WEATHER REPORT.

Thursday Sept. 20, 11:00 a. m.
East Texas (Cameron)—Partly cloudy weather colder in the north-east and southwest portion.

Friday generally fair.
Temperatures for yesterday—Amarillo 54, Abilene 88, Cameron 89, Brownsville 90 and Henrietta 92.

Rain fall, ending at 7:00 a. m. today—Abilene .44, Del Rio .14, Henrietta .20, Paris .62, Palestine .84, Greenville .72, Quanah .24, Waxahatchie .34.

ALMOST 300 REGISTERED FOR SCHOOL DURING THE FIRST WEEK.

A week ago the enrollment at Yoe High school was announced as 255. Since that time other students have been coming in, raising the total registration at this time to 285; and it is very probable that the enrollment will soon be 300 or more. Even now we have more students in the high school than ever before in the history of Cameron.

A number of students are coming from nearby towns in order to finish their high school work here; many of them having finished the school course offered in their respective communities.

It is a significant fact, and one of which we should be proud, that the boys and girls of America are more than ever desirous of receiving the benefits of public education. A great many of the boys and girls who are coming to Cameron to school this year are working hard and ordering great privation in order to obtain an education.

School work has started in excellent shape and the boys and girls have settled down to a year of hard study. The high school faculty has one member more this year than last, and altho all classes have their full quota of students and many of the teachers are working overtime, all students are being properly and efficiently cared for in school.

S. A. COTTE ATTENDS BROTHER'S FUNERAL.

S. A. Cottle, proprietor of the Auditorium Hotel, was called out of town Sunday to attend the funeral of an older brother, Walter W. Cottle of Bloomington, Texas, who died in the Seaton Infirmary, Austin, and was buried Sunday in the old family home at McDade.

Deceased had been in bad health for some time and had traveled extensively in search of health. He was a young man, 36 years old, and leaves a wife and five children, the oldest twelve and the youngest only eighteen months old.

DISPOSAL PLANT PLANS ARE APPROVED BY CITY

WILL LOCATE PLANT NEAR RIVER AND PROTECT IT BY SYSTEM OF LEVIES.

Adoption of plans for the sewage disposal plant was voted by the city council in session Tuesday night.

The plans will be sent to Austin for the approval of the State Board of Health and after they have been returned the contract will be awarded to the lowest bidder.

It is estimated that the plant will cost over \$20,000 and will be located near the river. The plant will be the closed type and will be protected from overflow by levies.

The city has recently completed an extension of the sewer system and the growth of the town has compelled this improvement and the disposal plant will be one of the most constructive public enterprises in recent years.

In addition to the sewer system extension the city recently concluded a contract with the Cameron Water, Power & Light Company for an extension of water mains and a standard system bringing about a key rate reduction.

BAPTIST CHURCH.

Regular services will be held at the Baptist church next Sunday morning at 11 o'clock, conducted by a visiting minister.

27,367 BALES RECEIVED AT CAMERON COMPRESS

Up to noon Thursday a total of 27,367 bales of cotton had been received at the Cameron Compress. Of this number 8,734 bales is wagon cotton.

By wagon cotton is meant the cotton that is taken from the gins in Cameron and that hauled in by wagon and trucks from farms and nearby points. More than two thirds of the

BELOVED CITIZEN PASSES TO REWARD AFTER LONG AND ACTIVE LIFE.

J. M. Eplen who has been a resident of Milam county for 51 years, died at his home in this city Wednesday afternoon after an illness which extended over a period of several weeks.

With his passing, Cameron loses one of her best loved citizens. He was an honest, upright, Christian gentleman, a member and an officer in the Christian church and a member of the San Andres Masonic Lodge.

Mr. Eplen came to Milam county with his father's family more than half a century ago and settled in the Yarrington community. He helped his father establish a home in what was at that time a thrifty settled neighborhood. Later, he was employed in a general merchandising store owned by Tom Yarrall and afterward bought the business for himself.

He was married the first time to Miss Jane Shirley, a daughter of an old and established family of that community. To this union three children were born, two of whom survive him, J. D. Eplen, one of Cameron's prominent business men and Mrs. Robert Daugherty of San Antonio.

His second wife was Miss Nola Emerine, who with one daughter, Miss Grace survive. Other surviving relatives are James Eplen a brother of Abilene and one sister, Mrs. Van Perkins of Ft. Worth.

The funeral service will be held this afternoon at 3:30 o'clock at the Christian church, conducted by Rev. T. F. Weaver, the pastor after which the service will be given over to the Masonic Lodge for burial in Oak Hill Cemetery.

HIGHWAY REPORT.

Thursday Sept. 20, 11:00 a. m.
All highways are very rough and some are impassable.

Cameron to Waco via Temple open and fair going.

Waco to Dallas good.

Dallas to Shreveport impassable at Willis Point.

Cameron to Houston via Hearne heavy near Benchley and almost impassable near Hempstead.

San Antonio via Rogers, Taylor and Austin very heavy near Pflugerville, Guadalupe river out at San Marcos and impassable at this hour otherwise the route is in fair to good shape.

Same route via Georgetown is equally as rough, the same black mud will be encountered in the Pflugerville sector.

Cameron to Thorndale impassable.

No joy riding for the tourist—stay at home.

YOE HIGH SCHOOL GETS LIBRARY CONTRIBUTION

CELEBRATED WORK PRESENTED BY T. S. HENDERSON TO YOE HIGH SCHOOL.

The Yoe High school library is indebted to Hon. T. S. Henderson for a handsomely bound twelve volume set of the World's Best Orations. The set consists of a collection of the world's best oratory of all ages. Of particular interest and value is the Texas volume of which Judge Henderson is joint editor long with the Hon. Clarence Owsley and other famous Texas platform orators. This volume contains selections extending from the time of Sam Houston to the present.

The student body of the Yoe High School, together with the faculty and Board of Trustees, extend their sincere thanks to Judge Henderson for this valuable contribution.

ASSAULT TO MURDER AND LIQUOR CHARGES TO BE FACED BY DEFENDANTS.

Wesley Stevens charged by indictment of the grand jury with assault and intent to murder and for manufacturing liquor, and Jim Brashear, charged with manufacturing intoxicating liquor, will be in court in Cameron Monday to go to trial.

The cases have been set for Monday. Two cases are charged against Stevens and one against Brashear. It is not known which of the defendants will be placed on trial first but it is believed both will be tried during the week.

The case and grand jury indictment grew out of a raid made on the Stevens and Brashear farms near Cameron last June when Will Little, deputy sheriff under Drue S. Rogers at Buckholts, was shot in the right hip. At the time of the raid Brashear and Stevens were arrested and a quantity of liquor taken.

Little was brought to the hospital and for a while his condition was thought to be critical. Four pounds of flesh was torn away by the charge of shot from a shot gun.

After Little had returned to the Bob Stevens home where the sheriff and deputy N. O. Kennedy were making a search, both officers went in search of Brashear and Stevens sending Little to the hospital. Little was alone at the time of the shooting. He was knocked down by the charge of shot and disarmed by the men.

Considerable interest is being taken in the case and a large crowd is expected to be at the trial.

PROPERTY OWNERS SIGN PROTEST TO THE COUNCIL

LOCATION OF DISPOSAL PLANT IN GRAVEL PIT BASIS OF COMPLAINT.

Although the city has decided to locate the disposal plant in the river bottom south of the city a petition has been lodged with the council protesting the original plan to locate the plant in the gravel pit near the city. The following petition has been presented to the council:

To the Honorable City Council of the City of Cameron:

We, the undersigned residents and property owners, in the vicinity of the City's property known as the "City Gravel Pit," having been advised, and having reached the conclusion that a disposal plant for the City located at the said City Gravel Pit would create a nuisance in that vicinity and materially damage, if not destroy, the usefulness of property in that locality, and greatly depreciate the value thereof.

Therefore, we as citizens and property tax payers of the City of Cameron, respectfully petition your Honorable body not to locate the proposed disposal plant for the City at or upon said City Gravel Pit.

Respectfully,
T. W. Aycock, A. N. Weems, Owen Weems, Mrs. A. E. Brady, Regan B. Brady, Roy Weems, Melvin Weems, Wm. R. Rogers, M. M. Mado, John Crawford, J. C. Mayfield, Ed. Brod, C. N. Green & Bros., C. N. Green, R. B. Turner, Emma A. Barron, O. L. Kidd, S. E. Brown, J. H. McLerran, Mrs. S. E. Brown, E. Egert, Mrs. Jeff T. Kemp.

LION CLUB IS ORGANIZED IN CAMERON WEDNESDAY

SCHOOL SUPERINTENDENT T. A. FISHER HEADS NEW CLUB IN CAMERON.

Final organization of Lions Club of Cameron was perfected today with officers elected as follows:
President—T. A. Fisher.
First Vice President—J. H. Edwards.

Second Vice President—Dr. E. R. Zellner.

Secretary—Dan Tyson.

Treasurer—H. M. Hefley.

Lion Tamer—Paul Webb.

Tail Twister—Oxshier Smith.

The Board of Directors will be elected at a future date.

Vilas Johnson, Field Director for Lions International, was ably assisted by Lion R. L. McKinney of Dallas who was formerly Field Director for Lions International.

COTTON WORTH 28.50 IN CAMERON THURSDAY AND PROSPECTS FOR HIGHER.

Local cotton statisticians believe the yield this year will be normal and in that event approximately 10,000 bales will be produced in the trade radius of Cameron.

Based on the middling price of cotton Thursday this yield will bring to the city \$2,550,000. Cotton selling at \$29.50, including the seed is bringing about \$170 per bale basis.

The cotton gins of Cameron will gin during normal years from eight to ten thousand bales, the remainder of the cotton being ginned by nearby plants in the trade radius of Cameron.

Business interests here feel that a condition of prosperity such as we had in 1919 will prevail in Cameron this fall and next spring.

It is estimated that about 55 percent of the crop has been gathered around Cameron.

Bank deposits are swelling to new levels in Cameron and with the continued advance in cotton prices liquidation will be almost complete. Spring business will be good and already merchants are beginning to anticipate the spring business.

O. M. SMITH IS ELECTED PRESIDENT BROTHERHOOD

METHODIST CHURCH RESUMES MEETINGS OF ORGANIZATION AMONG LAYMEN.

Oxshier M. Smith, president of the Citizens National Bank, has been elected president of Methodist Brotherhood, the first fall session of which was held in the basement of the church Wednesday night.

Mr. Smith succeeds Dr. A. S. Epperson as president. L. Van Perkins was elected secretary and J. C. Tucker was elected to succeed himself as treasurer.

The meeting was addressed by Dr. J. W. Mills, pastor of the First Methodist church in Beaumont. A large number of the church laymen were present as well as a number of guests. The banquet was served by the ladies of the missionary society.

FORTY TWO PARTY.

Joyce Cox, son of Mr. and Mrs. M. G. Cox was host to a few rhinds Monday evening at a Forty Two Party given in honor of two State University boys who were his guests for the week.

SEWER CONNECTIONS TO BE ENFORCED IN CITY

CITY WILL REQUIRE PROPERTY OWNERS TO CONNECT WITH THE SYSTEM.

The city attorney has been instructed by the council to prepare and send out notices to all property owners in Cameron who have not connected with the sewer system to do so as soon as practicable and within the time prescribed by the council.

With the recent completion of the sewer system the council feels that in order to protect the public health that the property owners should be required to make these connections.

In connection with this order to require the connection reference is made to the ordinance governing this matter, passed two years ago by the council.

Investigation has been made by the council through its engineer of the prices charged by the plumbers of the city for this work and a complete schedule has been furnished the council and an effort will be made to adjust the prices.

RIVER FALLING.

At two o'clock this afternoon Little River had fallen about one and a half feet following the rise of Monday and Tuesday.

Reports say that heavy rains fell around Thorndale and other drainage areas of the river this morning and a slight rise is expected. Fear that the river would overflow with hundreds of thousands of dollars in un-gathered cotton in the bottoms is not felt now.

KEEP AMERICA'S WAMPUM SOUND!

By SAMUEL H. BEACH.

President, Savings Bank Division,
American Bankers Association.

Although the United States is today upon a solid gold basis, we nevertheless know of our own knowledge what inflation means. It would take long to recall in detail the bitter experiences which this nation suffered during the Civil War and the years which followed it, and in our present easy condition we might think such conditions could never again arise. But with such men as Henry Ford and Thomas A. Edison talking about commodity money there is no foretelling what may happen.

One of the plainest lessons taught by financial history is that whenever a nation issues paper money with nothing back of it, that nation is on the road to disaster. Look at Russia with its worthless rubles and Germany with its worthless marks. Think of what happened in France during the years immediately following our Revolutionary War.

The common people of France rose in their might, tore down the Bastille, and made reprisal for centuries of kingly crime and oppression. The profligate court had piled up taxes until they were unbearable. The enraged populace killed King Louis XVI. and also his queen, Marie Antoinette. But they only threw themselves out of the frying pan into the fire so far as finances were concerned.

Unsound Money Tyranny
At the very worst point of their currency inflation they found themselves under the absolute domination of Robespierre. In order to meet the growing scarcity of coin, paper money called assignats were issued. First 400,000,000 francs worth, then 800,000,000 were added with the distinct understanding that the 1,200,000,000 would be the full extent of the issue. This pledge was soon broken and further issues brought the total up to 3,700,000,000 francs.

Frightful depreciation was the inevitable result; and legislation was passed making it a crime, with six years' imprisonment as the penalty, if any one should refuse to take the paper assignats at their face value. Just think of it! A French peasant after working the entire year to produce a crop was compelled by law to accept payment for that crop in paper money, which he knew to be worthless, or go to prison.

It was simply legalized robbery. When the penalty was increased to twenty years imprisonment the inevitable climax came. The Reign of Terror was at its height. Robespierre was in supreme power. He suggested that more assignats be issued and if the people did not take them the guillotine should be the penalty.

Robespierre's End
This unheard of outrage was more than the people could stand. An unknown man arose on the floor of the convention and denounced Robespierre, reciting the heinous crimes he had committed, and so worked upon the feelings of the audience that Robespierre, the tyrant, became Robespierre, the convicted criminal. Two days later he was led to the guillotine. France had learned her financial lesson well—that money must have value back of it.

The fallacy of unsound money is sure to confront us again. Never is there enough of everything for all the people. The struggle for existence is a real struggle, and those who find themselves in the lower strata of human society are ready at any time to grasp at fiat money or any of the other things which misguided politicians hold out to them.

My whole purpose is to drive home the fact that danger lies ahead and to urge every one to let no opportunity go by to use voice and influence to ward keeping the wampum of these United States, as it is today, the soundest currency in the world.

SOME BANK SALARIES

Investigations made by the Missouri Bankers Association have revealed that 368 banks in the state in towns of under 2,000 population are paying their cashiers and chief executives an average of only \$110 a month. Only 273 of the 1,162 reporting banks in towns under 5,000 population pay the president a salary. The report says:

"It indicates that, even allowing for the economy of living in small communities, the cashiers and managing officers of those 1,162 banks, who receive an average of \$140 per month, either must have personal means to begin with, or must maintain the standards necessary to their positions as the leaders of their communities and the builders of the commonwealth by means of 'side lines,' such as selling insurance, collecting commissions on

G. O. P. NATIONAL COMMITTEE FALSELY ATTACKS FAIR TARIFF LEAGUE.

The brief summary of the pamphlet "What the Tariff Does to Kansas" issued by the Fair Tariff League of which Mr. H. E. Miles is the Chairman, sent out last week is the Weekly News Service of the Democratic National Committee, drew a statement from the Republican National Committee that is unparalleled for misrepresentation and downright falsehood. The statement appeared in the New York Herald of Sept. 6, sent from its Washington Bureau. Before quoting the Republican National Committee, the Washington correspondent of the Herald said:

"Today the Democratic National Committee said an investigation had revealed that the tariff act had cost the people of Kansas \$66,418,876 and benefited them to the extent of only \$256,698. Of the total loss, the farmers, it was stated, had to stand \$31,640,846.75."

The correspondent adds, "farm organizations have joined in this campaign."

The correspondent then quotes the Republican National Committee as follows:

"Free trade lobbyists maintaining expensive offices at Washington and conducting a very extensive publicity campaign, are out in a new effort to mislead the farmers. The attack is fathered by the lobbyists of a well-known farm organization. These officials, who are Democrats, are using the organization's name and prestige in a continuous campaign."

The simple facts are that the pamphlet, "What the Tariff Does to Kansas," was compiled by the experts of the Fair Tariff League, of which Mr. H. E. Miles is Chairman, with offices in New York, not in Washington. The Fair Tariff League believes in a protective tariff and frankly says so, but it defines honest protection as "the difference in the cost of production here and abroad." It is not a partisan organization, but its general committee and membership are largely Republicans. It includes representatives of 2,500,000 farmers and 500,000 wage-earners, women's organizations, merchants and manufacturers. It has the assistance of over forty capable experts. It has no connection with any political committee.

This is the organization which the

Republican National Committee publically brands as "free-trade lobbyists maintaining expensive offices at Washington," declaring that its officials are Democrats.

In furnishing reliable statistics of what the tariff does to the various states in the Union, Mr. H. E. Miles is providing the public with the finest possible educational lessons of the highest value with respect to the Fordney-McCumber Profiteers' Tariff which is costing the people of the United States \$4,000,000,000 a year, \$3,500,000,000 of which goes into the pockets of the specially protected special interests. It is this infamous tariff which is chiefly responsible for the disastrous conditions of agriculture, which maintains and at times increases the high cost of living and which is detrimental to honest and legitimate business everywhere.

IN HONOR OF MISS MARTHA LOU HOOKS.

Mrs. Jeff T. Kemp entertained last Friday evening at 7 o'clock with a buffet supper in honor of her niece, Miss Martha Lou Hooks, who graduated from Yoe High School in June and who left Monday for Abilene to enter Simmons College. A delightful supper consisting of chicken salad, sandwiches of two kinds, fruit salad, cheese balls, potato chips, pickles, olives, brick cream, angel food and devil's food cake served the following couples: Martha Lou Hooks, Bassett Watson; Eucenia Wallace, Jack Hearrell; Elois Rogers Ralph Joynes; Bessie Wiley, Billie Clark; Mary Sue Denison, Clifton Jennes; Louise Adams, Moulton Cobb; Pauline Green, Alton Baggett; Helen Green

Help Kidneys By Drinking More Water

Take Salts to Flush Kidneys and
Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

"Slimy Taste"

"Where I feel stupid, get constipated, or bilious, I take a good dose or two of Black-Draught and it sets me straight," writes Mr. George B. Haislep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right. I have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

BLACK-DRAUGHT

Liver Medicine

and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant. I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicines I need. I recommend it to others for I know it is good."

Sold Everywhere.

Glenn Flinn; Agnes Henderson, Edwin Agee; Olive Henderson, Irvin Clary; Mildred Moore, Joyce Cox; Mary Young, Eugene Green; Ruby

Caton, Vernon Roberts; Lucille Camp, Richard Vest; Frances Loney, Lyons McCall.

This was a most delightful gathering of friends most of whom left this week for the various schools. A visit to the Carnival was the concluding feature of the evening's fun.

Court House News

TICK ERADICATION IS SUSPENDED IN COUNTY

COURT VOTES TO STOP WORK ON FIRST OF OCTOBER THIS YEAR.

Tick eradication in Milam county will be discontinued so far as the Commissioners Court is concerned on October 1. The court voted to discontinue on that date but will erect a county vat at Cameron to facilitate the movement of cattle.

The county has spent about \$80,000 all of which will be a total loss to the tax payers unless individual stockmen over the county carry on the work at their own expense. The vats built, if the eradication work is not continued or resumed in the future will serve no purpose except for shipments of cattle as provided in the regulations.

The position of the court is well taken in view of the fact that it has no assurance the work can be carried on successfully with tick infested counties adjoining.

The following statement was given out by Judge Jeff T. Kemp Wednesday:

"On Thursday, September 13, 1923, the Commissioners Court of Milam county, by a unanimous vote, discontinued systematic tick eradication work effective October 1, 1923. This was done for the reason that the court was assured that there was no prospect of 'cleaning up' the county this year or in the future with the adjoining counties of Robertson, Burleson and Lee not doing systematic tick eradication work and for the further reason that the county was not able to meet the financial obligations imposed without injustice to other interests.

"In order that shipment of cattle, tick free, can be made from the county the court requested the Live Stock Sanitary Commission of Texas to appoint an Inspector for this county, his salary to be paid by the county. And the court having confidence in Raymond Beard, who has been in charge of the work for the Federal Government for the last year, asked for his appointment.

"If the request of the court is granted by the Live Stock Sanitary Commission, it will be necessary that pens and vat be built according to plans furnished by the Commission at which cattle, horses and mules must be dipped for shipment to points in Texas other than for market. Cattle for market must be dipped twice, an intermission of seven days between first and second dipping, which can be done at home vat, then, if clean, can be shipped to market and there dipped upon arrival and put in 'native pens.'

"The expense of dipping must be borne by owners of stock at all vats in the county except at the County Vat, for which the county will provide 'dip.'

CAMERON YOUNG MAN INVENTS A VALUABLE AUTO ENGINE PART.

Ralph Chambers, son of W. W. Chambers of Cameron, has filed an affidavit in the records at the county clerk's office certifying to an invention of a valve lift for a combustion engine. He has applied for a patent for the piston lifter and his friends have strong hopes that he will be successful with his invention.

DISTRICT COURT IS WORKING ON HEAVY DOCKET FOR TERM.

The District Court began the trial of criminal cases Monday and will continue for the full term in the trial of nothing but criminal cases.

In the case State of Texas vs. J. D. Matthews, charged by indictment with breaking jail and assisting a prisoner to escape, was given two years in the state penitentiary by a jury. The negro had made a written confession but on the day of the trial repudiated his own confession and entered a plea of not guilty. He went before the jury in his own behalf, making a speech to the jury. He also cross examined the witnesses.

State of Texas vs. Jesus De La Cruz charged by indictment with assault and intent to rape on Annie Steinberg, a ten year old white girl near Rockdale, was found guilty by the jury and given a five year suspended sentence. The state was represented by A. J. Lewis and the Mexican was represented by S. M. Burns.

State of Texas vs. Walter Doggett charged by indictment with transporting liquor, case was passed because defendant who is under \$1000 bond failed to appear for trial. The bond was ordered forfeited by the court. The attorneys are Dr. W. R. Newton and F. C. Mondrik. An alias canias was issued by District Clerk Penn Wolf and placed in the hands of Sheriff D. S. Rogers. Doggett is believed to have left the country for Old Mexico. He was in Cameron

Tuesday but failed to show up for trial Wednesday.

The case State vs. Henry Rhoades, negro, charged by indictment with manufacturing liquor was on trial Thursday. Friday morning the case of State of Texas vs. Lazarus Carey, negro charged with selling intoxicating liquor, will be tried. One of the state witnesses, Lafayette Richards, was recently killed by lightning near Yarrington.

Special venire in the cases State vs. Allan Scroggins, Rodney Cravey, Arthur Von Rosenberg, have been drawn and placed in the hands of the Sheriff to be summoned.

REAL ESTATE TRANSFERS.

The following sales of farm and city property have been reported the past week. Small deals involving little consideration and unimportant are not carried:

\$5250—R. C. Knipp to W. H. Trigg, block 14 in Reese addition to the city of Cameron.

\$1500—Essie B. Peoples to Chas. Swift one hundred acres out of the Dunlap survey.

\$1150—Leona Posey to L. N. Posey 40 acres out of the Rebecca Moore league, and ten acres out of the Sterrett Dobbins league.

\$5000—The Shear Company to J. E. Boyd 141 acres out of the A. H. Boles survey.

\$2400—Peter Moribitzer to F. C. Mondrik 14 2-3 acres out of the W. W. Lewis survey.

\$5200—Paul Ponkoney to W. A. Brown eighty acres of land.

\$3760—D. B. Worcester to the Citizens National Bank 22 45-100 acres of land out of the J. W. Rhodes survey.

AUTO LICENSE NUMBERS.

Tax Collector Bill Alex Bonds has not yet received automobile license numbers for 1924 but they are expected to be on hand within the time prescribed.

The State Highway Commission has ordered 700,000 auto seals for 1924 and delivery is to be made Oct. 1. The cost is \$21.50 per 1,000 and the purchase was made through the State Board of Control.

The background of the seal will be red and the figures and letters will be in white. The year "1924" will appear and the words, "Registered Motor Vehicle." The seal will be rectangular in shape and will indicate that the auto license fee for 1924 has been paid.

INSTITUTE FOR NEGROES.

The Tri-County Teachers' Institute for the negroes composed of Milam, Lee and Burleson counties, will be held in Caldwell September 24 to 28, inclusive. Jim F. Chadwick, county superintendent of Milam county, has received a large number of programs. Other Superintendents are E. McIntosh of Lee County, and Lee Hensley of Burleson county.

J. O. Hughes, chief clerk in the office of County Clerk H. M. Roark, with Mrs. Hughes, has returned from a two weeks stay in Louisiana where they visited relatives and friends. His friends are glad to meet him again at his familiar post in the busy office of the county clerk.

COSTS OF CITY PLUMBING DISCUSSED BY COUNCIL

SCHEDULE OFFERED IN CONNECTION WITH PLAN TO RE-QUIRE CONNECTIONS

Cost of plumbing in Cameron which has been under investigation by the council is discussed in the report of A. F. Mitchell and J. F. Brown appointed by the council to make a schedule of prices in connection with the move to require all property owners to connect with the sewer system.

The following report is made by the engineer and plumbing inspector, Honorable Mayor and Aldermen, City of Cameron, Texas.

Gentlemen:—Pursuant to your request we, J. F. Brown, and A. F. Mitchell, submit herewith a complete list of pipe, connections, and all fixtures necessary for the connections of residences with the City Sanitary Sewer System, with the prevailing prices of same at this time:

1 Toilet	\$35.00
20 ft. 4 inch s i l pipe	7.20
2 4 inch Tees	1.60
1 4x16 elbow	1.25
1 4 inch Cleanout	.75
1 4 inch Brass ferrules	.60
1 ft. 4 inch Lead pipe	.60
1 4 inch Foot Flashing	1.50
30 lbs. Pig lead	3.60
3 lbs. Oakum	.30
60 ft. 1-2 inch Galvanized pipe	4.20
10 1-2 inch Fittings	1.00
60 ft. 4 inch pipe laved	18.00
Labor	15.00
Inspecting	1.50

Sub Total \$92.10

Note:—for each foot of 4 inch Clay Pipe used for a distance of greater than 60 feet from toilet to City Sewer line the sum of 30c per lineal foot of pipe laid should be added to the above sum of \$92.10.

Respectfully submitted, J. F. BROWN, A. F. MITCHELL.

TEXAS COTTON CROP WILL AVERAGE QUARTER BALE TO THE ACRE.

George B. Terrell, Commissioner of Agriculture gave out the following report on the condition and production of cotton today:

"Reports received from fifteen hundred correspondents representing about 200 counties, show serious damage to cotton during the month of August, caused by drought. The crop is 53 per cent of normal and indicates a crop of 3,500,000 bales based on one-fourth of a bale per acre, which is 222,000 bales below the Government estimate of 3,722,000 bales. My opinion is the Government estimate is a little too high for Texas, but about right for the other States according to the reports I have received from the cotton growing States.

"These reports indicate that the total crop will be a little less than 11,000,000 bales, which is a very short crop, and is less than the World's consumption.

"These estimates have caused an

advance in the market as the crop is generally expected a crop of 11,000,000 bales or more and the advance is natural and the price should remain firm around 25 or 26 cents, and should advance later in the season, if the crop is not rushed on the market too rapidly.

"The price paid for ginning ranges from 30 to 40 cents per cwt. of seed cotton, averaging 38c per cwt. and the cost of bagging and ties averages \$1.30 per bale.

"The price paid for cotton seed at the gin ranges from \$32.00 to \$44.00 per ton, averaging \$35.00 on Sept. 1st. The cost of picking cotton ranges from 75c to \$1.50 per cwt. the average being about \$1.10 Sept. 1st.

"The average price per pound being paid for middling cotton Sept. 1st, at interior points was 22 1-2 cts. The average cost per pound of lint cotton to produce this crop as shown by reports of farmers who kept cost items upon blanks furnished by this Department is 24 cents. If crop is sold for less than 25 cents the farmers will scarcely receive the cost of production."

DEATH OF OLD CITIZEN.

E. Gray, aged 79 years, a long time resident of Milam county, died at his home in the Salem community last week and was buried Thursday at Walkers Creek. Mr. Gray fought with Lee in Virginia and was a true and loyal son of the South. In his younger days he was a great athlete, and would often walk ten or twelve miles into town rather than ride in any conveyance. He enjoyed true sport and kept his mind active and his body vigorous to a good old age. His death resulted from a fall.

TWO WEDDINGS SUNDAY.

County Judge Toff T. Kemp officiated at two weddings Sunday. T. R. Welch, a young business man of Dallas and Miss Eunice C. Wise were married at the court house Sunday morning. Mrs. Welch is a Milam county girl, daughter of Mr. and Mrs. Tobe Wise of Hanover. She

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Rub.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Rowles on every package.

has been working in Dallas as stenographer for several months and while there met the man of her choice. The couple returned to Dallas where they will make their home.

Mr. Claude Bailey and Miss Gladys Dycus were married Sunday afternoon at the home of Judge Kemp. Mr. and Mrs. Bailey are both from Yarrington. After the ceremony, they motored to Hanover where a dinner was given in their honor at the home of Mr. and Mrs. Ab Stewart.

HEFLEY-CAGE.

Howard Hefley, son of Mr. and Mrs. John Hefley, of Big Springs, former Cameron people, will be married next Saturday in Georgetown, Texas, at the First Methodist church at 10 o'clock in the morning to Miss Eula Cage, daughter of Mr. and Mrs. James Baylis, Cage of that city.

Howard is a nephew of Sam and Hubert Hefley of Cameron. He was born here and lived here until he was ten or twelve years old. He now holds a good position with the Producers Oil Company. Miss Cage has been employed in one of the state offices in Austin. Messrs. and Mesdames Sam and Hubert Hefley and Miss Jerusha Rogers, a cousin of the groom, expect to attend the wedding.

The Parent Teachers Association of the Cameron schools will hold a reception for the new Superintendent and the entire faculty in the halls of the Yoe High school building, Friday night, September 21. All patrons and friends of the school are invited and urged to attend. Get acquainted with the teachers let them have your hearty co-operation.

KEITH-BOX.

Cards are out announcing the marriage of George Enid Keith to Miss LaVert Box in Nolanville, Texas, Thursday, September 27.

George Enid Keith is a son of Mr. and Mrs. H. C. Keith of Cameron and is an employee of the Santa Fe R'y at Clifton. He is a splendid young man with many friends in Cameron who wish him success and happiness.

REDS IN AMERICA.

How many "reds" are there in the United States? When is a man a "red" and when is he only "pale pink?"

Nobody seems to know. The American Bar Association, through its Committee on American Citizenship, believes that there are a million and a half "red." Other civic organizations with a different definition of what is a "red" put the number much lower.

The man in the street understands by "a red" a person who wants to overthrow the Government, who believes in the Soviet rather than in representative government, who thinks the sword and the torch, the industrial revolution and the commune, are better than the economic structure of this or any other civilized country.

But many an alleged "red" is only "pale pink" in the sunlight!

By a "pale pink" most of us understand a man who is radical in ideas, in that he believes the present order of things is due for a change, but who wishes that change made in an orderly and legal manner. A "pale pink" may believe whole heartedly in a commune (in which everybody shares in everything, in which all are equally wealthy,) and yet desire to bring about such a state of affairs by educating people to demand such an amendment of the Constitution as will insure that plan. A "red" may strongly desire child labor to be forbidden, education made free to all, government ownership and building of national highways and other "good" ideas, and think the best way to get them is to start with a revolution, battle, murder, sudden death!

The "pale pink" radical is not a menace. The "red" is. That there are a million and a half men and women in this country who want revolution, is unthinkable. That there are not more than a million and a half "pale pink" people is probable; prosperity always decreases and hard times increases their number.

All good Americans are on guard against the real "red," but it is not inherent in any red-blooded American to be scared of an army of "reds," which is really very pale pink. Only a few hotheads really try to invade American sanity with anarchy. Let us concentrate on these, and not scatter our efforts to make this land 100 per cent American by worrying over the harmless "pale pink."

PROHIBITION DEBATED IN THE BRITISH COMMONS.

In a recent debate on the prohibition bill offered by Mr. Scrymgeour, Mr. Roberts made the following significant statement:

Mr. Roberts: An election is taken on one hundred different questions. While I think the Bill is open to very serious objection I disagree with the opponents of the measure in the attitude they have taken up. They claim their alcoholic liberty, and they think no one has the right to interfere with the liberty of anyone to drink as he likes, and they are convinced that prohibition in the United States is a complete and absolute failure. It is not my business to defend American prohibition. I have made investigations for years past in the United States myself, and though I have the greatest possible admiration for that great nation, I have no very great trust or confidence in their statistics, for they seem to me very rarely to distinguish between facts and snippeth from newspapers. Therefore I distrust these statements of visitors and travelers who come back. In these matters the eye sees very much what it brings with it the power to see. An Honorable Member opposite quoted the case of a traveler who came back saying he had been unable to find a teetotaler in the United States. I can go one better than that. I have a friend who was six months in the United States and never saw a funeral, and he came back saying Americans did not die. The extraordinary thing about it is that, according to a certain set of statements, if you go to the United States you can buy liquor everywhere without the least difficulty, and that clearly is the reason why it is so strongly objected to by the liquor trade. You find the whole place reeking in drunkenness according to these statements, you find that there is smuggling everywhere, and all the doctors are engaged in a conspiracy, by means of medical permits, to destroy the effect of prohibition. I have a calculation as to the total amount of liquor which could be supplied under the medical permits which have been given out. If all the medical permits given out to doctors were used to their fullest extent, it would amount to 1 per cent of the pre-prohibition drink trade. We are told of the terrible smuggling that takes place from England. If you take all the exports of spirits from this country to all the places bordering on the United States from which liquor could possibly be smuggled in, it would amount to

1 1-2 per cent of the pre-prohibition American drink bill. But, however that may be, on whatever side the justice may be of these discrepant travelers' tales which are brought back, there is one thing that is quite simple. There is no one single legislature in the United States where you can destroy the case for American prohibition. You can do it in the British House of Commons, but in no one of forty-eight legislatures in the United States could you do it. The people who live there and who know about it have been faced with this problem for fifty years. They have been passing this kind of legislation for village, township, county, state, and then for the whole continent. They have their annual, triennial and quadrennial elections, and the people who live on the spot and who have a democratic constitution apparently are not convinced by all these evils that are told to us by travelers who come back. From the last quotation which I have seen of President Harding's views, he thinks that it is futile to expect a repeal of prohibition there. I am content to leave it there, on the authority of the people who live in the country and who have to accept the responsibility.

In 1920 the United States were in the world slump of commercial depression. Everyone said that it was impossible to imagine that one country could get out of the slump by itself, and that the world had to get out of the abyss of depression together. What has happened? In America trade is booming. There is a shortage of labor, there is no unemployment, there is great commercial prosperity. What is the fact which differentiates us from them? If you turn the enormous river of gold which goes to an unproductive trade, a trade which is at best a luxury, and at worst a social and degrading poison, and you divert it into channels of productive industry, you set in motion a force which makes for industrial and commercial prosperity and the economic welfare of the nation. That is the view which I take of American Prohibition, or of what I think is very much more important, Canadian prohibition, the standard of law enforced in Canada is a great deal better than in the United States. Anyone who knows the difference between these two countries will agree with that.

If we were called upon to select the European country with the brightest future we would take Czechoslovakia. That country's government is applying common sense of the first quality to the nation's problems. Instead of systematically lying about the prohibition law of the United States the press of Czechoslovakia is giving the subject sober consideration and officials are encouraging the development of popular thought to the point that the liquor problem can be reduced to minimum proportions. An atmosphere of devotion and confidence pervades the population. Czechoslovakia is destined to be one of the richest and most progressive states among the nations.

'24 BUICK PROVES REAL SENSATION IN CAMERON

NEVER HAS NEW MODEL RECEIVED SUCH ACCLAIM AS THIS.

Motorists are not given to paying more than passing attention to so-called "sensations" in new models. Only once in a blue moon, and only once, does the unusual happen, and since Aug. 1, 1923, it has happened. Tacoma has been no different from other cities of the country which acclaimed the 1924 Buick the motor car sensation of the year from every angle.

Every since Aug. 1 the showrooms have been the magnet for unvarying crowds. Day after day and evening after evening they have come to look at the six-cylinder touring model. Last Sunday, when a four-cylinder sedan and a six-cylinder coupe were shown as an added attraction, the attendance for the day reached a figure not attained on any previous day.

But the interested men and women who flocked to the showrooms did not come through curiosity alone, for they placed orders. This is the same net result as has been recorded everywhere. In Los Angeles, on August 1, the Howard Automobile Company took 124 retail orders for 1924 Buicks. Tacoma was not far behind. Mr. Hawkins said, for more orders were taken for the 1924 Buick in the first week that it was shown than in any similar period since the Buick has been represented here.

Miss Alta Klawansky leaves Friday for Austin and will begin her Sophomore year in the State University at the opening of the fall term. She will room in the Scottish Rite Dormitory.

Souvenirs Her Hobby

By MORRIS SCHULTZ

(© 1923, Western Newspaper Union.)

"THIS is the room occupied by General Washington after the battle of Trenton," piped the little, withered-up, old landlady.

"Looks like an ordinary room to me," grunted Jim Crane.

"Oh, James, how perfectly sweet!" exclaimed his wife enthusiastically. "Just think of our sleeping in the room Washington slept in after the battle of Trenton. Who else slept here, Mrs. Starch?"

"This room," piped Mrs. Starch in melancholy tones, "is called the celebrities room. It has been occupied by Lincoln, General Grant and Edgar Allan Poe at various times. This chair is one Benedict Arnold once sat down in."

"Oh, Jim, do look at Benedict Arnold's chair! Isn't it dear?" cried Molly.

"Well, they can say that James Crane also sat down in this chair," grumbled her husband, planting himself heavily in it.

"Jim, you are so unromantic—" "Seventy bucks a week, just to say we've sat down in B. Arnold's chair and slept in the room occupied by—" "But that bed was slept in by General Washington after the battle of Trenton!" exclaimed Molly. "Just think of it, James! It's something to be proud of all one's life, to say one slept in the bed Washington slept in."

Jim Crane grunted without answering. He had too much common sense to respond. He knew his wife was crazy on the subject of antiques.

Besides, the little country inn, which looked no better than a small farmer's cottage, was packed with the wealthy, indulging in the luxury of residing in the same house as Washington, Grant, Lincoln, Edgar Allan Poe and Benedict Arnold. But of all the guests none equaled the Cranes, who were envied and esteemed—for they had the celebrities' room.

"All I got to say," grunted Jim Crane next morning, "that if Washington, Lincoln, Grant, and Edgar Allan Poe occupied that bed they must have slept mighty badly."

"Now, Jim, you are horrid!" exclaimed Molly. "You know perfectly well in those days they had great soft feather mattresses."

"Humph!" said Jim Crane. "Still, I'm not surprised B. Arnold preferred to sit up all night in that chair. It doesn't look like a very old chair to me."

In fact he had a curious sort of idea that he had sat in that chair before. He dared not tell Molly, however, because he knew she would tell him it was reincarnation.

The week wore away. The Cranes were tortured and envied; they slept the sleep of the damned, but everyone pointed them out during the day as the people occupying the celebrities' room.

Old Mrs. Starch was the fifth of the generations to occupy the old Starch mansion. It had housed all the leading men of Revolutionary and Colonial times. In short, Mrs. Starch, when she was left impoverished, had suddenly struck a gold mine by converting her home into a hotel and charging proportionate prices.

"Well, I hope you've enjoyed your visit, Molly," growled Jim Crane, on the last afternoon. "One more night in George Washington's bed and I'll be glad to hit the hay in our own little home."

"Listen, Jim," said Molly. "I believe Mrs. Starch would sell us Benedict Arnold's chair for two thousand dollars. She hinted—"

"Two thousand! Say, that's the limit!" yelled Jim Crane, tearing his hair.

"But, Jim, dear, just think of having it in our drawing-room and—"

"I won't fall for that stuff!" howled Jim, and Molly, with an offended gesture, sallied out of the room, leaving him in despair.

He knew that she would have her way. It was a clear waste of two thousand honest dollars. Left alone, he stared at the chair, which leered back at him with its crooked arms and splay legs sprawling.

With sudden uncontrollable anger Jim Crane raised his shoe-tree and brought it down, smash, smash, upon Benedict Arnold's chair.

The chair collapsed into brittle sections. Startled by the sounds, Molly and Mrs. Starch came running in. They screamed.

"Jim, what have you done?" Jim grabbed Molly by the arm and pointed to something lying among the debris.

"See that pocket-knife?" he asked grimly. "That's mine. I lost it down the back of the seat five years ago, when that chair belonged to me, before I sold off our old junk to Cohen. That chair cost \$10.95 f. o. b. Grand Rapids, and—"

He turned on Mrs. Starch. "It's all bunk!" he shouted. "Washington never slept here, nor Lincoln, nor anybody more interesting than James and Molly Crane. But I take off my hat to you as the greatest little advertiser I've struck."

Heard It Rattle.

"Is Mr. Glipping at home?" asked a voice over the wire.

"No," replied Mrs. Glipping. "But, wait a moment. I hear him coming in the car."

"Are you sure it's Mr. Glipping?" "Quite. We're the only family in this neighborhood with a 1917 model!"

Christmas Cards For 1923

We announce the arrival of one line of our samples for Christmas cards, by far the most attractive line yet seen in Cameron.

Engraving will be handled by us on a better basis than you can secure from out of town engravers, and we are asking the people of Cameron to support a home institution.

You Will Have To Order Early To Get What You Want.

Printing That Sells

Herald Publishing Co.

Cameron, Texas.

LOCAL AND PERSONAL

Miss Tillie Eanes spent Sunday with her parents in Christman.

Miss Ruby Lengert of Rockdale was a guest of Mrs. Willie Davis Sunday.

Miss Annie Laurie Rohner, a former Cameron girl, is doing stenographic work in the Scott and White Hospital in Temple.

An assistant coach for the Yoe High foot ball team arrived recently in the home of his parents, Coach L. Van Perkins and wife. He weighs ten pounds and has good lungs.

Miss Terry Dollar of Mississippi is a guest of her cousin, Mrs. B. J. Baskin, for a few weeks before leaving for her school in Brenham. Miss Dollar has been studying in the Southwest Texas Normal this summer.

Miss Carrie Roark of Lancaster a member of the Maysfield school faculty, is visiting in the home of her brother, County Clerk H. M. Roark, until the opening of the Maysfield school, Monday, September 24.

H. H. Pruett, principal of the Yarrington school was a Cameron visitor Saturday. Mr. Pruett stated that on account of the large amount of cotton yet to be harvested, the Yarrington school would not open for several weeks yet.

Geo. T. Moore, Jr., son of Mr. and Geo. T. Moore, who has been in a serious condition following an appendicitis operation, was reported some better Tuesday. He is a patient in the Cameron Hospital.

Miss Mildred Moore, who graduated from Yoe High school last June, will leave this week for Houston and may enter Rice Institute later on.

Miss Loula May Carford of Plano has returned home after a visit here with a former school mate, Miss Louise Denson.

Leland Denson of Waco spent the week end here with his parents, Dr. and Mrs. John L. Denson. Leland will be Athletic Coach in Government school this year.

Mrs. W. M. Cobb spent Monday in Temple.

Rev. B. B. Blaylock, pastor of the Temple Memorial Baptist church, was a Cameron visitor Tuesday.

If you have any old clean cotton rags, bring them to this office.

Mrs. C. W. Lawrence and daughter Miss Alice, left Tuesday morning for Milford where Miss Alice will enter Texas Presbyterian College for the fall and winter term. Miss Jennie Tyson, daughter of Mr. and Mrs. R. R. Tyson, will also be a student in the same school. Miss Jennie left earlier in the week.

Stewart Epperson, who has been taking a pre-med course for the past three years, will work this year in Houston but expects to enter the Medical Department of the State University next year.

As I have sold my photograph studio in Cameron to another party, those wishing photos will please call before October 10th. F. E. Beach.

Mrs. H. H. Hartsfield and Miss Inez Tyson have a positions with the Laurence Abstract Company.

Born to Mr. and Mrs. E. O. Schiller, Sunday morning September 16, a son.

Rev. E. S. Sansom, wife and baby of Maysfield stopped in Cameron Tuesday afternoon for a short visit. They had just returned from a visit to Georgetown and Austin and were accompanied home by Mrs. Sansom's mother, Mrs. Gribble of Austin. Mr. Sansom is pastor of the Maysfield Presbyterian church and has been added to the Maysfield school faculty for the coming term.

Pick up a piece of money by bringing your old clean cotton rags to this office.

Friends in Cameron are rejoicing with Mr. and Mrs. Marion Morton of Dallas over the arrival of a little son in their home a few days ago.

Mrs. J. T. Parma and little Mildred, also Mrs. D. J. Kubecka spent first of the week in San Antonio and Austin.

Will T. Yates, sold his dairy farm located a short distance north of the city limits this week to Roy Griffith and Carey Avriett, effective, October 1st. Mr. and Mrs. Yates will move to Dallas and make their home there where their only son, Coran, is taking a course in Dental Surgery in the Baylor Dental College.

Mrs. Dr. Gray of Houston was the guest of Cameron friends Saturday.

Mrs. N. Y. Self of Port Sullivan has been a guest of her daughter, Mrs. Gunn and Mrs. Hugo Slaughter for the past few days.

J. A. Ely, of Gause, has accepted a position with B. J. Baskin & Sons. Miss Kathryn Hancock spent Sunday in Gause.

Mrs. W. M. Caldwell returned Friday night from a three months visit to her son, Woody Caldwell, in Belleville, Michigan.

J. O. Hughes, first deputy county clerk and Mrs. Hughes returned Friday from a two weeks visit in Louisiana. Mr. Hughes stated that during the week he spent in Shreveport, 8 inches of rain fell. On the return trip he passed through portions of Texas where no rain had fallen while other parts had received heavy rains.

Mr. and Mrs. John Perry have returned from a two weeks visit in California. They were guests of Mrs. Perry's cousin, Milton (Pete) Stevens and wife.

F. E. Beach, photographer in Cameron for 23 years, has sold his studio to C. F. Merchant of Winnsboro who will take charge of the business about October 10. Mr. Beach is a real artist and has enjoyed excellent patronage from the people of this section. He has been in this line of work for 25 years. He will not leave Cameron, but has not announced his plans.

Mr. and Mrs. Robert Southwell have a new baby boy in their home.

Quite a number of Cameron people attended the funeral of Roe Owens, former deputy sheriff of Milam county who was buried at Little River Cemetery Tuesday afternoon.

Miss Ruth Coleman left Sunday for Milford. She will teach Latin in the Milford High School this year.

Miss Louise Denson has as her guest for the week, Miss Addie Blair of Eddy, and for dinner guest on Tuesday, Miss Bill Fountain of Jones Prairie.

Mrs. W. A. Beal has returned from Sherman where she attended the wedding of her sister, Miss Lula Gough.

Jack Vest who has been working in Port Arthur is at home visiting his parents, Mr. and Mrs. J. G. Vest.

Mrs. Earl Westmoreland has returned from a visit in Mississippi.

Mike Coleman is able to be up after an appendicitis operation and expects to be able to begin work in a short time.

Mrs. C. J. Newton and daughter, Mrs. R. B. Mayes of Maysfield were in shopping Tuesday afternoon.

Mrs. R. D. Brown has returned from Dallas where she represented the Presbyterian Auxiliary of the Cameron church at a meeting of the Synodical and visited her sister, Mrs. A. Templeton.

Misses Imogene Ross of Houston and Eleanor Phillips of Rockdale were guests of Miss Irene Cheeves last week.

Mrs. James Posey, Mr. and Mrs. F. E. Jarrett and children, who were guests of Mr. and Mrs. F. E. Dunlap last week have returned to their home in Teague. Mrs. Posey is Mrs. Dunlap's mother and Mrs. Jarrett is a sister.

Mr. and Mrs. Joe B. Preston are now occupying the home recently vacated by Mr. and Mrs. P. H. Medsker.

Miss Hartha Lou Hooks left Monday for Abilene and will enter Simmons College for the fall term.

Miss Irene Cheeves who has been visiting friends in Dallas, is expected home today.

C. W. L. Shaeg, secretary of the Cameron Mutual Life Insurance Co., reports that the company now has over nine hundred members with good prospects for 1000 by October.

Mrs. Ernest Kelso and Miss Mary Kelso of Maysfield were here shopping Monday.

Mr. and Mrs. Savantha Sansom and daughter, Miss Willie, have returned to their home in Georgetown after a visit in Maysfield with Rev. E. S. Sansom and family.

Misses Bess and Carrie Vaughn Bozarth of Austin are guests of Mrs. Frank Craven.

Dr. W. J. Fontaine and daughter, Miss Willie of Jones Prairie were Cameron visitors Tuesday.

Mrs. S. W. Cheeves visited her niece Miss Mary Frances Green, in the Temple Hospital and other relatives in the city last week.

Mrs. Marvin Avriett of Pleasant Hill is here to be with her sister, Mrs. Carey Avriett, who is a patient in the Cameron Hospital, and also to visit another sister, Mrs. T. A. Howell.

Mr. and Mrs. T. A. Howell and son, Lee, spent Sunday in Austin with Mr. and Mrs. Jay Howell.

Mrs. Kirby Boles is able to be out again after a week's illness.

Newton McDonald, traveling salesman for a St. Louis paper house, is visiting in Cameron this week.

Dr. A. B. Guinn returned Monday night from a visit to south Texas.

Mrs. Otto Boeker of Ben Arnold was shopping in the city Monday morning.

Mr. and Mrs. Wiley Mangum and little daughter, Elizabeth, motored to San Antonio Friday, returning Sunday night.

Mr. and Mrs. C. S. Peyton of Cleburn were guests of Mr. and Mrs. Alex Triggs, Mr. and Mrs. W. J. Woods and other friends this week. Mr. Peyton is District Manager of the Southwestern Bell Telephone Co., was former manager of the Cameron Exchange, and Mrs. Peyton was Miss Bonnie Brower, a former member of Cameron's school faculty, music department. They are on a two weeks vacation and left here Thursday expecting to continue their travels into Old Mexico. It was a pleasure to their many Cameron friends to have them spend a part of their vacation here.

Mrs. Al Harland of Branchville was shopping here Monday.

Miss Xie Fraim of Gause was a Cameron visitor Saturday.

Lyons McCall, Yoe High school graduate of 1923, and star foot ball player for that year, left Friday for San Marcos and will attend the Southwest Texas Normal this winter.

Fontain Flinn manager of the Flinn farm at Bishop, was here this week visiting his mother, Mrs. E. A. Flinn.

Mr. and Mrs. Leslie Green and little daughter spent Sunday in Gause with Mr. and Mrs. Walter Thomas.

Mrs. W. Klawansky visited in Waco last week end.

Walter Thomas, druggist of Gause, was a business visitor in the city Friday.

Mrs. V. L. Sheffield left Saturday to visit her daughter in Fort Worth.

Mrs. B. Rohner of Temple spent Sunday with Mrs. Cora Cammer.

Mrs. Tom Turner was able to be moved home from the Cameron Hospital Monday. She is recovering from an appendicitis operation.

Miss Tabbie Robinson spent Sunday in Buckholts with her cousin, Miss Maurine Robinson.

Mr. and Mrs. O. F. Robinett of Maysfield were Cameron visitors last week. Mrs. Robinett is one of the most successful teachers in the county and will be at the head of the Maysfield school again this year.

Mrs. J. W. Coleman and daughter, Miss Sallie, left last week for Taft to be present at the marriage of James L. Coleman and Miss Betsy Inez Friday, which was solemnized in the Presbyterian church of Taft Wednesday morning at 10 o'clock.

Relatives in Cameron were notified last week of the death of Mrs. C. P. Dodge of Houston. Mr. Dodge, a former Cameron man, is General Sales Manager of the Texas Company.

Mr. and Mrs. Ed. F. English spent Sunday in Buckholts with relatives.

Miss Kathryn Kelso, daughter of Mr. and Mrs. Ernest Kelso of Maysfield, who has been a student at Daniel Baker College, Brownwood for the past two years, left last week for Itasca and will teach this winter in the Presbyterian Home and School for Orphans, located at Fries Valley, a few miles from Itasca. Mr. J. E. Watts, former Superintendent of the Cameron school, is president of the institution.

R. B. Parsons, principal of Yoe High School for two years, received his M. A. Degree from the University of Chicago in August and is now visiting his mother in Maysfield, Kentucky. Mr. Parsons will come to Baylor College, Belton on the 26 of September as professor of education. He expects to visit Cameron soon after his arrival in Texas. He was very popular with the student body and has many friends here, among the citizens who will be glad to welcome him to Texas again.

Roy Griffith and C. A. Avriett spent Sunday in Pleasant Hill visiting in the home of Robert Griffith.

Mrs. Margaret Wilburn of Rockdale and her daughter in law, Mrs. E. M. Wilburn and two children of Dallas, spent Monday here with Miss Jeffie Wilburn and Mrs. Joe Dusek.

W. J. Bassett, general agent for the Southwestern Life Insurance Company of Dallas, was a business and social visitor in the city Sunday and Monday. He was a guest in the home of his sister, Mrs. John Watson.

L. L. Blaylock returned Saturday from a business trip to south Texas.

Miss Grace Mangum left Saturday for Rosebud and began her second years work as a member of the Rosebud school faculty Monday.

Mrs. Martha Smith, an old settler in Milam county is in Cameron this week visiting in the home of her son, John Williams. Mrs. Smith was 86 years old last Friday and the day was fittingly observed in her grandson's home and old friends called to pay their respects to the honoree. Mrs. Smith's father was Judge Walker whom all the old settlers remember as a prominent man in the Salem community many years ago.

Mrs. Grantham, mother of Mrs. George Mangum, is another old settler to pass the eightieth milestone this week. She was eighty one on Monday, September 17. These two ladies have seen Milam county develop from a frontier with a few scattering settlements into one of the best counties in the state. Much credit for her substantial progress is due to such good women as the two mentioned above.

ROE OWEN, WIDELY KNOWN PEACE OFFICER BURIED TUESDAY.

Roe Owen, former Deputy Sheriff of Milam county, died at his home in Waco Monday. The body was forwarded to Cameron and met here by a number of old friends and escorted to Little River Cemetery for burial.

The following from a Waco paper gives a short sketch of his life and details of the funeral service. Illness of many months resulted in the death Monday afternoon at 5:15 of M. B. (Roe) Owen, who passed away at his home, 724 North Eleventh street. The funeral will take place Tuesday afternoon at Little River church, just below Cameron, where the body was shipped Tuesday morning by the Compton Undertaking company. Rev. B. T. Goodwin will officiate.

Active pall bearers will be: A. W. Bounds of Belton, Bob Todd, J. E. Freeman and Jeff Kemp of Cameron, George Lehman and Z. A. Booth of Rosebud, Honorary: Jess Venoy of Belton, Bennett Smith and N. S. Erskine of Temple, M. Burton, Constable Harvey Butts, G. B. Brown, Frank Tension and Bob Lyon of Waco.

Born in Mississippi, Mr. Owen had spent the greater portion of his life in Central Texas. He was constable at Rosebud at one time, and was city marshal at Temple for a number of years. He was a member of the police department here for about six years, and three years of that time he served as night chief. In Waco Mr. Owen was known to and highly esteemed by many friends, and he had a wide acquaintanceship throughout the state.

Besides his wife, he is survived by two sons, Monte E. and Onnie B. Owen, both of Waco. He also has three brothers and four sisters, Oliver Owen, Rogers, C. T. Owen Santa Anna; M. A. Owen, Quanah; Mrs. John Crow Rogers; Mrs. A. A. Lovorn, Temple; Mrs. H. Hayo, Edinburg; Mrs. J. Barnes, Carthage, Miss.

KNIPP-ROYALL.

Fred C. Knipp, a Cameron boy, now living in Kansas City, was happily married on September 12, in the First Methodist church of Petersburg, Va., to Miss Frances Royall, daughter of a former pastor of the church.

This happy event was the culmination of a romance beginning when a soldier boy, recovering from an attack of meningitis, which prevented him from sailing with his company to France, was invited to the home of the late, Dr. J. C. Royall, pastor of the First Methodist church of Petersburg, to eat Christmas dinner. Dr. Royall's youngest daughter, was at home from Randolph Macon College for the holidays, and thus the story begins.

Mr. Knipp is with the Educational Film Corporation of Kansas City and after a bridal trip to Niagara Falls, Mr. and Mrs. Knipp will return overland to Kansas City to make their home. After her graduation from Randolph-Macon, Mrs. Knipp taught in a girl's school in Atlanta Ga.

On Wednesday of this week Mrs. C. P. Leavson of this city mother of the groom received a box containing a slice of the wedding cake and a card which contained the following: "First slice of Bride's cake cut by the bride for the groom's mother."

Mrs. Leavson, and Mrs. Kathryn Robbins, sister of the groom are looking forward to a visit from Mr. and Mrs. Knipp at Thanksgiving.

DAY-CARGILE

The parlor of the Central Hotel of Galveston was the scene of a pretty wedding Tuesday evening, Sept. 18, when Geo. R. Day of Los Angeles, Calif., and Miss Anna Cargile of Cameron, Texas were united in marriage.

Miss Cargile held a very prominent position with the Harvey Co. at Galveston.

Immediately after the ceremony they left on a few weeks wedding trip and will then return to Galveston where Mr. Day will establish a business and make that their future home.

Judging a Great Institution by Small Defects

By J. H. PUELICHER
President American Bankers Association.

It would be difficult to find a banker, understanding thoroughly the Federal Reserve System, willing to admit that we could continue a first-class commercial nation, without the Federal Reserve Banks, or mechanisms similar to them. Yet there is antagonism to the Federal Reserve Banks based in a measure on some minor mistakes in administration, but more generally on a misunderstanding of their purposes, of what should be expected of such a system.

The banker, as much as any man, is to blame for the present misconception. He found Federal Reserve Banks a ready scapegoat to blame for no matter what happened. If it seemed desirable to refuse or call a loan it was easy to say that the Federal Reserve Bank wished it, although it should have been refused because contrary to good banking practice.

Most of all was the system blamed for the fact that violent inflation which hundreds of business men and bankers hoped might be continued forever was finally checked by putting up Federal Reserve interest rates. There were those who blamed the system for not having put up the rate soon enough and others who blamed it because it put up the rate at all.

The penalty for thus blaming every business mishap on this valuable system may be the loss of its much needed benefits. If we wish to save the present bank of the United States from the fate of its two predecessors we must make known to America, to its rank and file, the splendid usefulness of these institutions.

We must admit at the outset that in their administration mistakes have been made, that governors of Federal Reserve Banks and members of the Federal Reserve Board are human beings, and in the administration of the affairs of any institution by human beings mistakes will be made, but these have been so insignificant as compared with the outstanding usefulness of the institutions themselves that they should be judged by the good which they have performed, which, after all, has been along the line of their designed achievement, rather than by those errors which time and experience can easily eliminate.

COOPERATIVE FARM MARKETING NOTES

Progress of the Movement to "Put Farming on Par With Other Big Business."

A pamphlet and questionnaire on co-operative farm marketing recently issued by the State Bank Division, American Bankers Association, has brought out valuable information on the subject from bankers, farmers and state agricultural departments. It is being used as a campaign document in the organization of co-operative marketing associations in various sections of the country, farmers having adopted its slogan: "Put Agriculture on a Par with Other Big Business."

The movement on the part of farmers toward co-operative marketing as a cure for their present economic plight is nation-wide. There has been notable progress in the development of such associations, some conspicuously successful ones being in operation at the present time. There have also been some disastrous failures among these ventures in co-operative marketing, which is the inevitable accompaniment of the progress of any movement. The "Banker-Farmer," published by the American Bankers Association, says:

"Cause and effect are operative in co-operative marketing as truly as they are in every other business enterprise. An association will not necessarily succeed or fail merely because it is a co-operative association, but because it conforms to or transgresses from the underlying principles of successful business operation. The movement itself is of great national import and the bankers of the country can materially aid or retard its progress. The responsibility of leadership in rural communities rests very largely with the country banker. It is his duty to be informed on all matters relating to the farmers' well-being."

Modern conditions are such that agriculture cannot be successful by individual effort. To regain its position as a basic industry, and as a force in national affairs, agriculture must depend upon organization and co-operation for economic production, for economic marketing and for the establishment of its proper relationship in community life.—Howard Leonard, President, Illinois Agricultural Association.

A TARIFF OF DISTRESS AND ILL WILL WITHOUT BENEFIT.

While Texas is the greatest cattle state in the Union with 6,155,715 head, a third more than Iowa and twice as many as any other state, the tariff on cattle is of no benefit whatever to Texas, while on the other hand it is a distinct injury to the corn producers of the Northwest and an affront to Canada, which is both a good neighbor and a good customer. The tariff on cattle is 1 1/2 cents per pound for animals weighing less than 1,050 pounds, and 2 cents per pound for animals weighing 1,050 pounds or more.

Incidental to his valuable statistical information concerning what the tariff does to Texas (and other states as well) Mr. H. E. Miles, Chairman of the Fair Tariff League, shows the injustice of the tariff on cattle to the farmers of the Northwest and the injury to business generally by reason of the decline in Canadian purchases in this country, which were reduced \$400,000,000 in one year as a result of the rates on cattle in the Fordney-McCumber Profiteers' Tariff act. In analyzing this cattle tariff and its effect, with special reference to Canada, Mr. Miles says:

"Our tariff on cattle was a direct affront to Canada, that exports some 200,000 head of range cattle annually."

"Our Northwestern farmers need these Canadian feeder-cattle. The United States as a whole requires 4,500,000 feeders annually. Canadian feeders-cattle should carry to Europe the corn and other feed of our Northwest. By the sudden imposition of our Fordney duties Canada was left without a market. Last winter a traveler in the Canadian cattle country counted 300 cattle and horses, standing up, frozen to death, in a distance of 150 miles on one side of his train. How many more were lying down or were on the other side of the train, and in the far reaches beyond sight? This when beef was high in our cities and corn in our Northwest was selling at from 26 to 31 cents per bushel."

"The just wrath of Canadians will not be overcome in many years. Their purchase from us were reduced by \$400,000,000 in one year, not from anger only, but mostly because we would not accept, on fair terms, of such of their commodities as we could use in payment for our goods."

"We make a mockery of our boast that our unguarded Canadian boundary lines is imaginary only. We fortified it with worse than guns, with a tariff of distress and ill-will that give us never a benefit."

"Canada errs in attributing this action to the American people. She apparently thinks that our public rules in tariff matters. She does not realize that the Fordney law was enacted by a few over-powerful manufacturers, who betrayed the principle of protection, fooled the people, and disregarded the better judgment of many manufacturers who wanted lower duties on their own and other manufactures."

"Leading American farm organizations are now urging a repeal of our duty on cattle."

FIFTY BOYS AND GIRLS OFF FOR SCHOOL.

More than fifty Cameron boys and girls, nearly all of whom are graduates of our high school, will enter higher educational institutions this month.

Some will finish their course and get degrees next June, some are members of the middle classes and some are entering as freshmen. They will be enrolled in the following schools: State University—Moulton Cobb,

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, sniffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

D. A. R. MEETING.

The Sarah McCalla Chapter, Daughters of the American Revolution, met Tuesday afternoon in the home of the newly elected Regent Mrs. T.

S. Henderson. Nine members were present and an enthusiastic session was enjoyed. Members of the Chapter with several invited guests will visit some of the historic spots in Millam county Saturday, September 22. It is their plan to leave Cameron Saturday morning for Old Fort Nashville where they will spread lunch and on the return trip will visit Sugar Loaf Mountain and the Lone Pine.

"INTERNATIONAL BANKER" A MYTH

Otto H. Kahn Refutes Idea That Foreign Finance Activities Dull Allegiance to America.

BANKING REFLECTS BUSINESS

"International Farmer" and Other Business Men Who Sell to Foreign Markets Create Demand for International Financial Service.

The idea that bankers engaged in financing foreign trade and in handling foreign bond flotations are a particular cult of "international bankers" actuated by motives differing from those of other bankers was refuted recently by Otto H. Kahn of New York, in an address before the Rochester Chamber of Commerce.

"There is no such thing as an 'International Banker' in America, as the meaning of the term is generally understood," Mr. Kahn said. "He exists in the imagination of people all too numerous, but he does not exist in the flesh. You might just as well speak of the 'International Farmer' because the farmer sells a certain percentage of his crops to Europe, or of the 'International Manufacturer'."

"The banker maintains, and can maintain, international contact, and conduct international business, only to the extent that American industry, commerce and agriculture are international. True, the banker must take within his purview continuously the conditions of affairs and the current of things throughout the world, but so must the exporter and importer, and so must the farmer take into account the prices and tendencies of the world market in Liverpool.

Banking Mostly Home Business

"The American banker's market is the home market. His success is conditioned upon the capacity and willingness of the American investor to absorb the securities which he offers. His very existence depends upon the confidence and co-operation of the public and of his fellow-bankers—and any banker whose activities would justly create the impression that he was actuated by cosmopolitan rather than by American interests would very soon lose that confidence and following.

"The business which he does for his own account in, with, or for Europe is inconsiderable as compared to the business he does in America. His principal functions in relation to Europe are to provide the requisite facilities for export and import and for travelers. That part of his functions which consists in financing loans of foreign governments or industries has hitherto been, with sporadic exceptions, of relatively inconsiderable proportions as compared to the vastness of the volume of his transactions in financing American industry, commerce and enterprises.

Necessity for Foreign Credits

"In saying this, I do not mean to imply that there is anything that calls for apology in the floating of foreign loans in America and in the loaning of American funds to Europe, provided such loans are considered sound as to security and are made for legitimate, constructive purposes. Indeed such loans ought to, and I believe will be made in increasing measure, when conditions in Europe will have become such as to warrant it.

"It is manifest that the promotion of our export trade, including, of course, the export of farm products, requires us, under the circumstances as they now are and are likely to remain for some time, to aid the purchasing power of other nations by extending to them financial facilities to a reasonable extent.

"It is the function of the banker to be instrumental in carrying out such transactions. In doing so, he is the means of serving a useful national purpose, just as he served a useful, indeed a highly important national purpose, in being the means of attracting and bringing European capital to America in former years when conditions were reversed and such capital was nothing less than vital to the development of this country and the realization of its opportunities."

FOR SOUND MONEY

Senator Oddie of Nevada, chairman of the United States Senate commission to investigate the problems of gold and silver mining, has allayed the fear that Western Senators, in their zeal to aid the cause of silver, might launch an unsound money wave. "I am for sound money," Senator Oddie says. "There is no thought of bimetalism or departing from the gold standard. We desire to help the great mining industry, but not through the creation of an unsound currency."

The commission is to study and report on the causes of the continuing decrease in the production of gold and silver; the causes of the depressed condition of the gold and silver mining industry in the United States; the production, reduction, refining, transportation, marketing, sale, and uses of gold and silver in the United States and elsewhere; and the effect of the decreased production of gold and silver upon commerce, industry, exchange and prices.

MISS RUTH GOUGH MARRIES IN SHERMAN.

Mrs. W. A. Beal returned last week from Sherman where she had been to attend the wedding of her sister, Miss Ruth Gough. Miss Gough has been a frequent visitor in Cameron and might be classed as a Cameron girl. She was a niece of the late Mrs. Lula Cass, and is a first cousin of Mrs. Sam Hefley. Her brother, Bailey Gough, who gave her away, is an old Cameron boy and her sister, Mrs. C. L. Hefley, who attended the wedding from McAllester, Okla., married in Cameron and married a Cameron boy.

A beautiful and a full description of the wedding appeared in the social column of the "Daily Chronicle," a Sherman paper from which the following notes are quoted:

"An early fall wedding in which many Sherman friends have been interested was that of Miss Ruth Gough of this city and Mr. Olen M. Harned of McAllester, Okla., which occurred on Tuesday afternoon at 4:15 at the First Baptist church. There is no better known or more popular girl in Sherman than this bride of Tuesday afternoon, and she possesses all the attributes of a lovely character, which have endeared her to her friends. She is a daughter of Mrs. M. Gough of North Travis Street, reared and educated here and has been a successful teacher for several years.

Mr. Harned is well known in this community and has been traveling for some time in the interest of the Interstate Cotton Oil Refining Co. Mr. and Mrs. Harned departed on the 4:50 train for a bridal trip to Galveston after which they will return to Sherman to make their home.

MRS. JEFF T. KEMP IS CHAIRMAN OF CHRISTMAS SEAL STAMP SALES HERE.

Mrs. Jeff T. Kemp has been appointed chairman of the Red Cross Christmas seal sales campaign of Milam county. This announcement is made by the Texas Public Health Association. Lewis E. Brady, representing the association was in Cameron Wednesday.

The proceeds from the sale of these health stamps are applied to public health work over the state. The stamp has had a wide sale in this county each year and it is certain to have a wide sale at the coming Christmas period.

TAX COLLECTOR BONDS OFF ON COLLECTION TOUR OF COUNTY.

With cotton selling at 28 cents there is little belief that the delinquent tax list this year will be large. Tax Collector Bill Alex Bonds will leave Cameron in a few days for points over the county where he will spend nearly thirty days in collection of taxes.

Circulars have been printed and an advertisement in the Herald shows the dates and the places he will visit. It is a convenience to the tax payers to have the collector make this annual trip and all are requested to pay in the communities where he will work during the month.

CHARTERED UNDER THE LAWS OF THE STATE OF TEXAS

THE MUTUAL PLAN OF INSURANCE

This plan of insurance is meeting the demands of the insuring public and is fast taking the place of the high rated companies all over the state. It is the old reliable plan of insurance, and the common sense way. It is protection at actual cost plus actual managing expenses. It brings the universal need of life insurance protection within easy reach of every white person between the ages of 16 and 60, anywhere in the state of Texas. This cost is based on the actual death, disability, and accident claims of its members.

BENEFITS.

In event of death or total disability the claim is paid not to exceed \$1,500.00. Accident benefit is one half of the value of the policy which is not taken from the death benefits.

DIFFERENT CLASSES.

The membership is divided into several classes, 16 to 45; for the younger people. 16 to 60 to take care of the older people. By this plan the younger people are not putting their risk against the age of the older people. Each class is independent of all other classes.

LOW COST OF THIS PLAN.

For the year 1921 the death rate of this state was 10.33 per 1,000. This includes all ages and all classes of people. By the separation of our membership into classes according to ages the cost of the younger class will naturally not be as much as for the older people, which is right.

Five Thousand for an Ear

By ANTHONY REIMERT

(© 1922, Western Newspaper Union.)

GEORGE, the elevator boy at the hospital, has a very pretty ear, delicately shaped, like a girl's. On the other side he wears his long hair brushed low.

Miss Van Dyce, the society beauty, had shell-like ears, like George's. George had often seen her, for the Van Dyce house is not far from the hospital. Everybody knew the beautiful Miss Van Dyce, who used to drive the powerful car. She is driving it again, by the way.

Miss Van Dyce was brought into the hospital unconscious. She had been doing social work, had gone into a factory, and had a piece of her scalp torn away by a machine to which she stood too close. The ear was missing, too. The girl was disfigured for life. "Can nothing be done?" asked the distracted mother.

The doctor shrugged his shoulders. The ear had not been found. Every one knew where it was, before they stopped the machine, but— "Unless some person would be willing to give up an ear."

"I would pay five thousand dollars!" exclaimed the distracted mother. The beautiful Miss Van Dyce without an ear was simply unthinkable.

"There's George. He has ears of the exact shape," said the nurse.

Somebody broached the subject to George. "Five thousand dollars, George, and you can wear your hair long. It won't matter in a man."

"Five thousand nothing!" said George stoutly.

"You won't eh, George? Don't blame me," said the surgeon.

"Sure you can take me ear—both ears—for her," responded George, "but I won't take no money for it."

A volunteer had been found. The mother was strictly cautioned not to let her daughter know that it was a strange ear she would be wearing on her head when she came out of the hospital. To her dying day Miss Van Dyce was to be ignorant of the heroic George's sacrifice.

The day came when George, feeling the ether cone upon his nose, put his right hand up to his ear in last farewell.

He awoke with only one ear, but so happy! Two weeks later he was running his elevator up and down again, and his hair was growing nicely. He was the hero of the hospital.

Once, on one wonderful occasion, passing the passage, he peeped into the room in which Miss Van Dyce sat with her head bandaged. She was in a chair, reading a novel of heroism and young love. She did not even glance up when George passed. She was never to know anything about it.

George was a willing martyr. The thought that he had contributed to Miss Van Dyce's continued social career was infinitely joyous to him. He went about in an ecstatic dream.

The day came at last when Miss Van Dyce was to leave the hospital. George had been fully informed of the progress of the illustrious patient. She was doing very nicely indeed, the ear had grafted quite well and now formed an integral part of Miss Van Dyce's physical mechanism.

Best of all, the ear resembled Miss Van Dyce's private ear so closely that it was practically impossible to see any difference between them.

Now Miss Van Dyce emerged from her room, walking a little weakly still, but radiant at the idea of going home. With her walked her mother. The nurse pressed the elevator bell. George, below, flew up on wings.

He knew that it was Miss Van Dyce, ready to depart for home.

The door was opened. Miss Van Dyce and her mother stepped into the elevator. George's hand trembled so that he could hardly pull the rope.

He shot a shy glance at his divinity, but the divinity's eyes were upon the ground. The mother, who knew all about George, of course, and was afraid he was going to ask for the five thousand dollars, kept her eyes on the floor of the car.

George stole a look at Miss Van Dyce's head. There was his ear, her ear now, growing nicely, and looking particularly pink and shell-like.

Conscious that George was looking at her ear, Miss Van Dyce looked at George's. Suddenly she screamed:

"Oh, mother, take me away, take me away! That boy has only one ear! It oughtn't to be allowed in a public hospital. I shall get father to write to the directors."

Romans Take to Canoeing.

The American Indian canoe, which for centuries has plied only the streams and lakes of the North American continent has at last found its way to the classic "yellow Tiber." Canoeing has become a favorite river sport of the Romans. On Sunday a dozen or more of the frail Indian craft can be seen in the yellow waters gliding along the shores in company with skiffs, shells, sculls and motor boats. The graceful Indian water conveyance has become so popular that an Italian firm has commenced the manufacture of them. They took several American canoes as models and then began turning them out by the scores. A canoe club also has been organized, and many Americans have joined. Paddling to the perfection of the Indians has not yet been achieved. The Romans make vain efforts to keep the canoe headed straight but a change of paddles is necessary after every few strokes.

VACCINATION OF DOGS IS ORDERED BY COUNCIL

WILL PREVENT RABIES AMONG
DOGS AND RID CITY OF
STRAYS.

The city of Cameron, it is believed has solved the problem of rabies among dogs by the passage of an ordinance requiring the vaccination of the dogs once a year.

At its meeting Tuesday night the council voted for the enactment of this ordinance and will enforce it to the letter. Recently a number of people have been bitten by dogs.

The cost of vaccination will be about \$2.50 and will have to be done once each year but is a guarantee against rabies.

People who have dogs of value will be glad of this action and all stray and worthless dogs will be killed. The council is determined that there shall be no recurrence of rabies among dogs in Cameron and will take these precautions.

TUBERCULAR TESTS FOR DAIRY HERDS ORDERED

CITY COUNCIL WILL PROTECT
CHILDREN OF CAMERON
AGAINST DISEASE.

Tubercular tests among dairy cows contributing to the milk supply in Cameron will be tested on order from the city council.

The council at its meeting Tuesday night voted to instruct the city attorney to prepare an ordinance requiring the tests and the ordinance will be passed at the next regular meeting of the council which is the first Tuesday in October.

The expense of this test will be paid by the dairy owners and will run about 75c per year. Dr. G. E. Sutton, formerly with the A. & M. College and the Bureau of Animal Industry, will assist the city in making the tests.

The council at times in the past had considered the enactment of such legislation but for some reason the matter was never finally passed on. The city believes it is necessary to the health of the citizens, especially the children, that the dairy herds be free from tuberculosis.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching
Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Good's Mentho-Sulphur from any of our druggists and use it like cold cream.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00
JAMES F. BALLARD, Prop. St. Louis, MO.

TO THE CITIZENS OF ROAD DISTRICT NO. 2

On September 25th next there will be held in our Road District an election on the question of authorizing a bond issue of \$100,000.00 for road purposes. It is contemplated that the road from Ad Hall to Cameron and from Cameron to Minerva will be resurfaced and possibly parts of road changed but without affecting present roads materially, and that a new two way bridge will be built over Little River to replace the present McCown bridge, also that certain work is to be done on the Waco Crossing Road.

If the bond issue carries, the District has the assurance of an additional \$125,000.00 State and Federal aid on these projects.

On January 1, 1924, the State Highway Commission will take over certain State Highways and will thereafter maintain them without expense to the county. The road from Ad Hall to Cameron and from Cameron to Minerva will come under this class, and we feel that our District and County will be relieved of quite a considerable

expense for maintenance purpose, in the event the State Highway Department should take over these roads. As most of our citizens know a considerable amount of our available road money is spent by our Commissioner in maintaining this road, especially through Little River bottom for the maintenance of this road. If taken over by the State, then our Commissioner can devote the time and money he now spends upon this road upon other roads in our Commissioner's Precinct.

In connection with what is said above, we incorporate in this statement information given out by Good Roads Committee of our Commercial Club recently, which is as follows:

"Statement by Good Roads Committee as to the contemplated bond issue of \$100,000.00 to rebuild the road from Ad Hall to McCown bridge, new bridge to replace McCown bridge and reconstructing road from Little River to Minerva.

AMOUNT OF BONDS--TAX RATE

"No tax levy will be necessary until after the expiration of three years. The special road bond tax of forty cents which prevails at the present time will be sufficient for the first three years.

STATE AND FEDERAL AID

"The State and Federal Governments have allotted \$125,000.00 aid on the road from Ad Hall through Cameron to McCown bridge, \$75,000.00 of the contemplated bond issue and the \$125,000 allotted by the State and Federal Governments

At the expiration of three years it will be necessary to levy an additional twenty-five cent tax which will gradually become less each year on account of the bonds being serial, that is a certain amount will be paid each year.

will be spent on the road from Ad Hall to McCown Bridge. This total of \$200,000.00 will build 10 1-2 miles of road from Ad Hall to McCown Bridge and will construct a new two way bridge with concrete floor over Little River and replace the present bridge.

Road From Little River To Minerva and Waco Crossing Road

"The remaining \$25,000.00 of the \$100,000.00 bond issue will be divided as follows: \$5,000.00 will be granted the Waco Crossing road and \$20,000.00 will be spent on reconstructing the Minerva Road from Little River to Minerva. The coun-

ty officials feel quite sure that the State and Federal Governments will supplement the \$20,000.00 to be expended on the Minerva Road with an allotment of \$20,000.00, but application has not been filed with the Highway Department at this time.

Highways to Be Maintained at Expense of State and Federal Governments after January 1, 1924

"After January 1st, the State and Federal Governments will maintain the designated highways through Milam County. The road from Ad Hall to McCown bridge and from McCown bridge to Minerva are included in the roads to be maintained at the expense of the State and Federal Governments after January 1st, 1924.

The statement made by the Good Roads Committee is subject to the approval of the Commissioners' Court and is merely an outline of how the money is to be expended."

Our Road Precinct was one of the pioneers in our County in the Good Roads movements. We secured more mileage and better roads for the money expended than a great many road districts that were not so fortunately situated as we are with reference to gravel and other material. We think that our record in this respect is one to be proud of. By the aid of a supplemental issue of

\$25,000.00 voted three years ago, and also by aid of personal donations from our citizens, we were able to connect up our roads and make such extensions as we were under pledge to make, and all of this was done without raising our tax rate of 40 cents which is the lowest road bond tax rate in Milam county.

From the statement quoted above the voters will note that no very material increase in tax rates will be necessary. We feel that the slight increase in tax rate will be abundantly justified by the fact that we will have a State Highway of the first-class, and one which will be maintained without further cost to us.

We invite all of our citizens to make a very careful consideration of this matter, and we feel that the proposition is entitled to the support of our people.

Committee of Soft Coal Operators Formed To Put Bituminous Fuel Supply at Service of Nation in Emergencies of War or Peace

J. G. BRADLEY

H. N. TAYLOR

MICHAEL GALLAGHER

A committee has been formed at last in the industry of mining bituminous coal—a gathering of the best brains in the business to form a closer relationship between the operators and the public and to continue close and intelligent study of the problems which the industry must face and solve to insure a fuel supply for the American people.

Twenty-five of the leading soft coal operators of the United States have consented to serve as members of the Policy Committee of the National Coal Association, and to work for these ends.

Since the appointment of the United States Coal Commission there has existed what is known as the Bituminous Operators' Special Committee, formed to co-operate with the Commission in finding out the facts of the soft coal industry. The life of this committee expires with the life of the Coal Commission. Because of the intimate acquaintance with all details of the bituminous

industry the members of this temporary committee have gathered from their work, its membership was taken over into the newly formed Policy Committee.

Three men prominent in the work of this committee are shown above. J. G. Bradley, of Dundon, W. Va., at the left, one of the members of the Bituminous Operators' Special Committee and its first chairman, is also a former president of the National Coal Association. Mr. Bradley has recently returned from Europe, where he made a study of the situation in the coal mining industry, and is giving his colleagues the benefit of his observations.

Harry N. Taylor, president of the United States Distributing Corporation, of New York, formerly a member of the Bituminous Operators' Special Committee, is another of the new Policy Committee members. Michael Gallagher, of Cleveland, O., is prominent in the work of the Policy Committee, and has been a

member of the Bituminous Operators' Special Committee since its formation.

In selecting the twenty-five members of the Policy Committee, care was taken to see to it that there should be fair geographical representation of all sections where soft coal is produced.

The conception of the scope of this Committee's field of activity is so broad that, although it is a committee of the National Coal Association, in making up the membership the industry reached outside the Association in order that every bituminous mining district should be represented.

In the Policy Committee, the soft coal operators have formed a body competent to speak for the whole industry when emergencies of war or peace require the mobilization of the coal supplying business of the nation, and which is dedicated to keeping the industry in close and continuous contact with the public mind and the public interest.

closed car meant a chauffeur. It probably meant too about five thousand dollars, plus heavy weight, slow performance and mighty high operating costs. Those days have gone forever. There are mighty good enclosed cars for a quarter of that sum, as such a typical line of cars as Hudson-Essex hasn't one enclosed car in its listing at over two thousand dollars. The tendency is very plain. "Speaking of my own line of cars, which I know best, I expect Hudson and Essex to maintain fully their average of three enclosed cars to every open one and even to increase that ratio. I believe that the coach type of car—light, economical but durable and comfortable—will gain ground steadily. Its popularity is based on fundamental usefulness, and its merits will continue it on the road to greater success."

NOTICE IN PROBATE.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Milam County:—GREETING:
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION TO PROBATE WILL:
THE STATE OF TEXAS.
To all persons interested in the estate of Therese Gartner, deceased, Agnes Gartner has filed in the County Court of Milam County, an application of the probate of the last will and testament of Therese Gartner, deceased, and for letters testamentary, numbered 2042 on the docket of said Court which will be heard at the next term of said Court, commencing

And Sinking for the third time!

Perhaps you know that awful feeling—the something that seems to grip our vitals when we are penniless. Most of us have experienced it at one time or another.

That feeling in your own heart is the best advertisement on earth. But perhaps this reminder will bring home to you again the importance of systematic saving. There can be no real success or independence without saving. Do yours here!

Tuberculosis

By G. E. SUTTON, Veterinarian.

Tuberculosis causes more losses to the live stock industry than all combined diseases. It is found chiefly in cattle, hogs and chickens, but rarely found in sheep, goats or horses. According to Government reports about 10 per cent of hogs and about 5.5 per cent of cattle that are killed in Federal inspected packing plants are found to be infected with the disease. Hundred of thousands of dollars are lost annually through the packing industry born chiefly by the raiser of live stock, and they are compared small to the losses sustained by the dairy industries.

The south being more fortunate than the north as the disease is not nearly so common among the live stock of the south due to the long summers and short winter months.

It is found in Texas that about 25 per cent of dairy cattle and less than one per cent of range cattle are affected with the disease. A few cases where as high as 80 per cent have been found to be affected, but were due to unsanitary handling of animals in dairy herds.

Tuberculosis is caused by the tubercular bacilli and is easily seen by the high powered microscope. It is a very resistant and slow growing bacteria, but is readily grown on culture media for laboratory uses. The most common way of infections are through the lungs, digestive organ, and abrasions of the skin.

There is no given time for the period of incubation or time between the period of infection and the first symptoms of the disease as the disease is found with so many different forms that may not show any symptoms at all or not at least for considerable time.

The disease may be found in any part or organ in the body, usually confined to lymph glands, lungs, liver, mammary glands. One of the greatest interests is of the health stand point of the human kind, is the eradication of tuberculosis of the lower animals which has been demonstrated through the drinking of the milk and eating of flesh of animals affected with tuberculosis will cause the same disease in the human family.

Through the efforts of the U. S. Bureau of Animal Industry and State authority the disease is on a decrease.

The methods of eradication are usually done by local authorities assisted by State and Government officials.

There is at present two reliable tests for the disease, and when one is found to be affected the premises are thoroughly cleaned and disinfected after the diseased animal has been removed, and the test repeated every six months or at least every year.

In hogs and beef cattle the only practical method from the health stand point is a post mortem examination of the carcasses of all animals used for food.

\$44,000,000 CASH IS RAISED BY BAPTISTS

FUND MAKES POSSIBLE LARGE ADVANCE IN MISSIONS, EDUCATION AND BENEVOLENCES

IMPROVE CHURCH FINANCES

Dr. O. E. Bryan Will Direct South-wide Effort to Put All Local Churches on a Budget Basis

Up to May 1, 1923, the Baptist churches of the South had paid in cash the sum of \$44,000,000.00 on the 75 Million Campaign, the five-year program for extending the general missionary, educational and benevolent work of the denomination. It is announced by the general board of the denomination that the sum of \$44,000,000.00 was received from the various states of the Southern Baptist Convention as follows: Alabama, \$1,890,687.55; Arkansas, \$1,322,599.65;

DR. O. E. BRYAN
Budget and Stewardship Director
for Southern Baptists

District of Columbia, \$202,583.15; Florida, \$732,213.96; Georgia, \$4,018,008.93; Illinois, \$329,087.87; Kentucky, \$4,937,270.93; Louisiana, \$1,144,398.79; Maryland, \$556,589.26; Mississippi, \$2,329,293.67; Missouri, \$1,822,353.66; New Mexico, \$217,828.33; North Carolina, \$3,630,998.83; Oklahoma, \$1,113,781.19; South Carolina, \$3,516,653.19; Tennessee, \$2,953,050.09; Texas, \$6,468,098.42; Virginia, \$4,923,226.22. Specials: Louisiana, \$110,035.13; New Mexico, \$419,739.18; Oklahoma, \$59,000.00; Illinois, \$191,175.11; Home Board Specials, \$15,340.00; Foreign Board Specials, \$36,103.00; raised by local churches on foreign fields and expended by them there, \$1,093,390.68.

Large Results Achieved
These larger resources have made possible large advances in every department of work fostered by Southern Baptists. Indicating the growth in the homeland during the campaign period, it is announced that there has been a gain of 57 district associations, 881 active ministers, 3,068 local churches, 3,287 Sunday schools with 459,223 pupils, 8,688 Baptist Young People's Unions with 233,917 members, and 7,094 Woman's Missionary Union organizations. During this time there have been 762,880 persons baptized into the local Baptist churches, \$45,405,118 has been invested in local church property, and the increase in offerings to missions and benevolences has been more than \$28,000,000 over the corresponding period preceding the Campaign.

Among the many gains on foreign mission fields are included 34,344 baptisms, 386 churches, 1,800 mission stations, 39 houses of worship, 53,656 members, 687 Sunday schools with 21,292 pupils, the sending out of 275 new American missionaries, the appointment of 2,029 native workers, entry into six new foreign countries and the larger equipment for all forms of work on sixteen fields.

Workers of the Home Mission Board have baptized 173,602 persons during the Campaign period, have received 277,968 persons into the membership of the churches, enlisted 11,772 young persons in definite forms of Christian service, built or improved 1,872 church houses, organized 935 churches and 2,898 Sunday schools.

Stabilize Church Finances
To reach the original goal it will be necessary for Southern Baptists to raise \$31,000,000 additional for the Campaign program by the end of that movement in 1924. In the hope of bringing the churches of the denomination to a better system of finances and the church members to a fuller realization of their obligation to support religious work, the Campaign Commission has employed Dr. O. E. Bryan of Atlanta, superintendent of evangelism and enlistment of the Home Mission Board, as stewardship and church budget director.

Dr. Bryan has assumed his new duties and working through the various state offices and the offices of the district associations he is seeking to bring the Baptist churches of the South to the adoption of a yearly budget for their local work and the general missionary and benevolent interests of the denomination, the aim being to enlist every member of every church in weekly and monthly contributions to religious causes.

MAN SHOOTS AND KILLS FIRST COUSIN.

The sensibilities of the people of Thorndale and this community when shocked as probably never before on last Sunday afternoon when the word was passed as if by magic from one to another that Robert Caffey had been shot to death by former constable Ed. Beard, at the home of Mr. and Mrs. J. W. Hyde, relatives, in this city. The brevity of the information together with the power of human imagination, which could not be restrained under the circumstances, seemed to blight everything it touched. Clear thinking was for the time being suspended. It was impossible for the human mind to penetrate the mystery surrounding the tragedy, as most men are wont to do, and because of this impossibility the shadow of the dark valley of death hovered very closely over our town and bore heavily upon the spirits of the people of this entire community.

All that is commonly known concerning the cause of the tragedy is that Robert Caffey, who is a student in the Baptist Seminary at Fort Worth, returned to Thorndale early Sunday morning after an absence since October of last year, and had gone to the home of Mr. and Mrs. J. W. Hyde, his relatives, in this city. He attended church at the Baptist church Sunday morning and made a talk, reviewing his efforts to educate himself and pay his way through school with his own labor before and after school hours. He made a clear-cut, straight-forward statement concerning his limited funds, mentioning the fact that it was at times the case that he wanted to write to relatives here and did not have the one cent—the lowly penny—with which to buy the stamp or the postcard. He spoke as a man seldom speaks—mindful of his burden and handicapped condition financially and thankful for the privilege of dedicating his life and all it might mean to him in any event to the service of God and working out his destinies even in this humble way. He seemed to say: "I can not say beneath the pressure of life's cares today I joy in these; but I can say that I would rather walk this rugged way if Him it please." Robert—was Robert to all who knew him—sang a song "Close to Thee," and we do not believe it was possible for a human to put more spiritual feeling into a song than he put in this effort Sunday morning. He possessed a wonderful voice and sang with feeling—conscious of what he was saying.

Following the service he was seen engaged in conversation with Ed. Beard, latter proceeded to the home of Mr. and Mrs. J. W. Hyde where he he "lunched with the family."

He later took a nap, and while sleeping Mr. Beard is said to have arrived at the Hyde home and asked to see Robert. He entered the room and engaged Robert in conversation. A few minutes later seven shots entered the body of Robert Caffey and death ensued Mrs. J. W. Hyde was said to have been in the room at the

time of the shooting, but the details of the affair are best omitted lest we be misinformed and report it incorrectly.

The funeral service was held at the Salty church conducted by Rev. J. R. Ward, pastor of the Baptist church of Thorndale, who spoke fittingly, and considerably of the life, of deceased and the promise of a life hereafter. The service was largely attended.

Sheriff Rogers came over from Cameron Sunday afternoon and took Mr. Beard to Cameron where on Tuesday the examining trial was had and he was allowed bond in the sum of \$10,000 which he gave.—Thorndale Champion.

RAIL RATES REDUCED FOR STATE EXPOSITION.

Residents of Cameron will be able to go to Austin for the Texas State Exposition, October 1 to 6, for a fare of only \$4.10 for the round trip, according to arrangements made by officials of the fair with Santa Fe railway officials.

These are the lowest rates that have been granted to the capital city in more than ten years, and these rates are on a par with those granted for the State Fair at Dallas. Sale of tickets for the Exposition at Austin will start on September 30, and last through to October 6, and tickets

will be good for return until October 8.

The Exposition at Austin will be one of the big fairs of the state this year. Five days of horse racing will add interest to the fair. An unusually interesting livestock department with more than 500 head of stock, has been assured and a separate tract of land, two blocks from the main Exposition grounds, has been secured for the livestock.

The fair will be an enlargement over the fair last year, and a decided improvement over any fair ever held in Austin. The homelands exhibits, the big Mexican national exhibit, the West Texas exhibit, the kennel department, the labor saving devices, and numerous other interesting and unique exhibits will go to make up a big fair for Central Texas.

Ample amusement and entertainment will be provided in the way of carnival attractions, rides, shows, etc., for every afternoon and night of the fair, and two hours of free entertainment during the same periods has been arranged.

STOP THAT ITCHING.

Use Blue Star Remedy for Eczema, Itch, Tetter or Cracked Hands, Ring Worms, Chapped Face, Poison Oak, Sunburns, Old Sores or Sores on Children. It relieves all forms of Sore Feet. For sale by all Druggists.

More Grip on the Road! Buick Four-wheel Brakes

Buick four-wheel brakes give all 1924 Buick cars twice the amount of grip on the road, thereby doubling their braking efficiency. It is the friction or grip of the tire on the road surface that brakes or slows down the car.

Buick four-wheel brakes not only provide a greater power to stop in case of emergency but, because of this four-wheel road grip, reduce skidding dangers to a minimum.

In turning, Buick four-wheel brake construction automatically releases whichever is the outside or guiding front wheel so it is instantly responsive to the steering mechanism.

Buick four-wheel brake construction distributes braking friction over four drums and four wheels. This reduces wear on brake linings and tires, thereby assuring their longer life and greater efficiency with fewer adjustments.

Buick four-wheel brakes [on all models] together with countless other distinctive features of the 1924 cars further establish Buick as the Standard of Comparison.

"When Better Cars are Built Buick will Build Them."

DRILLING ACTIVITIES ARE RENEWED AT MINERVA

CLIFTON BROTHERS STRIKE OIL AND GAS ON SHELANDER FARM.

Cameron, Texas, Sept. 16.—Since the bringing in of the second well on the Arch Watson farm several months ago, which meant a very considerable extension of the Minerva field, there has been quite a renewal of drilling activity. Wallace, Jones & Leach, on this farm, have recently completed the No. 3 well for a producer of at least fifteen barrels a day.

Dr. T. A. Rountree of Rockdale, on his own farm, between the Watson farm and the Niehaus farms, has finished rigging up and is about to begin drilling a No. 1 test.

The Texas Petroleum Development Company has completed its No. 3 for a fifteen barrel production on its Niehaus 100 acre lease.

Bryum & Ferguson are getting ready to drill No. 3 on their Niehaus lease, having already drilled two good producers on the same lease within the last several months.

Clifton Bros., on the Shelanders farm struck gas and oil at 1220 feet, but no estimate can be made of the probable outcome of their efforts at this time. Should it develop into a producing well in commercial quantities, it will greatly enlarge the producing area of the Minerva field.

Fritz Fuchs is drilling No. 3 on his W. P. Henry lease. No. 7, recently completed, is making about eight barrels a day.

Kemp—Underwood have completed their No. 1, on their Robert Isaacs lease for a six-barrel producer.

The Texas Petroleum Development Company is cleaning out the 1,300 foot hole drilled by them last spring on the R. L. Rattie farm, on the west side of the river in the Tracy field, over which it recently built a ninety six foot derrick and installed a heavy rotary rig, preparatory to the deepening of the same to a depth of at least 3,500 feet if oil is not found at a lesser depth. John A. Lee, field manager, who has had a great deal of experience in the oil business, was so favorably inclined to the belief that the prospects for oil were promising in this immediate territory that, after having drilled several shallow wells on this farm with meager results and moving off, has contracted with the Baggett Drilling Co., to drill the test.

THE THORNDALE PUBLIC SCHOOL OPENED MONDAY.

The Thorndale public school opened last Monday morning with a program of speeches, readings and short talks. About two hundred and fifteen or twenty-five pupils were enrolled and everything indicated the beginning of a very interesting school year.

Superintendent L. I. Samuel began the program with announcements and preliminary remarks which was followed by Rev. J. R. Ward with a few words defining an education and what the school life should mean and result in as applied to the life of the boy or girl in our public schools. His remarks were altogether fitting and well received. The invocation was pronounced by Rev. Sheffield of the St. John Lutheran church at Detmold.

The new teachers were introduced and the old ones—those who taught here last year and the year before, etc., were heartily welcomed.

Mr. Chas. Saller, president of the school board, spoke concerning the board's efforts to provide every essential physical equipment possible and outlined the board's ambitions for the ensuing scholastic year. Mr. Saller was followed by Mr. Dikes, the best school janitor in Texas, who made a good talk and his remarks seemed to cement our several ideas into one great family atmosphere of good natured friends interested in each others welfare, and it possible, the other fellow's interest first.

Mr. Davis, the principal and athletic director, outlined his plans and solicited the co-operation of pupils

and parents in all efforts to maintain a creditable organization.

Superintendent Samuel closed the exercise with a talk explaining what affiliation means to our school and how we may expect to get the State Board of Education to recognize the work done at Thorndale as standard work of high school of the first class. Mr. Samuel indicated that it was very probable that the efforts of those who are striving to have our school affiliated with the University of Texas, to realize their hope this year.

In addition to the subjects taught last year sewing will be taught as a part of the optional subjects this year. Altogether the promise of a good school at Thorndale henceforth is very positive and encouraging.

COUNTY MEET TO ROCKDALE BY UNANIMOUS CONSENT.

The Interscholastic County Meet to be held next spring was voted to Rockdale by the teachers of Milam county in session at Belton last week unanimously. Indeed, so unanimous was the sentiment in favor of bringing it here that no other towns were nominated. Year before last Rockdale gave the meet such a glad reception and such good entertainment that all were glad of an opportunity to come back again.

The teachers lavished further honors upon Rockdale by naming Supt. C. G. Green, of the Rockdale Public School, as Director General, and Principal Coach H. B. Hughes, of this city, as Director of Athletics. Other officers were elected but the Reporter has not been supplied with a complete list.

It is planned to make the Meet a two-day affair, and with good weather conditions Rockdale is due to have one of the biggest crowds ever seen here. Practically every school in the county will be represented.

While no plans have been made for entertainment it is fair to suppose that premiums will be offered, as was the case in Rockdale two years ago, in all events, both literary and athletic. Free over-night entertainment for contestants living at a distance will no doubt be a feature. The Reporter desires to assure the teachers that Rockdale appreciates the honor of having the Meet brought here and will try to show that appreciation.—Rockdale Reporter.

STUDENTS OF ROCKDALE OFF TO UNIVERSITIES.

Rockdale, Texas, Sept. 16.—Seven-teen of Rockdale's young men and women have either departed or soon will leave for State colleges and universities. These are: To State University—Lucy Rountree, Grace Stribling, Pearl Fletcher. To C. I. A. Denton—Miss Clara Esten Cooke, Miss Lucille Gunn. To Baylor—Miss Annie Maie Previtt. To San Marcos Normal—Horace Lightfoot. To State University—Sam Raymond, Ralph Stribling, Jim and Charlie Phillips, senior class; Preston Perry, Jr., sophomore class; William Cooke, Henry Meyer and Connor Thomas, freshmen.

SHERIFF'S SALE.

THE STATE OF TEXAS

County of Milam.

By virtue of a certain alias execution issued out of the Honorable Justice Court of Precinct No. 1, Milam county, Texas, on the 14th day of August 1923, by J. M. Ralston, Justice of the Peace of Precinct No. 1, Milam county, Texas, against B. J. Hearne for the sum of One Hundred one and 91-100 (\$101.91) Dollars and costs of suit, in cause no. 1903 in said Court, styled Milam County Hardware Company, a corporation, vs. B. J. Hearne and placed in my hands for service, I D. S. Rogers as sheriff of Milam county, Texas, did on the 14th day of August 1923, levy on certain Real Estate, situated in Milam county, Texas, described as follows, to-wit:

118 acres of land out of the Jeanette Bowen survey which survey was patented to her by patent dated Dec. 18th, 1850 and recorded in Vol. 13 page 413 deed records of Milam county, Texas. Said 118 acres of land being situated about 20 miles East of the town of Cameron and being described in two tracts as follows:

1st Tract—40 acres of land being lot number 9 and bounded as follows: Beginning at a stake in the S. B. line of the W. M. Wilcox 1320 acre tract from which a P. O. brs. S. 34 W. 6 vrs. and being 1658 vrs. form the S. E. corner of said Wilcox tract; Thence S. 30 W. 545 vrs. to a stake from which a double P. O. brs. S. 30 E. 1 v. thence S. 60 W. 414 1-2 vrs. to a stake from which a P. O. brs. S. 3 W. 3 vrs. another S. 88 E. 3 vrs; thence S. 30 E. 545 vrs. to B. J. for corner; Thence N. 60 E. 414 1-2 vrs. to the place of beginning, being the same described in deed recorded in volume 130 page 521 of the deed records of Milam county, Texas;

2nd Tract—78 acres of land described as follows: Beginning at the N. E. cor. of the 174 acre tract conveyed by Daniel K. Davis to L. N. Tidwell by deed dated Jan. 6th, 1908, and recorded in volume 76 page 528 deed records of Milam county, Texas, said beginning corner being on the N. W. B. line of the original survey; thence S. 60 W. 450 vrs. to N. E. cor. of the N. E. 96 acre tract deeded by L. N. Tidwell to Mrs. Mollie Erwin; thence S. 30 E. 1090 vrs. to the S. E. cor. of said 96 acre tract for the S. W. cor. of this tract; thence S. 60 174 acre tract for the S. E. cor. of this E. 243 1-2 vrs. to the S. E. cor. of said tract and being the S. W. cor. of the above described 40 acre tract; thence

N. 30 W. 545 vrs. to N. W. cor. of the above described 40 acre tract; thence N. 60 E. with the N. B. line of said 40 acre tract 124 1-2 vrs; thence N. 30 W. 575 vrs. to the place of beginning, being the same land conveyed by J. E. Harwood and wife to B. J. Hearne by deed dated Jan 4th 1916, and recorded in vol. 120 page 526 deed records of Milam county, Texas, and levied upon as the property of said B. J. Hearne, and that on the first Tuesday in October 1923, same being the 2nd day of October, 1923, at the Court house door of Milam county, in the City of Cameron, Texas, between the hours of ten a. m. and four p. m. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said B. J. Hearne by virtue of said levy and said writ of execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Cameron Herald a newspaper published in Milam county.

Witness my hand, this 5th day of September 1923.

D. S. ROGERS, Sheriff.
Milam County, Texas.

Watch Us Grow

Watch Us Grow

Announcement

Don't fail to read this advertisement: For it means money to you. First of all we want to sincerely and earnestly thank each and every person in Milam county for the many acts of kindness, encouragement and business you have either given us, or, by and through you we have received. Above all else, we love to have friends, and it was our determined policy to come to Milam county and make of one and all that which no man's money can buy, namely: FRIENDS—This course we will pursue no matter what comes or goes we will not intentionally make an enemy out of you, not for all the money in Milam county.

Did you know we have come to Milam county, and to Cameron, Texas, to stay? Did you know we have come here to live with you, to be one of you, to help all we can to build up our town and county; to be honest and truthful too, and with all, to defraud or mislead no one? Did you know that we are open for business of Compiling Abstracts to land in Milam county? Did you know that you can find us at our office in the basement of the County Clerks Office from 7 a. m. to 6 p. m. each work day? Did you know that if you will come down to see us, you will receive a warm welcome, whether you want business or not? Did you know that when you get a "Laurence Abstract" you are the owner of what THE RECORD OF YOUR COUNTY SAYS, NOT WHAT WE SAY? Don't you know that a "Laurence Abstract" is one that has EVERY MATERIAL part of the instrument copied "verbatim"? Don't you land owners know that it is by far more important to know that the land upon which you live or claim, is yours, than to know whether it will produce peas of cotton? Don't you know that 75 per cent of the land titles in this, as well as other counties are full of hidden defects, and don't you know that the only way to find those hidden defects is to get an Abstract, as is shown in "a Laurence Abstract"? Don't you know that a Laurence Abstract is one that is prepared by those, that not only know every phrase of Abstracting, but stand behind all work?

Don't you know that we can save you money? If you don't, then give us an opportunity to prove it to you. Don't you know that every Abstract that we make, every means is employed to make it represent what the record says, and to make it so that not only your attorney can intelligently pass upon the title, but you as well can easily understand it? Don't you know that we make but one kind of Abstract for all people, no matter how high you may be, or how low you may be, one and only one, they are Abstracts that we are not afraid to stand behind, they are prepared by Experts in Abstracting, they are dependable? If they are not, then they cost you nothing.

Don't you know that a tract of land, without an Abstract is like unto a cow without a brand; ANY ONE CAN CLAIM IT.

We want your business and will prove to you in more than one way that, if you will give it to us, we will appreciate it. WATCH US GROW.

WORLD'S GREATEST BANKING SYSTEM

By CRAIG B. HAZLEWOOD
President Association of Reserve City Bankers

Conceived in the spirit of common good, for the best interests of government, banks and public alike, based on broad and correct principles relating to the nation's currency and credit, the Federal Reserve System represents the greatest piece of economic legislation enacted by an American Congress. The System's record of achievement through a world war, an inflation period of dizzy heights, and months of serious and costly liquidation. It is a matter of greatest importance that very earnest and patriotic thought be given to the two questions: How far has the system succeeded, and in what particulars has it failed, to give our country as strong and as useful a financial system as human mind can devise?

C. B. Hazlewood

The hope and expectation of those who framed the Federal Reserve Act that the machinery set-up for the origination, distribution and automatic retirement of currency issue, which should be entirely responsive to the needs of trade and the varying conditions of business, have been wonderfully well realized. Every possible effort must be exerted to preserve the Federal Reserve System from political alliance and to keep its powerful influence entirely devoted to the building up of the greatest banking system in the world.

The first bank of the United States was established in 1791 and failed to obtain a renewal of its charter in 1811. The opponents charging that the bank was a "money trust" controlled by foreigners, a tool in the hands of the Federalists, and that the act chartering the bank was unconstitutional. Note the use of the words "money trust." We have the idea that this is a modern term. The suspicions which animate the demagogue today have not changed in a century.

The second bank of the United States was chartered in 1816 and failed to obtain a renewal of its charter in 1831, the reasons being a widespread belief that the bank was unconstitutional, the hostility of the states, the opposition of the state banks, the rise of democracy, and the envy and hatred which the poor always feel toward the rich.

Both banks functioned well and accomplished much for the country during crucial times. The downfall of both was caused simply and solely by attempts to place the determination of banking policies in the hands of political authorities.

The delicate handling of currency and credit, to the high end that the best interests of all may be served with special privilege to none, cannot be left to others than those who are competent through proven judgment and experience. The danger of politics in the Federal Reserve System is a real one; upon us is placed the grave responsibility of forever keeping the great system clean.

MAKING CAPITALISTS OUT OF WORKMEN

Festus J. Wade Says Anarchy Disappears With the Development of Thrift.

When the savings pass-book comes into a man's life to stay the red flag goes out. What the country needs is to bring about a condition whereby the man who works with his hands shall take the same interest in his affairs as the capitalist does in his. Probably the best way to do this would be to turn the workman into a capitalist. And this is exactly what he becomes when he saves his money and builds up a reserve fund. He remains a capitalist as long as he holds on to that money. The satisfaction of seeing his money reserve mount up will discourage the waster to take a layoff now and then. It will encourage him to work a full six-day week and thereby increase the labor hours applied to production.

The American people can solve any problem they set themselves to. We provided for a sound currency when the greenbackers and inflationists were routed and the gold basis established. The Federal Reserve Bank was established and solved a problem for which most people thought there was no solution. A number of years ago, when there was a crisis or when a bank failed, we all used to shut up our vaults tight and let nothing get out. Instead of bettering conditions we made them worse. Now if failures occur few people, except those directly interested, are disturbed.

Perhaps the most important problem of all right now is to do away with labor waste. It never can be done by preaching, by agitation or by force. It can be done by selling the workman on the idea of becoming a capitalist. This can be brought about by the right kind of bank advertising. Who is there to say that an advertising dollar bringing about this result would not be a constructive dollar?—Festus J. Wade.

CIVIL SERVICE REFORM LEAGUE PLAN WOULD ABOLISH SLEMPISM.

The visit of committee of the National Civil Service Reform League, headed by W. Dudley Foulke, president of the organization, to President Coolidge, the day after C. Bascom Slemp assumed his duties as Secretary to the President, and the recommendations made by the committee concerning the appointment of postmasters and rural carriers is the best evidence so far offered that the exposure of Mr. Slemp's activities and that of his secretary, Howard, in connection with the trafficking in offices while Mr. Slemp was a Congressman, is not to be ignored by the Civil Service Reform League.

Recommendations were made by the Committee to substitute the merit system of appointments for the Slemp-Howard Pay-As-You-Enter plan. Under an executive order of President Wilson the first man on the eligible list was appointed. This order was superseded by an order of President Harding directing that the appointments should be made from the first three on the eligible list. In this way, it was figured, that at least one of the three would be a Republican, and when this has happened the Republican has generally been appointed. It has sometimes happened when all of the eligibles were Democrats that a new examination was

held to get a Republican on the eligible list.

The committee of the Civil Service Reform League recommended that the policy of appointing the first man on the list should be restored. What action President Coolidge will take upon this recommendation remains, at this writing, to be seen. President Coolidge is on record as saying: "When you substitute patronage for patriotism administration breaks down," but as the Louisville Courier-Journal editorially remarks, "that was before he fell in with Slemp."

BOOST IN COTTON ADDS \$75,000,000 TO CROP'S VALUE.

New York, Sept. 17.—In one of the most active and excited markets of the year, cotton prices were lifted from 150 to 152 points today, equivalent to about \$7.80 per bale. On the last government estimate of the crop, this represents an addition of approximately \$75,000,000 to the wealth of the south. The advance followed reports of heavy rains in Texas and Oklahoma, where cotton is open in the fields, threatening both grade and movement, and reviving fears that crop estimates already previously low may have to be still further reduced.

A feature of the day was the export shipment of fully 177,000 bales

from two Texas ports to Europe, or one of the heaviest single day's exports on record. On the basis of today's prices this shipment represents a value of over \$2,000,000.

FIRE NARROWLY EVERTED IN ROCKDALE REFINERY.

Rockdale, Milam County, Texas, Sept. 17.—Only the instant presence of mind of the men around the plant saved the refinery of the Austin Pe-

troleum Company, near Rockdale, from heavy damage, if not destruction, when a hole was burned in the bottom of the still and fuel oil afire began gushing out. In a few moments the heavily charged storage tanks of gasoline and kerosene would have ignited, but Frank Taylor and his helpers began shoveling in sand to the fire box, smothering the burning oil. The refinery will be in operation again in a few days.

Children in Soft Coal Fields Given All Educational Advantages of City While Enjoying Benefits of Country Town Life

Where would you rather have your child grow up—in a crowded city, stifling in summer, wet and cold in winter, with no place to play but on the streets, or would you rather have them virtually in the country, but with all the advantages of the city?

Take the condition of the child of the soft coal miner. The so-called "mining camps" have to be built where the coal lies in the ground, and the communities which have grown up are, for the most part, removed from cities or towns of any considerable size.

Coal operators have realized that much more than the bare necessities of life must be provided to make the miner and his family contented and happy. Opportunities must be afforded for amusement and recreation. The happiness and health of the people of the mining communities must be safeguarded.

The children of the miners' families are, of course, a first concern with the companies as well as the

parents. After modern houses at low rents and with modern improvements are built by the companies, the first concern is for proper schooling and playground facilities for the younger generation.

This idea has taken hold so firmly in most of the soft coal mining communities that it has become a common saying now that it is almost impossible to throw a stone in any direction without hitting a school-house.

Not only the primary schools, but high schools aplenty are found. The lower picture shows a group of miners' children at a primary school in a soft coal mining community at Jerome, Pa. It is a common thing for coal companies to augment considerably teachers' salaries allowed by county or state authorities. This has been a source of objections from city school officials, who have complained that many of their best teachers have been taken away from them to much smaller mining towns. The physical development of the

miners' child gets just as much attention as his mental development. A section of a typical playground for the younger children in a mining town is shown in the other picture above. The photograph was taken at Acosta, Pa., and is fairly representative of hundreds of other communities of the same character. Modern, standard playground equipment is insisted upon as a rule by the mining companies.

This isn't charity on the part of the operators. They know it is good business sense to have their workers and their families contented and happy. There is no direct return in money on the balance sheet of the companies apparent, but there are big returns in a general way from this outlay by the mining companies. That is why thousands of dollars have been invested in recreation halls, moving picture theatres, gymnasiums and the like in the mining communities. The expenditure at first of course, is a heavy one, but it is a business judgment.

tention to the fact that at a recent meeting of the school board it was disclosed that the present public school building is inadequate to respond to existing needs and that more room would have to be provided. The old music room could be used as a temporary expedient transferring to it 35 pupils but this leaves the main building in a crowded condition. By next year another building would have to be constructed. Another teacher will have to be provided and these matters should be considered by the public. The mayor argued in favor of providing for the school first, letting other matters of public improvement rest for a time.

NO FOOTBALL GAME WITH CAMERON THIS SEASON.

Football fans, not only in Rockdale and Cameron, but all over Milam county, will learn with regret that there will be no matched game between the fast high school teams of

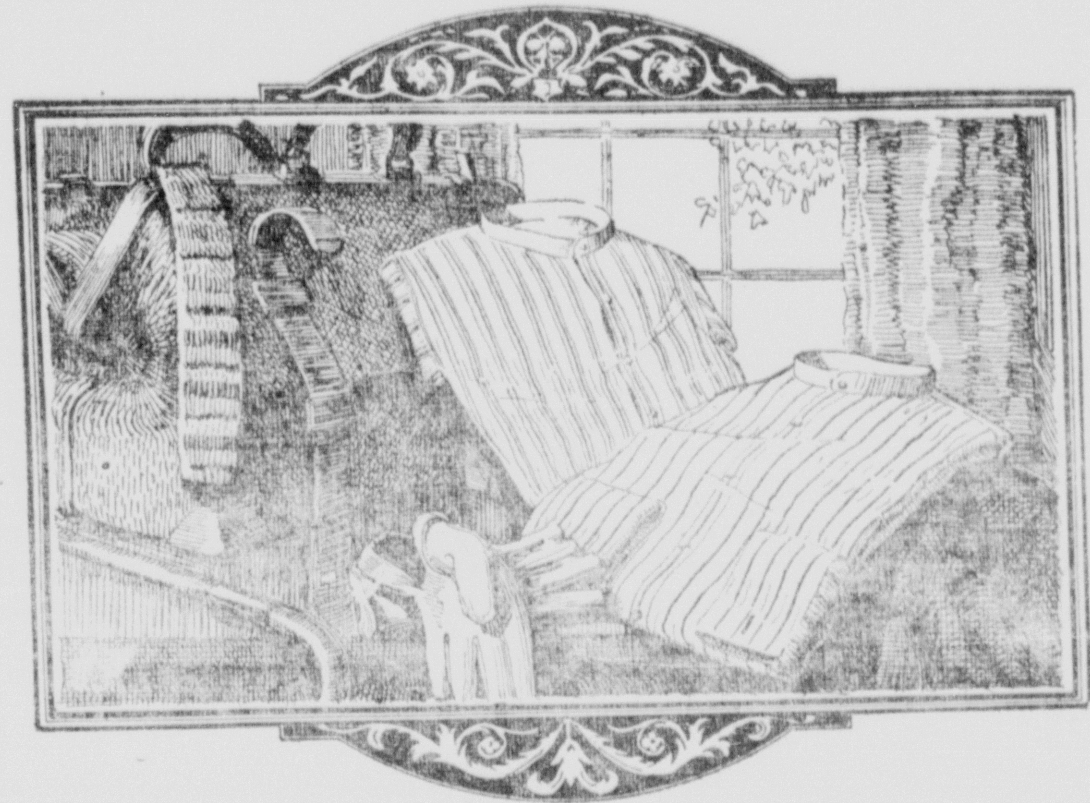

Rockdale and Cameron this season. The Rockdale-Cameron game has been played on Armistice day for the past several years, and is looked forward to as the football classic of the season. Hundreds of foot ball fans gather from all points of the county to witness the annual battle, and these will all be disappointed to know that the Cameron Coach has refused to match a game for the season except on terms so arbitrary as to be unreasonable and out of the question.

It has been a custom of the two teams to play the Armistice Day game on a fifty-fifty basis. The gate receipts for the past two years have been around, \$250, and each team takes down half of that amount for its athletic fund. The games alternate between the two towns. The season this year is due to be played in Cameron, and Coach Hughes and his Rockdale "Tigers" are "tired" to go. However Coach Perkins informs Coach Hughes that

he will play the game only on terms of the Cameron team taking ALL THE GATE RECEIPTS, allowing the Rockdale team the ridiculously small sum of \$40. And Coach Hughes has refused to accept such terms. Coach Perkins stands pat. At this writing it looks as if there will be no Rockdale-Cameron game.

Coach Hughes has made Cameron a counter proposition of playing the game in Rockdale, either on a fifty-fifty basis, or will guarantee Cameron \$150. Or he offers to go to Cameron on the usual terms of fifty-fifty. But Coach Perkins still stands pat. The foot ball fans of the county will be pretty apt to draw the conclusion that Coach Perkins and his foot ball warriors are afraid to play the Rockdale "Tigers" and are using this plan of sidestepping the game. —Rockdale Reporter.

J. D. DOBBINS The Man Who Saves You Money

PIONEER CITIZEN AND PUBLIC BENEFACITOR GREATLY MOURNED BY OUR CITIZENS

When the announcement of the death of Captain J. C. Elliott was passed by word from one to another last Wednesday afternoon the spirit of our people was greatly depressed, as if by some strange transition we were ushered into the very mouth of the valley of the shadow of death, and our hearts were sorely tried. The justness of it all was not questioned but the why and wherefore of the laws of nature were too deep for human understanding, and we mourned because we were human.

The deceased had been in feeble health for several years, had been living on borrowed time the last few years, since he had exceeded the three score and ten years allotted to us here by fifteen years. Or at least he would have been 85 years of age on January 19, 1924.

Captain Elliott suffered an unusually severe attack of diarrhea on Sunday previous to his death last Wednesday, but responded to medical aid and was thought to be regaining his strength on Monday, and on Tuesday a turn for the worse came without warning and he continued to grow weaker until Wednesday afternoon when he died about three o'clock. His many friends were not prepared to receive the announcement of his death and received it with great depression of spirit.

The funeral service was held at the Methodist church Thursday afternoon the attendance being possibly the largest ever witnessed in Thorndale considering the heavy rain and electrical storm which continued all through the afternoon, only checking for short periods of times at intervals and never entirely ceasing to sprinkle. But even so, the church was filled to capacity and all who could possibly reach the church were there to pay their last respects to this noble and godly man whom we all loved so much.

The service was conducted by Rev. M. I. Brown, pastor of the Methodist church assisted by Rev. D. S. Burks, of Chapel Hill and Rev. P. R. White, of Alvin, Texas, both being former pastors of the Methodist church here and close personal friends of the deceased. The scripture lesson abounded with consolation and hope for a new life where there is no sorrow and pain for all who live the life this noble much loved Christian man had lived. The scripture says: "They that wait upon the Lord shall mount up with wings as angels." The remains accompanied by a concourse of sorrowing friends were conveyed to the City Cemetery and laid to rest.

Honorary pall bearers were: Messrs. J. B. Ralston, C. M. Summerlin, Clabe Garner, C. Aum. Moerbe, T. M. Williams, Z. T. Gore, C. A. Davis, Sam Clement, J. B. Willis.

Active pall bearers: Messrs. L. D. Barnes, D. R. Maddox, Jones Clement, M. M. Camp, D. W. Cowen, Surrey Boles.

Col. J. C. Elliott was born in Marshall county, Tenn., January 19, 1839. He came to Texas, locating in Cherokee county in 1848, moving to Caldwell county in 1849 and thence to Bell county in 1850. He enlisted in the Ranger service in February, 1861 under Capt. Halley, Henry E. McCulloch's Regiment, with headquarters then at Fort Shadburn in Coke county. After a few months service as a ranger he was mustered out and enlisted in what was known as the First Texas Mounted Riflemen, under Capt. Davison with Henry E. McCulloch as colonel. After about a years service six of these companies were mustered out and four remaining companies formed a battalion which was afterwards organized into a regiment known as the First Texas Cavalry which name it bore until the close of the war.

The first battle in which Mr. Elliott engaged was on the head waters of the Nueces river, then followed the battle on Matagorda Peninsula.

Mansfield and Pleasant Hill. After the surrender he returned to his home having been in the service about four years and four months.

On June 17, 1868, he was married to Miss Sarah Elizabeth Mills, near Holland, Texas. They moved to their farm in the Conoley community, six miles south of Thorndale, where they made their home until 1889, at which time they moved to their home here at Thorndale where he engaged in the lumber business and other business enterprises of the town, which at that time was but little more than a vast open prairie, where only two straws, the one owned by Mr. J. K. Quinn, the one owned by H. Kell, Texas and the one owned by C. A. Polnick, marked the site of the present Thorndale.

The deceased and Mr. Geo. Gresham and Mr. J. K. Quinn were the first school trustee in Thorndale. Capt. Carter and the deceased established the first newspaper published in Thorndale, known as the "Thorndale Trumpet." Mr. Elliott also established the Elliott Hotel along about this time and the building still remains as a monument to an earlier day and the hospitality of its founder now gone where a greater hospitality is his to claim without stint or restriction. Some one has said: "The greatest death that man can die is when he dies for man." And, the Champion believes that the greatest life that man can live is when he lives for man—as did this noble father. He joined the church when a boy and was always a great worker in God's cause, being a charter member of the Methodist church this place, helping to organize the church in 1899.

Three children survive him—Mr. J. J. Elliott, Mrs. F. C. Frenzel and Mr. W. B. Elliott, all of this city; besides two brothers, R. M. Elliott of Dallas, Texas, and W. B. Elliott of Los Angeles, Calif. His wife Mrs. Sarah E. Elliott, departed this life on August 22, 1921.

Due to the rainstorm referred to above and confusion incident thereto,

many did not attend the funeral who would have liked to have done so, but the floral offerings were a positive expression of love and esteem in which he was held by the people of this community. The Champion joins the many friends of the family in offering condolence to the bereaved—Thorndale Champion.

CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

ROBS CALOMEL OF NAUSEA AND DANGER

MEDICINAL VIRTUES RETAINED
AND IMPROVED—DANGER
OUS AND SICKENING
QUALITIES REMOVED
PERFECTED TAB-
LET CALLED
"CALOTABS"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often

neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original sealed packages, pure 35 cents for the large family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. (H)-tf

Clear vision comes from clear thinking and clear thinking can come only from accurate knowledge and dependable information. Vague and inaccurate information is worse than none at all. Clear thinking based upon dependable facts marks the successful man—the man of decision and action. Nelson's Loose-Leaf Encyclo-

paedia is a complete Reference Library, accurate, concise, authoritative. It covers the whole field of knowledge from the dawn of civilization to the present day. Fifteen minutes a day with Nelson's will enable you to think clearly, to decide promptly, to be a leader among men.

The World's Greatest Educator Nelson's

Perpetual Loose-Leaf ENCYCLOPAEDIA

@ Research Bureau for Special Information

ALWAYS DOWN TO DATE

Every subject on which knowledge would be informed is changing constantly. Nine times out of ten, the information you want is of current issue—a topic of today. All Encyclopaedias except Nelson's are deficient in this important and essential thing. The information which is obsolete does more harm than good. You do not use a City Directory that is two years old. Why use an Encyclopaedia that is five or ten years old?

ALWAYS NEW—Every 6 months all subscribers to NELSON'S receive their renewal pages—250 pages or more—between 500 and 700 pages each year. These include over 2,000 changes each year and keeps NELSON'S perpetually accurate and down to date.

THIS WONDERFUL ENCYCLOPAEDIA.

brings to you the knowledge of the centuries. It stands ready to answer any conceivable question in Aeronautics, Agriculture, Astronomy, Biography, Biology, Botany, Chemistry, Education, Electricity, Engineering, Mechanics and Machinery, Geology and Geography, History, Law, Mathematics, Medicine and Surgery, Military and Naval Science, Music, Literature and the Fine Arts, Political Science, Sociology and Economics, Religion, Sports, Technology and Manufacturers.

Nelson's treats upwards of 1,000 topics, has more than 500 maps, including new (1923) Maps of Europe, Africa, Arabia, Jugo-Slavia, Germany, France, Belgium, etc., etc., and 7,000 illustrations to clarify the text, including text cuts, colored plates, photographs, charts, etc.

FREE EDUCATIONAL READING COURSES

Nelson's Reading and study courses in UNITED STATES HISTORY, BUSINESS ECONOMICS, NATURE STUDY, AGRICULTURE AND HOME ECONOMICS are declared by educational authorities to be equal to a college course and training in each of these departments.

NELSON'S FREE RESEARCH BUREAU.

FOR SCIENTIFIC REPORTS AND SPECIAL INFORMATION AND CORRESPONDENCE. Every purchaser of Nelson's is entitled to free membership in this Bureau. If at any time you are at doubt on any subject, old or new, write to this Bureau with the positive assurance that you will promptly receive the latest obtainable and most dependable information.

COMB SAGE TEA INTO GRAY HAIR

Ladies! Try this! Darkens beautifully and nobody can tell—Brings back its gloss and youthfulness

Common garden sage, brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation, improved by the addition of other ingredients, a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not

useful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger.

TEXAS A. & M. COLLEGE PLANNING FOR BIG YEAR

REGISTRATION BEGAN MONDAY
WITH EXPECTATION OF
2,000 STUDENTS.

College Station, Texas, Sept. 16.—Preparations for largest single enrollment in the A. & M. College of Texas are now being made. It is certain that the maximum capacity of the College will be taken by the host which applies for admission this week, and this is approximately 2,000. Dormitory use can be expanded by the use of tents, but it is hardly possible to arrange class room and laboratory space for a greater number than 2,000. In order to keep the enrollment down to the number that can be conveniently accommodated, the requirements for admission will be adhered to with strictness.

Registration will begin Monday and will continue until Friday. With the funds available from appropriations and other small sources, facilities for housing and instruction have been expanded to the limit and it is hoped that they will be equal to the demands made upon them. However, President Bizzell has been reticent about declaring so dogmatically as in past years that he will not deny the opportunities of education in the A. & M. College to any boy who applies here and is willing to accept the accommodations offered on an equal basis with other students.

ROBERT DAVIS, HERO OF VIMY RIDGE RETURNS HOME.

Robert Davis, the hero of Vimy Ridge and the man who first planted the Stars and Stripes on the battle field in the recent World war, returned home last week to live at the home of his brother-in-law, J. R. Blanchard, four miles west of Pendleton, with whom his mother, Mrs. Sarah Davis is living. Davis was wounded 21 times by machine gun and shrapnel fire after he had placed Old Glory on a bayonet and hoisted it above Vimy Ridge on April 9, 1917.

"I drifted into Canada before the war and when the war broke out in 1914 I saw it was a fight for every red-blooded man," he said yesterday, "and enlisted. We landed in France on Jan. 2 of 1915 and got into the fighting at the Ypres salient. On May 15 the Germans started their first poison gas attack and if they had known how little was before them could have gone through the few Canadians left and reached Calais. But they waited and were repulsed."

Davis fought through a number of engagements and then went through the Somme battles. "The Canadians drifted over to Vimy Ridge on Nov. 28, 1916," he said. "Things remained quiet and preparations went forward for the battle of Vimy Ridge in April 1917. Billeted in a small town I met a French girl who asked me to carry an American battle flag into the fight on the next Monday. America having just entered the war. I never thought much about what it meant, but I was glad to do it. When we went over the top I tied the flag to my bayonet and stuck my rifle in the mud on the ridge. I heard that it stayed there for more than a year."

Davis was shot down and was in the hospital five months and was three months longer convalescing. After recovering, he returned to Canada and last week returned to his relatives in Bell county and to be with his mother.

Sergeant Davis, as he was known in the war, and whose name was heard over the world when he unfurled the stars and stripes for the first time in the World war, is a son of the late J. D. Davis, the first pastor of the Grace Presbyterian church. While Mr. Davis has received from his war wounds, he is hardly able to do hard manual labor. "I'm not going to fail to try it though," he said yesterday.

INAUGURATES UNUSUAL METHODS AT REVIVAL.

Rockdale, Texas, Sept. 16.—A rather unusual procedure is being employed by the Rev. J. Ed. Morgan, general evangelist of the Methodist Episcopal church, South, in a series of religious meetings being conducted here.

Mr. Morgan is devoting certain nights to other Protestant denominations, having Baptist night, Presbyterian night, etc. He has also lined up his audience to utilize their cars in bringing at least one other person to the services at night, which has augmented the crowds.

Further, he has induced members of the Cameron Methodist church to come over one night next week, which will be known as Cameron night.

FIERY CROSS OF KLAN GLARES DEFENCE OVER OKLAHOMA MACHINE GUNS

Oklahoma City, Okla., Sept. 16.—While machine guns frowned on strategic centers here Sunday night and officers of the Oklahoma National Guard completed plans for putting the city under complete martial rule, pursuant to a proclamation of Gov. J. C. Walton, in which he announced the intention "to drive the Ku Klux Klan from the State," a huge electric cross, nearly thirty feet high, blazed from the top of a downtown building, the symbol of the Klan.

The cross was erected recently by the Klan when it became apparent that the Governor was directing his military action against that organization.

Similar crosses, it was announced, were erected in other cities of the State.

THORNDALE ABOLISHES INCORPORATION VOTED ONLY TWO MONTHS AGO.

Thorndale, Texas, Sept. 15.—In an election held here Friday, Thorndale voted to abolish the incorporation of the town by 141 to 41 votes, after having been incorporated only two months. City officers, who were elected at an election on August 18 will not have to qualify since the result of Friday's election was unfavorable on continuing the new government.

Thorndale, Texas, Sept. 15.—W. D. Junek, proprietor of the Star Garage has sold an interest in the business to F. H. Thomas of Houston, the trade being closed on Tuesday of this week.

THE STATE OF TEXAS.

To the Sheriff of any Constable of Milam County:—GREETING:

You are hereby commanded to summon A. B. Davis, and if the said A. B. Davis be dead, then the unknown heirs of A. B. Davis and the heirs and legal representatives of such unknown heirs, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, to appear at the next regular term of the District Court of Milam county, Texas, to be held at the court house thereof in Cameron, Texas, on the second Monday in November, A. D. 1923, the same being the 12th day of November A. D. 1923, then and there to answer a petition filed in said court on the 10 day of September, A. D. 1923, in a suit numbered on the docket of said court No. 8959, wherein J. L. Powell is plaintiff and A. B. Davis and the unknown heirs, are defendants, said petition alleging:

That the plaintiff resides in Williamson county, Texas, and that the residence of A. B. Davis is unknown, and that if the defendant, A. B. Davis, be dead, then that the names and residences of the heirs of A. B. Davis are unknown. And that the plaintiff is the owner by fee simple title of the following described tract of land situated in Milam county, Texas, to-wit:

Being a part of the David Mumford league survey of land and beginning at the southwest corner of a tract of 460 acres out of said survey which was conveyed by T. W. Robinson and Samuel Carter, administrators of the estate of Sarah Mumford, deceased, to A. B. Davis by deed dated February 1st, 1872, and recorded in Vol. "B" 2, page 536 of the deed records of Milam county, Texas, such beginning point being in the center of Donahoe's Creek; thence North 19 E. 2038 varas to corner; thence South 71 East 353 varas to the N. W. cor. of the 104.8 acre tract conveyed by A. B. Davis to R. M. Wiley and R. S. Porter by deed which is recorded in Vol. "A" 1, page 63 of said deed records; thence S. 19 W. 1980 varas to the S. E. corner of this tract in the center of Donahoe Creek, from which a Cottonwood brs. N. 43 W. 8 varas; thence up the center of said creek with its meanders to the place of beginning, containing 123 acres of land.

That the plaintiff and those under whom he claims have had peaceable, actual, adverse possession of all of

said land for more than ten years next preceeding the institution of this suit, and that any right of action which the defendants, or any of them may ever have had to recover said land, or any part thereof, accrued to them and each of them more than ten years prior to the institution of this suit. And plaintiff pleads the Statute of Limitation of Ten Years in bar of any right in defendants, or any of them, as to any portion of or interest in said land.

Plaintiff further alleges that by deed dated May 23rd, 1876, and recorded in Vol. E 2, page 408 of the deed records of Milam county, Texas, A. B. Davis conveyed to D. C. Robinson 123 acres of land out of said David Mumford league survey, by which deed A. B. Davis intended to convey the land above described, but by mistake in drawing such deed the beginning point of said tract was named as "the southwest corner of a survey made for A. B. Davis by W. J. Covington," from such beginning point should have been named as the southwest corner of the 460 acre tract conveyed to A. B. Davis by the administrators of Sarah Mumford, deceased. And plaintiff shows that by a regular chain of conveyances from D. C. Robinson and his vendees plaintiff is the owner of and in possession of the land intended to be described in said deed from A. B. Davis to D. C. Robinson, and that the land which was actually delivered under said deed from A. B. Davis to D. C. Robinson and by the vendees of D. C. Robinson down to and including plain-

tiff was and is the land hereinabove first described.

Plaintiff alleges that it appears from the deed records of Milam county, Texas, that at one time the defendant, A. B. Davis, had or claimed some interest in or title to the land above described, which does not appear to have ever been properly divested out of him, and that if the said A. B. Davis be dead, then it would appear from the face of said records that the unknown heirs of A. B. Davis have some interest in or title to said land, as his heirs, and that such facts constitute a cloud upon plaintiff's title to said land.

Plaintiff prays that defendants be cited by publication to answer his petition, and for judgment against all the defendants correcting said mistake in said deed from A. B. Davis to D. C. Robinson and removing said cloud from plaintiff's title to said land, and for all such other relief, both in law and in equity, to which he may be entitled.

Herein fail not, but have you before said court on the first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

Witness Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in the City of Cameron, Texas, this 10 day of September A. D. 1923.

PENN WOLF, Clerk,
Of the District Court of Milam County, Texas. 20-4t

DALLAS GOVERNMENT IS COSTING \$48 PER CAPITA

ALMOST DOUBLE IN 5 YEARS
SHOWN BY RECENT STATISTICS OF THAT CITY

EXPENDITURES:

Washington, D. C., Sept. 20.—The Department of Commerce announces that the costs of government for the City of Dallas, Texas, for the fiscal year ended April 30, 1922, amounted to \$8,057,735, which was a per capita cost of \$47.98. In 1915, \$26.20, the cost was \$27.46, in 1916, \$27.53, in 1917, \$28.45, and in 1918, \$29.33. The per capita costs for 1922 consisted of expenses of general departments, \$24.87; expenses of public service enterprises, \$2.26; payments for interest, \$3.93; and for outlays, \$16.91. Almost 50 per cent of payments for permanent improvements was for schools, amounting to more than \$1,000,000.

REVENUES:

The total revenue receipts for 1922 were \$6,529,993, or \$38.79 per capita, the per capita excess of governmental costs over revenue receipts was, therefore, \$9.19.

In Dallas property taxes represented 69.5 per cent of the total revenue for 1922, 68.7 per cent for 1918, and 66.6 per cent for 1915. The increase in the amount of property taxes collected was 25.1 per cent from 1915 to 1918, and 74.2 per cent for 1918 to 1922. The per capita property taxes for the three specified years were \$26.98, \$20.43, and \$18.65, respectively.

Business and non-business licenses were 0.5 per cent of the total revenue for 1922, 0.6 per cent for 1918, and 1.6 per cent for 1915.

INDEBTEDNESS.

The net indebtedness (funded and floating debt less sinking fund assets) of Dallas was \$69.67 per capita for 1922, \$43.51 for 1918, and \$53.25 for 1915.

ASSESSED VALUATION AND TAX LEVIES.

For 1922 the assessed valuation of property in Dallas, Texas, subject to ad valorem taxation for the city corporation was \$188,193,800. The levy for all purposes for 1922 was \$6.002,007, this being a per capita of \$41.00; City corporation, \$26.83; State \$6.29; and County \$7.88.

DRILLING PICK UP IN VICINITY OF CAMERON.

Cameron, Texas, Sept. 15.—Since the bringing in of the second well on the Arch Watson farm several months ago, which meant a very considerable extension of the Minerva field, there has been quite a renewal of drilling activity. Wallace, Jones & Leach on this farm have recently

completed No. 3 well for a producer of at least 15 barrels per day.

Dr. T. A. Rountree of Rockdale, on his own farm between the Watson farm and the Niehaus farms, has finished rigging up and is about to begin drilling No. 1 well.

The Texas Petroleum Development Company has completed its No. 3 well for a 15 barrel well on its Niehaus 100 acre lease.

Brynum & Ferguson are getting ready to drill No. 3 on their Niehaus lease, having already drilled two good producers on the same lease within the past several months.

Clifton Brothers on the Sheldahl farm struck gas and oil at 1,220 feet but no estimate can be made of the probable outcome of their efforts at this time. Should it develop into a producing well in commercial quantities it will greatly enlarge the producing area of the Minerva field.

Fritz Fuch is drilling No. 8 on his W. P. Henry lease No. 7 recently completed, is making about eight barrels per day.

Kemp & Underwood have completed their No. 1 on their Robert Isaac lease for a six barrel producer.

The Texas Petroleum Development Company is cleaning out the 12,000 foot hole drilled by them last spring on the R. L. Batte farm on the west side of the river in the Tracy field, over which it recently built a 96 foot derrick and installed a heavy rotary rig, preparatory to the deepening of the same to a depth of at least 3,500 feet if oil is not found at a lesser depth. John A. Lee, field manager, who has had a great deal of experience in the oil business, was so favorably inclined to the belief that the prospects for oil were so promising in this immediate territory that, after having drilled several shallow wells on this farm with meager results and moving off, has contracted with the Baggett Drilling Company to drill the well.

THE BIG KEY TO SUCCESS.

There is no class of employees that find a more regular and constant demand for their service than Telegraphers. The capable operator can always command a good salary, and the opportunities for promotion are unlimited as witnessed by the number of operators who have risen to the position of railroad hands.

The largest of telegraph and radio schools in America, equipped with over a hundred sets of instruments, a train wire of the main line railroad, all telegraph and freight blanks and books of records, tickets, and in fact everything just as complete as found in the best equipped railroad offices or Western Union, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—the Tyler Commercial College of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal Telegraph companies for operators.

Read the following letter from the Superintendent of Telegraphy of one of the large Railroad systems:

Tyler Commercial College, Gentlemen: If you will send us the high class students you have been sending, we can use all that you can send. Could use a large number at the present time if you have them. In this connection will say what students you have sent us have been very satisfactory and have developed into some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your graduates at once and keep them coming as fast as they are capable. I had the pleasure to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all the requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. FRENZER,

Supt. Telegraph, Union Pac. Ry. Our telegraph students are on all the leading Southwestern roads and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

DOES YOUR BACK ACHE?

It's usually a sign of sick kidneys, especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Cameron man's testimony.

F. A. Mosley, Farmer, Second St., says: "I was down and out with my back and was in such a condition, I could hardly do a thing. My back ached all the time and my kidneys were irregular. The secretions con-

tained sediment that looked like brick-dust and the passages were painful. I tried several kinds of kidney medicine, but the only one that did me any good was Doan's Kidney Pills. They cured me of the attack. I am proud to recommend Doan's, for they are just what is claimed for them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Mosely had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (11)
